Subject: RE: Ward Member Consultation - Llanmaes Flood Alleviation Scheme

Dear Joanne,

I am unable to make a comment as the map of the scheme in the appendix is too small to read on my laptop. It would appear that this is a completely new design, previously we engaged a company to draw up a design to offer NRW for approval. Am I correct in saying this and if so how much money has been wasted on previous designs and what will it cost for the new design.

I want to see this scheme completed, however, it would appear to me that there is a long way to go yet before the actual work starts

Best Wishes

Gwyn
