

Nanny

A rewarding and flexible career choice

Nannies are childcare professionals who work at the home of one family at a time, and are employed by a parent rather than being self-employed. Nannies often have sole charge of a family's children, and can also work for two families at once as part of a nanny-share arrangement.

Do you have what it takes?

- Do you passionately believe all children deserve the best start in life?
- Are you committed to providing quality care?
- Are you dedicated to ensuring children receive high quality learning and development opportunities?
- Are you flexible and adaptable?

Did you know...

nannies in Wales can join an approval scheme with Care Inspectorate Wales (CIW)? Being approved helps you demonstrate to parents your commitment to the care of their children to the highest possible standards. Parents may be able to receive financial assistance through a range of UK Government tax and benefit concessions.
