

THE VALE OF GLAMORGAN COUNCIL

CABINET: 21ST JANUARY, 2019

REFERENCE FROM CORPORATE PERFORMANCE AND RESOURCES
SCRUTINY COMMITTEE: 13TH DECEMBER 2018

“ INITIAL REVENUE BUDGET PROPOSALS 2019/20 AND REVISED
BUDGET 2018/19 (MD) –

Appendix 1 to the report set out the amended revenue budget for 2018/19 together with the necessary adjustments to be made to the original budget. The Head of Service advised that currently the Council Tax Reduction Scheme was included under the Private Housing heading. Due to changes in guidance received from the Wales Audit Office, the Council had been asked to report this scheme under the central Policy heading. A virement of £9.94m was therefore required and this change was included in Appendix 1 which showed the revised budget for 2018/19 and Appendix 5 which showed the base budget for 2019/20.

The report referred to the various departments within the Council as outlined below:

- The forecast for Learning and Skills was an overspend of £142k after an anticipated use of reserves, however, the Directorate had been requested to look at ways of mitigating this position to deliver an outturn within budget at year end;
- The forecast for Social Services was shown as a balanced budget. However, there would be considerable pressure on this service in the current year and this position may not be achieved and a drawdown from reserves may be required;
- Neighbourhood and Transport Services was currently projected to outturn on budget, however, there were some areas of concern to highlight and reserves would be utilised;
- The Directorate of the Managing Director and Resources was expected to outturn on target at year end.

As part of the Final Revenue Budget Proposals for 2018/19, a savings target of £6.298m was set for the Authority. Attached at Appendix 2 to the report was a statement detailing the projected progress against savings targets for 2018/19. It was currently projected that there would be a shortfall against the savings target of £724k. Each savings target had been given a RAG status. Green indicated that it was anticipated that the target would be achieved in full within the year, Amber indicated that it was considered that the saving in the year would be within 20% of the target and Red indicated that the saving to be achieved in year would be less than 80% of the target.

Neighbourhood and Transport Services – There was a savings target of £951k however it was currently anticipated that £636k would be achieved leaving a shortfall of £315k to be identified. Work was continuing to identify schemes to close this gap however any shortfall at year end would need to be funded from the Neighbourhood Services reserve.

Managing Director and Resources – A Corporate Services saving of £700k had been allocated for 2018/19 however £600k had currently been identified for the year. Further work was being undertaken to identify additional savings and the shortfall could reduce by year end however, any shortfall at year end could be funded from savings elsewhere in the Directorate.

Council Wide – It was anticipated that the Commercial Opportunities savings target would have a shortfall of £178k this year. Work continued to explore new ways of generating income. Sponsorship of the summer events programme had yielded income for the first time with follow-up interest expressed in other opportunities. The changes to concessions for bulky item collections were forecast to increase income this year, in addition to the work to increase income within registration services, filming and additional website advertising. The Digital Strategy savings target was anticipated to have a £131k shortfall at year end. Work was underway to deliver digital projects focusing on customer and employee systems. Work to enhance the website and its functionality had commenced in order to shift customers to digital channels. Work was underway within the digital employee project to make efficiencies from digital recruitment and DBS management.

To ensure that the budget set for 2019/20 continued to address the priorities of Vale residents and the Council's service users, the budget setting process would take into account the results of the Public Opinion Survey. The Public Opinion Survey was undertaken every two years and captured the views of a representative sample of Vale residents. The survey represented the most accurate information that was held on what the Vale's residents thought of the work that the Council did. The views of Elected Members, Town and Community Councils and key partners would also be sought through a separate exercise.

The Council's provisional settlement had been announced by Welsh Government on 9th October, 2018. The Council was currently in the process of responding to the provisional settlement and a report was being presented to Corporate Performance and Resources Scrutiny Committee which outlined a suggested response, with a reference to Cabinet for consideration on 19th November, 2018.

Welsh Government had advised the Council that its provisional SSA (Standard Spending Assessment) for 2018/19 was £226.748m. SSA represented Welsh Government's view of the relative resources needed to provide a standard level of service in each Local Authority in Wales and its primary use is to allocate RSG to these Authorities.

The Council would receive from Welsh Government Revenue Support Grant of £110.163m and a share of the Non-Domestic Rates (NDR) of £41.76m. Together these figures constituted the Council's provisional Aggregate External Finance (AEF) of £151.923m. This represented a cash reduction of 0.7% (£1.037m) for 2019/20

after taking into account adjustments. This was a slightly smaller reduction than the 1% (£1.524m) projected in the MTFP, although it did not take into account inflation. Wales as a whole had seen a decrease of 0.3%.

There were transfers into the RSG settlement for 2019/20 totalling £479k as follows:

- Teachers Pay Grant : £354k
- Free School Meals Grant : £125k.

As part of the 2018/19 settlement, WG had also provided an indicative figure for the change in AEF for 2019/20 as a further reduction of 1%. No indicative figure had currently been provided for 2020/21. As part of these initial proposals, it had been necessary to revisit the cost pressures facing services in order to build up a complete and up to date picture of the financial position of the Council and an updated list was shown in Appendix 3 to the report. These were not shown in any order of priority. One of the larger new cost pressures facing the Council over the next two years was the increase in Teachers Pension contributions which was due to increase from 16.48% to 23.6% from 1st September, 2019 and could cost the Council around £3.1m. No additional funding had been provided by Welsh Government for this cost pressure.

From April 2019 the National Living Wage would increase from £7.83 an hour to £8.21. The increase would have a significant effect on the services the Council commissions from external organisations. The main area affected was Social Services and a cost pressure had been included to reflect this.

Details of the proposed areas for savings for 2019/20 to 2020/21 were attached at Appendix 4 to the report. The savings did not include the cost of any potential redundancies. Further work was ongoing to identify future projects that would realise savings for the Council via the Reshaping Service Tranche 4 process.

The estimates had been submitted to all Scrutiny Committee for consultation with the request that any comments be referred to the Corporate Performance and Resources Scrutiny Committee as the lead Scrutiny Committee by no later than 13th December, 2018. The references from the four Scrutiny Committees had been e-mailed to Members as supplementary information prior to the Committee meeting and copies also tabled at the meeting for Members consideration. The recommendations of the Committees were noted as follows :

“On 4th December, 2018, Healthy Living and Social Care Scrutiny Committee

RECOMMENDED –

(1)

(2) T H A T the Corporate Performance and Resources Scrutiny Committee pass on to Cabinet the Committee’s comments regarding acknowledgement of the increase in demand for services for Adults and Children and the pressures on the service’s budgets, and a call for an easing of the cost pressures that needed to be fully considered and applied.

