

Vale of Glamorgan Council Cabinet Meeting. 7<sup>th</sup> January 2019

Targeted Regeneration Investment Programme 2018/19-2020/21: Update.

Part One

I have been asked to comment upon this report as a local member for the Buttrills Ward.

I support the principle of application for TRIP funding for the Gladstone Road Regeneration Area Project, and hope that these long awaited and long-trailed improvement works can take place as soon as possible, subject to acceptable proposals being brought forward following consultation.

I am disappointed, however, that a Master Plan has not yet been brought forward given the length of time since initial discussions began regarding the area.