Reasons for recommendations

(1)

(2) In order for Cabinet to consider the Committee’s view that acknowledgement should be given to the cost pressures and demands placed upon Children and Adult Services and the call for these services to be fully funded.”

“On 5th December, 2018, Homes and Safe Communities Scrutiny Committee

RECOMMENDED -

(1)

(2) T H A T the Initial Revenue Budget Proposals for 2019/20 and the comments raised by the Committee, including those relating to cost pressures as set out in the minute above be passed to the Corporate Performance and Resources Scrutiny Committee as the lead Scrutiny Committee.

Reasons for recommendations

(1)

(2) In order that Cabinet be informed of the recommendations of Scrutiny Committee before making a final proposal on the budget.”

“On 6th December, 2018 Environment and Regeneration Scrutiny Committee

RECOMMENDED -

(1) T H A T Cabinet be advised of the Committee’s view that cost pressure V1 and the waste recycling treatment contract should be fully funded to the value of £850k per annum and for this money to be allocated from the Council’s General Fund Reserve.

(2) T H A T Cabinet and the Budget Working Group be advised of the Committee’s view that serious consideration is given to the level of reserves held in the Council Fund Reserve before costs are passed onto residents in the form of increased Council Tax.

(3)

(4)

Reasons for recommendations

(1) In order for cost pressure V1 and the waste recycling treatment contract should be fully funded as the costs for this had risen.

(2) In order that the burden for the funding of cost pressures are not passed onto Vale of Glamorgan Council Tax rate payers.

(3)

(4)”

On 11th December, 2018 Learning and Culture Scrutiny Committee

RECOMMENDED – T H A T the Scrutiny Committee recommend to Corporate Performance and Resources Scrutiny Committee

(1) T H A T Cabinet be requested to consider carefully the impact for the service areas should it decide not to fund some of the cost pressures noted for the Directorate.

(2)

Reasons for recommendations

(1) Having regard to the impact in relation to the Council’s statutory responsibilities and the full implications of decisions made in relation to cost pressures.

(2)”

Following the presentation by the Head of Service, the Head of Service was asked a number of questions as outlined below:

- If there was any indication that the Council would get any support for the Teachers’ Pension strain from Welsh Government.
- In referring to the shortfall in savings it was noted that if the £700k had been included then the figure would be over £11m.
- Had the assessment process changed for Ysgol y Deri resulting in the increased costs.
- Out of county placements – whether the figure of £400k had been accounted for by both the Education Department and Social Services.
- Homes Loan Officer was noted as a crucial, critical post with the suggestion that the Committee recommend to Cabinet that this remain on the establishment.
- That the detail in relation to the variety of savings options noted in the report be provided to Members.

- Why had the overspend of £82k on pupils not educated in schools been taken from the Youth Service reserve?

In response, the Head of Service advised that with regard to the reserves, a summary at Directorate level could be provided and the department would aim to do this in future reports. The Council was also hoping that the funding pension strain in relation to the teaching service would be funded within the Welsh Government settlement, but clarity on that was awaited. With regard to the £700k shortfall this had already been taken out of the budget and would be added to the £10m. In response to the query re £400k this had also not been double counted, only one £400k was in the figures. Referring to Ysgol y Deri, the Head of Service stated that she was not aware that the assessments had changed, but she was aware that there were increasing complexities of need amongst the cohort of young people at the school. The new ALN bill would also affect the budget as the Authority would have to now support ages 0 – 25 years old. In referring to the query regarding EOTAS, the Head of Service agreed to e-mail Members with the response. The Homes Loans Officer would also be part of the considerations during the budget round. In referring to EOTAS, the Head of Service advised that the reserves for Learning and Skills were not many and as such they did not have as much flexibility but she would seek clarity in relation to this matter. The Head of Service also agreed to obtain the detail in relation to the Environment and Housing savings and e-mail to Members for their information.

Another Member queried what the rationale was for the savings targets being around half of what it was for the current year. The Head of Service stated that the Council had reviewed the Reshaping Services Programme with consideration to be given to exactly what services needed to be provided. Due to insufficient funds she advised that the Council would need to consider significant service changes.

Having considered the report and the comments and recommendations received from the Scrutiny Committees, the following was subsequently

RECOMMENDED –

- (1) T H A T Cabinet be advised of the Committee's comments regarding acknowledgement of the increase in demand for services for Adults and Children and the pressures on the service's budgets, with a call for an easing of the cost pressures that needed to be fully considered and applied.
- (2) T H A T the Initial Revenue Budget Proposals for 2019/20 and the comments raised by the Committee, including those relating to cost pressures as set out Recommendation (1) above, be forwarded to Cabinet.
- (3) T H A T Cabinet be advised of the Committee's view that cost pressure V1 and the waste recycling treatment contract should be fully funded to the value of £850k per annum and for this money to be allocated from the Council's General Fund Reserve.
- (4) T H A T Cabinet and the Budget Working Group be advised of the Committee's view that serious consideration is given to the level of reserves held in

the Council Fund Reserve before costs are passed onto residents in the form of increased Council Tax.

(5) T H A T Cabinet be requested to consider carefully the impact for the service areas should it decide not to fund some of the cost pressures noted for the Directorate.

(6) T H A T the Council and Cabinet lobby both Westminster and the WLGA with a copy to the Minister Kirsty Williams regarding the teachers' superannuation costs, pointing out the issues and whether they would be prepared to look favourably on the Council in this regard.

(7) T H A T the Section 151 Officer and her staff be thanked for all their hard work in preparing the budget proposals.

Reasons for recommendations

(1) In order for Cabinet to consider the Committee's view that acknowledgement should be given to the cost pressures and demands placed upon Children and Adult Services and the call for these services to be fully funded.

(2) In order that Cabinet be informed of the recommendations of Scrutiny Committee before making a final proposal on the budget.

(3) In order for cost pressure V1 and the waste recycling treatment contract should be fully funded as the costs for this had risen.

(4) In order that the burden for the funding of cost pressures are not passed onto Vale of Glamorgan Council Tax rate payers.

(5) Having regard to the impact in relation to the Council's statutory responsibilities and the full implications of decisions made in relation to cost pressures.

(6) In view of budget constraints and the pressures on Local Authorities.

(7) Having regard to all the hard work in preparing the budgets."

Attached as Appendix – Report to Corporate Performance and Resources Scrutiny Committee: 13th December, 2018

The Vale of Glamorgan Council

Corporate Performance and Resources Scrutiny Committee: 13th December 2018

Report of the Managing Director

Initial Revenue Budget Proposals 2019/20 and Revised Budget 2018/19

Purpose of the Report

1. To submit for consultation the initial revenue budget proposals for 2019/20 and to inform Scrutiny Committee of the amended original budget for 2018/19.

Recommendations

It is recommended that:

1. The amended revenue budget for 2018/19 as set out in Appendix 1 be noted.
2. Scrutiny Committee considers the Initial Revenue Budget Proposals for 2019/20 and recommendations from other Scrutiny Committees and forwards its recommendations to Cabinet.

Reasons for the Recommendations

1. To note changes to the 2018/19 budget.
2. To enable Cabinet to consider the comments of Scrutiny Committees.

Background

2. The Council's budget is determined largely by the Revenue Support Grant (RSG) settlement set by the Welsh Government (WG). The provisional RSG settlement was received from WG on 9th October 2018, with the final settlement due to be received on 19th December 2018.
3. The Council is required under statute to fix the level of Council Tax for 2019/20 by 11th March 2019 and in order to do so, will have to agree a balanced revenue budget by the same date. To be in a position to meet the statutory deadlines and the requirements for consultation set out in the Council's Constitution, much of the work on quantifying the resource requirements of individual services needs to be carried out before the final RSG settlement is notified to the Council.

Revised Budget 2018/19

4. Appendix 1 to this report sets out the amended budget for 2018/19, together with the necessary adjustments to be made to the original budget.
5. Asset Rents, International Accounting Standard (IAS) 19, Transfers and Recharges - These adjustments have no overall effect on the net budget of the Council. These are accounting adjustments largely outside the control of services. They reflect charges for the use of capital assets, changes to inter-service recharges and transfers and pensions adjustments to comply with accounting standards.
6. Currently the Council Tax Reduction Scheme is included under the Private Housing heading. Due to changes in guidance received from the Wales Audit Office, the Council has been asked to report this scheme under the central Policy heading. A virement of £9.94m is therefore required and this change is included in Appendix 1 which shows the revised budget for 2018/19 and Appendix 5 which shows the base budget for 2019/20.
7. The following table compares the amended budget with the projected outturn for 2018/19. Services are anticipating drawing down from reserves this year with the main areas outlined in the following table.

	2018/19	2018/19	2018/19	Variance
Directorate/Service	Original	Amended	Projected	(+)Favourable
	Budget	Budget	Outturn	(-) Adverse
	£'000	£'000	£'000	£'000

Transfer to Reserves	0	0	4,000	-4,000
Total	222,053	222,053	222,053	0

Learning and Skills

8. The forecast for Learning and Skills is an overspend of £142k after an anticipated use of reserves, however, the Directorate has been requested to look at ways of mitigating this position to deliver an outturn within budget at year end.
9. Schools - The delegated budget relating to schools is expected to balance as any under/over spend is carried forward by schools.
10. Strategy, Culture, Community Learning and Resources - It is anticipated that this budget will outturn with a favourable variance of £42k. There are favourable variances of £73k on staffing, £43k on Libraries, £10k on independent nursery placement costs, £20k relating to school repairs and £29k on the reversing of a commitment from a historic grant. This will be offset by an overspend of £133k on mainstream transport. This is mainly due to the increased price in certain contracts since a contractor's licence was revoked. These routes had to be retendered and there has been a general increase in prices. There will be a planned transfer from reserves of £552k. £312k will be required from the Schools Rationalisation reserve to fund one off costs in relation to the transformation of secondary schools in Barry, £187k of the Catering reserve will be used to invest in Catering equipment and update the service's ICT infrastructure, £28k will be transferred from the School Deferred Pension reserve to fund in year pension strain costs of early retirement and £25k will be transferred from the Schools Invest to Save reserve to fund redundancy costs in schools.
11. Directors Office - It is anticipated that this budget will outturn with a favourable variance of £27k due to a post being held vacant to partly mitigate the overspend elsewhere in the Directorate.
12. Achievement for All - It is anticipated that this service will overspend by £363k at year end before a transfer of £107k from reserves to fund overspends. The complex needs Out of County placements, independent placements and Looked After Children residential placements budget will overspend in total by £319k. There is an overspend of £135k relating to the resource bases and outreach teams. There is an overspend of £82k on the provision for pupils not educated at schools (EOTAS) and £25k in the Youth service due to one off restructuring costs. Both these overspends totalling £107k will be funded from the Youth Service reserve. This adverse position will be offset by a favourable variance of £120k relating to recoupment income and £78k on staffing due to posts being held vacant to partly mitigate the overspend.
13. School Improvement - It is anticipated that this budget will outturn with a favourable variance of £45k due to a senior post being held vacant to partly mitigate the overspend elsewhere in the Directorate.

Social Services

14. The forecast for Social Services is shown as a balanced budget. However, there will be considerable pressure on this service in the current year and this position may not be achieved and a drawdown from reserves may be required.
15. Children and Young People Services - The major issue concerning this service for the current year is the pressure on the children's placements budget given the complexities of the children currently being supported and the high cost placements some of these children require to meet their needs. Work continues to ensure that children are placed in the most appropriate and cost effective placements, however in the context of the complexity of need and the national challenges in identifying placements, it is currently anticipated that this budget will overspend. It should be

noted that due to the potential high cost of each placement, the outturn position could fluctuate with a change in the number of children looked after and/or the complexity of need. The service holds a reserve that could be accessed at year end to fund high cost placements if required, however a drawdown from reserves of £500k is currently being shown.

16. Adult Services - The major issue concerning this service for the coming year will continue to be the pressure on the Community Care Packages budget. This budget is extremely volatile and is influenced by legislative changes such as the National Living Wage. The outturn position is difficult to predict. The service also continues to be affected by the pressures of continued demographic growth, an increase in the cost of service provision and the Community Care Packages budget will have to achieve further savings this year. The service will strive to manage growing demand and will develop savings initiatives which may be funded via regional grants. Welsh Government has continued to provide Intermediate Care Fund (ICF) grant to Cardiff and Vale University Health Board to allow collaborative working between Health and Cardiff and the Vale Councils however the level of grant funding is not guaranteed on an ongoing basis.

Environment and Housing

17. Neighbourhood and Transport Services is currently projected to outturn on budget, however, there are some areas of concern to highlight and reserves will be utilised.
18. Within the Waste Collection Service there is still pressure on employee and transport budgets due to downtime involved in travelling to Cardiff to dispose of waste. There has recently been a change to the use of a site within Cowbridge for some elements of waste which is anticipated to decrease the level of downtime currently experienced. £200k had been set aside for 2018/19 within the Neighbourhood Services Reserve with an aim to offset this budget pressure. Due to an increase in treatment charges within the recycling market, primarily as a result of China's decision to reject elements of mixed recycling, there is also a pressure within the recycling treatment budget. Again funding had been set aside in reserves for 2018/19 to cover this pressure however this is only a one-off funding stream and a cost pressure has been submitted for 2019/20.
19. The Reshaping Services savings target for Neighbourhood and Transport Services for 2018/19 is £951k. £375k of this saving relates to the remaining balance to be found from the recent restructure within Neighbourhood Services. The restructure has been effective from 1st April 2018 however due to the timescales and notice periods required, some staff have remained in post longer than anticipated. This may have some effect on the level of savings achievable. It is envisaged that the full £951k saving will not be made in this financial year and a shortfall of £315k is being reported. Plans for the remainder of the savings are currently being developed and will be reported to Cabinet in due course however the Neighbourhood Services Reserve will be required to meet any remaining shortfall in savings at year end.
20. Regulatory Services - The allocation represents the Vale of Glamorgan's budget for its share of the Shared Regulatory Service (SRS). A separate set of accounts is maintained for the SRS and periodically reported to the Shared Regulatory Service Joint Committee. At this stage in the year it is anticipated that the SRS will outturn on target.
21. Council Fund Housing - At this stage of the year, it is anticipated that this budget will outturn on target.

Managing Director and Resources

22. It is projected that Managing Director and Resources will outturn on target at year end.
23. Resources - A corporate savings target of £700k has been set for the year. Currently savings of £600k have been actioned. There are various small underspends in the division that will be used to ensure the service outturns within budget at year end.
24. Regeneration - This budget covers the Countryside, Economic Development and Tourism & Events functions. Although the forecast is again shown as a balanced budget at year-end, there remains concern over the income targets for car parking charges and commercial opportunities within the Countryside Division, where historic savings targets are unlikely to be achieved this year. Efforts will however be made to maintain a balanced budget by year-end, but the situation will need to be closely monitored.
25. Development Management - Planning application fee income has now fallen well behind target as at 30th September. Application fee income is difficult to forecast as there is no regular trend to track, but in the absence of any major applications being received this year it seems unlikely that the current target can now be achieved. As there are underspends in staff costs and Building Control income remains buoyant, it is still anticipated that the overall position for this Division at year-end will be a breakeven position. The Section is also continuing to pursue the use of Planning Performance Agreements and other income generation initiatives such as pre-planning application advice to help support the regulatory process.
26. Private Housing - The income from Disabled Facility Grants (DFG) fees remains behind profile as at 30th September, due mainly to a reduction in applications coming through for DFG adaptations, hence capital expenditure has reduced and consequently agency fee income to revenue is also lower. This puts pressure on the revenue budget where fee income targets may not be achieved. There is very little scope to actively reduce expenditure to mitigate this position, however there has recently been an indication of an upturn in demand. As such, should there be an overspend at year-end and the budget for the division cannot be balanced, the shortfall could be funded from reserves.

General Policy

27. The projected outturn for Policy is a favourable variance of £4m when compared to the amended budget.
28. There is a projected underspend on the Council Tax Reduction Scheme of £200k due to a lower than anticipated take up.
29. It is projected that there will be a favourable variance of £2m relating to capital charges and given that the collection of Council Tax continues to be effective, a positive variance of £1.8m is predicted.
30. It is proposed that the sum of £4m is transferred into the Council Fund and its use will be considered by the Budget Working Group when it is taking into account all factors in formulating a balanced revenue and capital budget for the final proposals which will be presented to Cabinet and Council in February 2019.

Savings 2018/19

31. As part of the Final Revenue Budget Proposals for 2018/19, a savings target of £6.298m was set for the Authority. Attached at Appendix 2 is a statement detailing the projected progress against savings targets for 2018/19. It is currently projected that there will be a shortfall against the savings target of £724k.
32. Each savings target has been given a RAG status. Green indicates that it is anticipated that the target will be achieved in full within the year, amber indicates that it is considered that the saving in the year will be within 20% of the target and red indicates that the saving to be achieved in year will be less than 80% of the target.
33. Neighbourhood and Transport Services - There is a savings target this year of £951k however it is currently anticipated that £636k will be achieved leaving a shortfall of £315k to be identified. Work is continuing to identify schemes to close this gap however any shortfall at year end will need to be funded from the Neighbourhood Services reserve.
34. Managing Director and Resources - As previously stated a Corporate Services saving of £700k has been allocated for 2018/19 however £600k has currently been identified for the year. Further work is being undertaken to identify additional savings and this shortfall may reduce by year end. It is anticipated that any shortfall at year end can be funded from savings elsewhere in the Directorate.
35. Council Wide - It is anticipated that the Commercial Opportunities savings target will have a shortfall of £178k this year. Work continues to explore new ways of generating income. Sponsorship of the summer events programme has yielded income for the first time with follow-up interest expressed in other opportunities. The changes to concessions for bulky item collections is forecast to increase income this year, in addition to the work to increase income within registration services, filming and additional website advertising. The Digital Strategy savings target is anticipated to have a £131k shortfall at year end. Work is underway to deliver digital projects focusing on customer and employee systems. Work to enhance the website and its functionality has commenced in order to shift customers to digital channels. Work is underway within the digital employee project to make efficiencies from digital recruitment and DBS management.

Budget Strategy 2019/20

36. Cabinet approved the Budget Strategy for 2019/20 on the 16th July 2018, min no. C366.
37. The Budget Strategy for 2019/20 outlines that in order to establish a baseline, services should prepare initial revenue budgets based on the cost of providing the current level of service and approved policy decisions and including the existing savings target.
38. Increases to budgets approved during the course of a financial year can restrict the freedom the Council has to allocate its resources to priorities during the following budget cycle when it is aware of all the competing demands. Consequently:
 - Supplementary estimates will only increase the base budget if Council has given specific approval to this effect. Increases met by virement within a year will not be treated as committed growth.
 - Directors should find the cost of increments and staff changes from their base budget unless the relevant specific approval has been given for additional funding.

- The effect of replacing grant from outside bodies that has discontinued will not be treated as committed growth. In addition, before any project or initiative that is to be met either wholly or partly by way of grant may proceed, the exit strategy must be approved.
 - Certain items of unavoidable committed growth will continue and these include the effect of interest changes and the financing cost of the Capital Programme, increases in taxes, increases in levies and precepts charged by outside bodies and changes to housing benefits net expenditure.
 - Services will be expected to achieve savings already approved by Cabinet as part of the 2018/19 final budget proposals and Directors are asked to continue work on achieving their Reshaping Services savings targets.
 - It is envisaged that the costs of service development will need to be met from within the respective directorates.
39. Having regard to the above, it is therefore proposed in respect of the 2019/20 Budget Process that Directors be instructed to prepare initial revenue budgets in accordance with a timetable agreed by the Head of Finance. Preparation should be on the following basis:
- Capital charges, central accommodation costs and central support costs to be estimated centrally.
 - Services to prepare baseline budgets on current service levels as set out in the 2018/19 Final Revenue Budget report.
 - Budgets to be broken down subjectively and objectively in as much detail as deemed appropriate by the Head of Finance.
 - Budget reports to include revised estimates for 2018/19.
 - Full account to be taken of the revenue costs, other than debt charges, of new capital schemes coming into use.
 - Minimum savings targets to be met initially as detailed in the 2018/19 Final Revenue Budget report. Any savings made directly by services over and above individual service targets to count towards future saving targets or to meet unavoidable service cost pressures.
 - Directors will continue to draw up Service Plans that set out the aims and objectives for the service and any possible future developments and efficiencies.
 - As stated previously, it is expected that the revenue costs of service development will need to be met from within the respective services (in particular, from the savings made). As such, no revenue bids are initially to be made. However, services may still be asked to identify and prioritise any burgeoning revenue cost pressures for consideration.

Medium Term Financial Plan

40. The Medium Term Financial Plan (MTFP) 2018/19 to 2021/22 was presented to Cabinet on 17th September 2018 min no. C411.
41. It assumed a reduction in WG funding of 1% for the years 2019/20, 2020/21 and 2021/22. This resulted in the requirement to find savings of £15.714m over this period, with £3.627m currently having been identified. There was therefore further savings to be identified of £12.087m over the 3 year period.

42. The latest Plan factored in a managed level of cost pressures, a notional increase in Council Tax of 2.5% each year, projected annual pay awards and limited non pay inflation.

Budget Consultation with Stakeholders

43. To ensure that the budget set for 2019/20 continues to address the priorities of Vale residents and the Council's service users, the budget setting process will take into account the results of the Public Opinion Survey. The Public Opinion Survey is undertaken every two years and captures the views of a representative sample of Vale residents. The survey represents the most accurate information that is held on what our residents think of the work that the Council does. The views of elected members, town and community councils and key partners will also be sought through a separate exercise.

Provisional Settlement 2019/20

44. The Council's provisional settlement was announced by WG on 9th October 2018. The Council is currently in the process of responding to the provisional settlement and a report is being presented to Corporate Performance and Resources Scrutiny Committee which outlines a suggested response, with a reference to Cabinet for consideration on 19 November 2018.
45. WG has advised the Council that its provisional SSA (Standard Spending Assessment) for 2018/19 is £226.748m. SSA represents WG's view of the relative resources needed to provide a standard level of service in each local authority in Wales and its primary use is to allocate RSG to these authorities.
46. The Council will receive from WG Revenue Support Grant of £110.163m and a share of the Non- Domestic Rates (NDR) of £41.76m. Together these figures constitute the Council's provisional Aggregate External Finance (AEF) of £151.923m. This represents a cash reduction of 0.7% (£1.037m) for 2019/20 after taking into account adjustments. This is a slightly smaller reduction than the 1% (£1.524m) projected in the MTFP, although it does not take into account inflation. Wales as a whole has seen a decrease of 0.3%.
47. There are transfers into the RSG settlement for 2019/20 totalling £479k as follows:
- Teachers Pay Grant : £354k
 - Free School Meals Grant : £125k
48. As part of the 2018/19 settlement, WG had also provided an indicative figure for the change in AEF for 2019/20 as a further reduction of 1%. No indicative figure has currently been provided for 2020/21.
49. The value of some grant funding to be made available to councils on an all Wales level has been received from WG. Several grants including Flying Start, Families First, Out of School Childcare, St David's Day Fund, Communities First Legacy, Promoting Positive Engagement for Young People at Risk of Offending and Communities for Work Plus will be merged into one Children and Communities grant. Only an all Wales grant figure has been received at this point, however, the funding appears to be £1.2m (0.9%) lower than in 2018/19 and therefore the utilisation of the grant will need to be reviewed within the Council once the grant approval and full implication for the Council is received.

50. Information on grants shows an allocation across Wales of £30m for Social Care. It is not known at this stage the value of the allocation to this Council or whether there are specific terms and conditions attached.
51. It is anticipated that any additional funding required to raise the residential care capital limit will be determined before the final settlement is received.
52. On 29th October 2018, as part of the Chancellor's Autumn Budget, over £550 million of additional funding was confirmed for the Welsh Government through to 2020/21. Details of whether any of this funding will be provided to Local Government and if so when and in what form, is currently unknown.

2019/20 Initial Budget Proposals

53. As part of these initial proposals, it has been necessary to revisit the cost pressures facing services in order to build up a complete and up to date picture of the financial position of the Council and an updated list is shown in Appendix 3. These are not shown in any order of priority.
54. One of the larger new cost pressures facing the Council over the next 2 years is the increase in Teachers Pension contributions which is due to increase from 16.48% to 23.6% from 1st September 2019 and could cost the Council around £3.1m. No additional funding has been provided by WG for this cost pressure.
55. From April 2019 the National Living Wage will increase from £7.83 an hour to £8.21. The increase will have a significant affect on the services the Council commissions from external organisations. The main area affected is Social Services and a cost pressure has been included to reflect this.
56. Details of the proposed areas for savings for 2019/20 to 2020/21 are attached at Appendix 4. The savings do not include the cost of any potential redundancies. Further work is ongoing to identify future projects that will realise savings for the Council via the Reshaping Service Tranche 4 process.
57. A summary of the overall base budget for 2019/20 is attached at Appendix 5. This has been derived by adjusting the 2018/19 budget for items such as pay inflation and unavoidable growth, but does not include identified cost pressures or savings. These are shown as a note to the table and are further detailed in Appendix 3 and 4 respectively. Adjustments shown include the following :
 - Asset Rents, International Accounting Standard (IAS) 19 - Relates to accounting items outside the control of services. They reflect charges to services for the use of capital assets and adjustments in respect of pensions to comply with accounting standards.
 - Recharges/Transfers - Relates to changes in inter-service and inter Directorate recharges. It also includes the transfer of the £9.94m Council Tax Reduction Scheme budget from Private Housing to Policy.
 - Budget Adjustment - There is a £330k increase in budget due to the change in the use of the Social Services Fund in 2019/20.
 - Pay Inflation - This figure relates to pay awards for 2019/20. The projection is based on the preferred option included in the report that was approved by Cabinet on 17th September 2018 and is currently being consulted upon. Any further update will be included as part of the Final Budget Proposals report. A figure has been identified in the settlement for teachers' pay, however this only partially funds the pay settlement as both the UK and Welsh Government have assumed that local authorities will pay

the first 1% of the recently agreed pay deal. Currently due to the level of the projected shortfall no non pay inflation has been included for 2019/20.

- Committed Growth - This totals £479k and relates to the transfers into the RSG for WG grants.
58. Once the base budget for 2019/20 has been established, it must then be compared to the funding available to identify the extent of any shortfall. With a projected AEF of £151.923m and Council Tax at a current level of £69.573m, total available funding would be £221.496m. When compared to a base budget of £226.416m, this would result in a funding deficit for 2019/20 of £4.920m.

If all identified cost pressures were funded, this would increase the shortfall to £14.164m. If all proposed savings were achieved, the shortfall would be reduced to £10.420m.

Projected Budget Shortfall	2019/20
	£000
Funding Available	
Provisional AEF	151,923
Council Tax (Assumes no increase) *	69,573
Projected Funding Available	221,496
Base Budget	226,416
Projected Shortfall Against Base Budget	4,920
Assume all Cost Pressures Funded	9,244
Projected Shortfall with Cost Pressures Funded	14,164
Assume all Savings Achieved (including Schools)	(3,744)
Projected Shortfall	10,420

* This assumes no increase in Council Tax at this stage.

59. This shortfall above does not include any increase in Council Tax. A 1% increase in Council Tax equates to £696k. The following table shows the funding that could be raised from a range of Council Tax increases. The level of increase in Council Tax will need to be carefully considered in parallel with the other options available to the Council in order to reduce the funding gap and to consider the impact on the residents of the Vale.

Examples of Council Tax Increase %	Additional Funding Raised £000
2.5%	1,740
3%	2,088
3.5%	2,436

4%	2,784
4.5%	3,132
5%	3,480
5.5%	3,828
6.0%	4,176

60. The shortfall above is also based on the assumption that the savings target of £3.744m set for 2019/20 will be achieved in full. However, a high proportion of these savings relate to Reshaping Services schemes which reflect a new way of working and therefore require a lengthy period of time to implement. While all services are working towards achieving their 2019/20 targets, not all savings will be achieved in full for 2018/19. The potential for re-profiling savings will need to be assessed when setting the budget for 2019/20.
61. Further work will be undertaken by the Budget Working Group (BWG) in order to achieve a balanced budget for the final budget proposals for 2019/20. This will include a review of the use of reserves, a possible increase in Council Tax, a review of all cost pressures, possible changes to the approved saving targets, a review of the inflation assumptions and the current financial strategies. In order to provide options for balancing the 2019/20 budget, a sum of £4m from the projected underspend in 2018/19 will be transferred into the Council Fund, the use of which will be considered as part of the final budget proposals but may in part be used to balance the 2019/20 budget.
62. The BWG will consider the results of the budget engagement process in determining priorities for future savings and service delivery.
63. The BWG will also ensure that budget proposals consider the requirements of the Well-being of Future Generations Act and the Council's 4 well-being outcomes as detailed in the Corporate Plan. They will also ensure that the budget proposals reflect the 5 ways of working which are:-
- Looking to the long term: The budget proposals are a means of planning for the future and should take a strategic approach to ensure services are sustainable and that future need and demand for services is understood.
 - Taking an integrated approach: The budget proposals should consider and encourage ways of working with partners.
 - Involving the population in decisions : As part of the budget proposal process there will be engagement with residents, customers and partners.
 - Working in a collaborative way: The budget proposals should recognise that more can be achieved and better services can be provided by collaboration and this way of working in the future should be encouraged.
 - Understanding the root cause of issues and preventing them: The budget process is proactive and will allow an understanding of the financial position so that issues can be tackled at the source during the process.

Next Steps

64. The next stage is for the estimates to be submitted to Scrutiny Committees for consultation. Committees are asked to review the level of cost pressures with a view to suggesting ways in which these could be managed downwards and/or mitigated and to consider proposals for savings. Corporate Performance and Resources Scrutiny Committee is the lead Scrutiny Committee and will consider both the Initial Revenue Budget Proposals and any recommendations that other Scrutiny Committees have made. The responses of Scrutiny Committee must be made no later than the 13th December 2018.
65. The BWG held a series of meetings in November 2018 with the relevant Cabinet Members and officers to consider the budget proposals and they will submit their recommendations so that the Cabinet may make its final budget proposal. Before making its recommendation, the BWG will consider the comments made by Scrutiny, together with the results of consultation. The final proposals to Cabinet will include a review of the financial strategies required to achieve a balanced budget, which is sustainable in future years. Currently, the approved timetable requires Cabinet to approve the final budget proposals by no later than 18th February 2019 and that Cabinet's final budget proposals will be considered by Council at a meeting to be held on 27th February 2019 to enable the Council Tax to be set by 11th March 2019.

Resource Implications (Financial and Employment)

66. Based on the assumption that all cost pressures will be funded in full, the estimated funding shortfall for 2019/20 will be £14.164m assuming no increase in Council Tax.
67. WG has not issued details regarding the level of funding post 2019/20, however, it is anticipated that there will be further reductions in funding for Local Government going forward. It is therefore important that Directors achieve approved savings and look to mitigate further cost pressures through alternative means of service delivery and collaborative ventures.
68. Reserves are a way of setting aside funds from budgets in order to provide security against future levels of expenditure and to manage the burden across financial years. Funds no longer required may be transferred to the Council Fund and then set aside for other purposes or used to reduce Council Tax.
69. The Council has always taken a prudent approach with regard to specific reserves and uses them to mitigate known risks (financial and service) and contingent items, e.g. Insurance Fund. Other reserves have been established to fund Council priorities, e.g. Neighbourhood Services and in particular the Capital Programme, e.g. School Investment Strategy Reserve, Project Fund. This is important as the Council has limited capacity to realise sufficient sums from the sale of assets for capital investment. Sums have also been set aside to assist in budget management, e.g. Early Retirement Fund. The Housing Revenue Account Reserve is ring-fenced to Housing and will be used to fund improvements to the Council's housing stock.
70. The Council Fund Reserve as at 31st March 2019 is projected to stand at £13.634m, after the £4m transfer in, with no further reduction approved. The possible use of this reserve will be considered by the BWG when setting the 2019/20 budget, however, use of this reserve to balance the revenue budget will result in a higher level of savings being required in future years. The Section 151 Officer currently believes that the minimum balance on the Council Fund Reserve should be no less than £7m. This is considered sufficient to cover unforeseen expenditure whilst, in the short term,

maintaining a working balance. Unforeseen expenditure can be substantial and several instances can occur in a year. Whilst there is no set requirement for the minimum level for the Council Fund Reserve, some commentators use 5% of the net budget as a guide. For the Vale this is about £11m. However, in view of the prudent approach the Council takes with regard to specific reserves, £7m is considered a reasonable minimum.

71. The Council presently benefits from a reasonable level of reserves, however, they are not inexhaustible and have taken years of careful financial management to develop to their current level. As part of the usual Budget process, an examination of the level of reserves is undertaken to ascertain their adequacy and strategy for use. A view to their level (i.e. whether the amount held in the fund is sufficient to requirements) and purpose (i.e. whether the need to hold the fund is still relevant) has been taken. The requirement for each specific reserve has also been considered in light of the Council's priorities and at this stage of the budget process no transfers between reserves are proposed.
72. Appendix 6 sets out the Authority's actual reserves as at 31st March 2018 and shows the estimated reserves balance for each year up to 31st March 2022. The Council is forecasting the use of general and specific reserves, excluding HRA and schools, totalling around £31m from 1st April 2018 onwards, which represents approximately 41% of the balance as at 31st March 2018. These levels of reserves are still deemed to be adequate as known risks are largely covered and the Council Fund Reserve does not fall below £7m.
73. The Council is planning to use a considerable amount of its specific reserves over the coming years, however, as reserves are a non-recurring means of funding, they can only be used as part of a specific financial strategy. The use of all reserves will be reviewed further, by the BWG, as part of the final budget setting process.
74. Not all the savings required to meet the shortfall in funding will result in a reduction in staffing. Although the impact on individuals is likely to be mitigated as a result of natural wastage and the deletion of vacant posts, it is, nevertheless, expected that there will be a number of redundancies. The trade unions will be consulted on the details of any possible redundancies once known. Staffing implications relating to budget pressures within schools, will need to be considered by individual governing bodies.

Sustainability and Climate Change Implications

75. The promotion of sustainability and action to arrest climate change is central to the work of the Council and a key consideration when allocating scarce resources to meet the needs of the present without compromising the ability of future generations to meet their own needs.

Legal Implications (to Include Human Rights Implications)

76. The Council is required under statute to fix its Council Tax by 11th March 2019 and in order to do so will have to agree a balanced revenue budget by the same date.

Crime and Disorder Implications

77. The obligations of the Council with regard to Section 17 of the Crime and Disorder Act 1998 needs to be fully considered in the budget decision making process.

Equal Opportunities Implications (to include Welsh Language issues)

78. These initial budget proposals have due regard to the requirements of the Council's Strategic Equality Plan including the Equalities Act 2010 and Public Sector Equality Duty for Wales. The subsequent development of individual strategies for achieving savings will require the completion of Equality Impact Assessments. This involves systematically assessing the likely (or actual) effects of policies on individuals who have a range of protected characteristics under the Act.

Corporate/Service Objectives

79. Funds allocated in the budget contribute to the wide range of Corporate/Service Objectives as set out in the Corporate Plan.

Policy Framework and Budget

80. This report is following the procedure laid down in the Constitution for the making of the budget and so does not need to be referred to Council at the proposal stage. However, the final 2019/20 budget will require the approval of full Council.

Consultation (including Ward Member Consultation)

81. The Corporate Management Team has been consulted on this report. The initial budget proposals will be the subject of consultation with Scrutiny Committees. The Trade Unions and Schools Forum will also be consulted.

Relevant Scrutiny Committee

82. The lead Scrutiny Committee is Corporate Performance and Resources.

<u>GENERAL POLICY AND COUNCIL WIDE</u>							
Reshaping Tranche 3 - Commercial Opportunities	Savings resulting from a review of charging and income management. Income Generation and Commercial Opportunities Strategy 2017 - 2020 was presented to Cabinet on 23rd October 2017	275	97	Red	Work continues to explore new ways of generating income, in addition to inflationary increases for some fees and charges. Sponsorship of the summer events programme has yielded income for the first time with follow-up interest expressed in other opportunities. Changes to concessions for bulky item collections is forecast to increase income this year, in addition to the work to increase income within registration services, filming and additional website advertising	Corporate Performance & Resources	Carys Lord
Reshaping Tranche 3 - Digital Strategy	Implementation of savings as a result of the Digital Strategy approved by Cabinet in July 2017	200	69	Red	Work is underway to deliver digital projects focusing on customer and employee systems. Work to enhance the website and its functionality has commenced in order to shift customers to digital channels. Work is underway within the digital employee project to make efficiencies from digital recruitment and DBS management.	Corporate Performance & Resources	Carys Lord
Reshaping Tranche 3 - Procurement	More efficient and effective procurement of goods and services	212	212	Green	Majority of savings achieved from a reduction in the insurance budget	Corporate Performance & Resources	Carys Lord
Minimum Revenue Provision (MRP)	Audit Committee agreed change in methodology for calculating MRP in Jan 18	1,600	1,600	Green	Methodology changed from 1st April 2018	Corporate Performance & Resources	Carys Lord

SHORTFALL

No.	Service	2019/20 £'000	2020/21 £'000	2021/22 £'000
Directorate: Learning and Skills				
Schools				
L1	Demographic increase in mainstream schools	1,001	1,000	1,000
L2	Teachers Superannuation increase 16.48% to 23.6% from 1st September 2019	1,808	1,292	0
Total Schools		2,809	2,292	1,000
Achievement for All				
L3	Demographic increase in special school Ysgol Y Deri - There is a demographic increase in the number of pupils requiring specialist school placements at Ysgol Y Deri. The demographic make up of the school has shifted with higher pupil numbers in the lower year groups which will eventually work through the school leaving large groups at all ages. The Y Deri pupils have a much higher unit cost than mainstream pupils costing £25k each on average. If pupils cannot be placed at Ysgol Y Deri, they will require a placement in an independent provision or another authority which will result in increased costs to the council.	575	625	420
L4	Complex Needs Placements in Out of County provision or independent schools - There is a requirement to purchase places from provision outside of the county or in specialist high cost provision for an increasing number of children and young people who are presenting with complex needs.	400	90	100
L5	Educated Other Than At School (EOTAS) Provision for ALN pupils with severe social and emotional behavioural needs - There has been significant growth in numbers of secondary pupils with very complex behavioural issues whose needs cannot be met at the Pupil Referral Unit. These pupils have been placed in specialist provisions with other agencies which has incurred additional cost to the Achievement for All budget. There has also been a significant growth in younger learners displaying very complex social, emotional and behavioural difficulties. In addition to the increase in complexity, the growth in numbers of pupils with these difficulties will require the development of an additional specialist resource base for foundation phase pupils. This will require additional funding but if this provision is not developed there will be a need to access specialist provision from other providers.	150	0	0
L6	Ethnic Minority Achievement Service (EMAS) and Minority Ethnic Achievement Grant (MEAG) - The grants were removed from the Education Improvement grant in April 2018. Funding was later made available to the Council of £181k in 2018/19. Welsh Government indicated that it was their intention to make more funding available to local authorities in 2019/20, although this has not yet been confirmed. No funding has been identified from April 2020 onwards.	0	180	0
Total Achievement for All		1,125	895	520
Strategy, Culture, Community Learning and Resources				
L7	Education Transport - Due to stagnate operator costs (no inflationary increase applied in the past three years) when all school transport services are tendered in 2019 costs are anticipated to rise. The intention is to tender services for a longer period of time which will give operators better financial stability and allow them to submit competitive prices. In addition, catchment problem school transport is rising year on year as local schools are at capacity in certain year groups and the needs of pupils with additional learning is becoming more complex with individual and specialist taxis required.	150	0	0
Total Strategy, Culture, Community Learning and Resources		150	0	0
TOTAL LEARNING AND SKILLS		4,084	3,187	1,520

No.	Service	2019/20 £'000	2020/21 £'000	2021/22 £'000
Directorate: Social Services				
Children & Young People				
S1	External Placements: This is the area of greatest pressure with a continuing increase in the numbers and complexity of need within our children looked after population. This creates associated pressures on placement availability in-house and increasing reliance on externally commissioned placements, both independent fostering placements and residential care. Projected full year pressure for 2019/20 based on current spend and the known need to place an additional two children in residential care this year, with no realistic prospects for reducing the current cohort of children placed externally. Further increases are probable over the next three years given increasing demand and complexity, and limited placement provision nationally. The projected costs could be higher if the number of external placements required is greater than the forecast, and if the individual costs of those placements is higher given complexity of need.	931	276	276
S2	Legal Costs: Continuing increase in the number and complexity of care proceedings, including the requirement to instruct Counsel. Projected full year pressure for 2019/20 based on current and projected spend. Pressure in the following two years reflects a similar rise to that between last year and this year, with this year's trend indicating a similar increase.	95	20	20
S3	National Minimum Allowance (NMA) for Foster Carers - Kinship: Continuing increase in the number of kinship carers. This is positive in promoting the numbers of children able to live within their families, but creates budgetary pressure associated with the cost of supporting these placements.	277	53	53
Total for Children & Young People		1,303	349	349
Adults Services				
S4	Demographic changes - Ongoing increase in the number of people over 65 who will be eligible to receive services. Accessing at a later stage, requiring complex care at higher cost, ongoing issue regarding the impact of the Welsh Government introduction of the £80 cap and increase in capital allowance.	400	400	400
S5	Continuing challenge by providers to increase fees to meet provider costs - Pressures include National Living wage, Sleep-ins, FIVRO regulations re travel time, auto-enrolment of pensions and now the increased burden of registration costs for domiciliary care workers under Regulation and Inspection of Social Care (RISC) (Wales) Act 2016.	1,000	1,000	1,000
S6	Supported Living Contract - Additional investment to sustain supported living accommodation contract in 2019/20 as reported to Cabinet in October 2017 and further increases anticipated in future years when contract will be retendered.	447	118	118
S7	Legal Costs - Adults Services have noted a considerable rise in the number of cases that are proceeding to court or mediation. This is therefore identified as a cost pressure and is reflective of the complex and challenging cases the Division now supports.	10	0	0
S8	Joint Equipment Store - Change in formula could result in an additional contribution	0	40	0
Total for Adults Services		1,857	1,558	1,518
Resource Management & Safeguarding				
S9	Deprivation of Liberty Safeguards - Despite investment in previous years the demand for DoLS Assessments continues to increase. The budget will overspend this financial year due to the number of health and Best Interest assessments conducted, there is still a backlog, in particular in relation to authorisations for this area. We also need to secure additional legal capacity to process applications to court to mitigate risk of legal challenge to the Council.	120	0	0
Total for Resource Management & Safeguarding		120	0	0
TOTAL SOCIAL SERVICES		3,280	1,907	1,867

Directorate: Environment and Housing

No.	Service	2019/20 £'000	2020/21 £'000	2021/22 £'000
	Neighbourhood and Transport Services			
V1	Waste increase in cost of Recycling Treatment contract - The recycling treatment contract was tendered in 2017/18 with a start date of April 2018. Due to the crash in the value of recycling the cost of the co-mingled treatment contract has risen to around £850k per annum. This was funded by £430k of reserves in 2018/19 however funding from this source is unsustainable.	450	0	0
V2	Waste - Reduction in Grant funding - Environment and Sustainable Development Grant was reduced by £175k in 2018/19 which is approximately 7.5% of the total grant. A large proportion of the grant has now been subsumed into the Revenue Support Grant. Further reductions of 10% on the remaining grant have been assumed for future years	85	80	75
V3	Waste - Cost of Refuse Collection for new housing developments - The continual increase in new housing developments within the Vale of Glamorgan has led to increased waste collection and disposal costs.	300	0	0
V4	Highways Highway and Footway Network - Due to the reduction in the level of Resurfacing being undertaken on the carriageway and footway since the cessation of the LGBI funding it is anticipated that the amount of patching required will increase.	350	0	0
V5	Highways Big Fill - Funding for Big Fill set aside until end of 2019/20. Reduction in funding will lead to faster deterioration of the highway network and increased levels of insurance claims.	0	300	0
V6	Highways Structures Periodic Inspections - There is a backlog of inspections with costs greater than the current budget available.	100	0	0
V7	Street Lighting Structural Testing - There is a need to undertake significant levels of structural testing on street lighting as the stock ages. There is currently a backlog of testing which will cost more than the current budget.	20	0	0
V8	Concessionary Fares Bus Passes - The Vale currently receive £3 for each bus pass in circulation. There is a new application process in 2019 which may cause the number in circulation to decrease.	15	0	0
V9	Reduction in Sports Wales grant funding - Correspondence received from Sports Wales suggests a cut in grant funding next year of anywhere between 5 and 10%.	0	20	0
	Total for Neighbourhood and Transport Services	1,320	400	75
	Building Services			
V10	Building Services - Corporate Compliance Team - Following the introduction of the auditing function for Corporate Building Compliance, the team function has changed and now delivers an Auditing function to all corporate buildings, including those which have not previously subscribed to the Service Level Agreement. This has had considerable impact on the cost recovery within the team which has previously operates on a fee earning basis. This fee recovery is no longer sufficient to support the team in a function which ensures the Council and its buildings are safe for employees and the general public to use. Previously trading activity and any surplus or deficit, has been posted to the Building Services Trading Account, however, the increase in staff costs is no longer sustainable for this corporate safeguarding function.	90	0	0
	Total for Building Services	90	0	0
