

Meeting of:	Cabinet
Date of Meeting:	Monday, 18 November 2019
Relevant Scrutiny Committee:	Corporate Performance and Resources
Report Title:	Review of Polling Districts, Polling Places and Polling Stations - Electoral Registration Officer's Final Proposals
Purpose of Report:	To agree the Final Proposals of the Review of the Polling Districts, Polling Places and Polling Stations for the Vale of Glamorgan
Report Owner:	Cabinet Member for Legal, Regulatory and Planning Services
Responsible Officer:	Debbie Marles, Electoral Registration Officer
Elected Member and Officer Consultation:	Ward Councillors were included as stakeholders as part of the consultation
Policy Framework:	For Cabinet approval at this stage, with Council being required to consider and approve the final proposals.
<p>Executive Summary:</p> <ul style="list-style-type: none"> • The Council must designate a polling place for each polling district, unless the size or other circumstances of a polling district are such that the situation of the polling place does not materially affect the convenience of the electors. The Council must also seek to ensure that all electors in a constituency in its area have such reasonable facilities for voting as are practicable in the circumstances unless there are special circumstances. • Aligned to the above is a statutory duty for a Local Authority to review the polling districts, places and stations within its Parliamentary Constituency and local authority area every five years. • This report details the programme for the review and the final proposals of the Electoral Registration Officer. 	

Recommendations

1. That Cabinet agrees the Electoral Registration Officer's final proposals set out in Appendix 1 of this report for the Polling Districts, Places and Stations Review for the Vale of Glamorgan Council Area and Parliamentary Constituency.
2. That this report be referred to Council on 9 December 2019 for consideration of the final proposals and if appropriate to approve the recommended changes to take effect on 2 January 2020.

Reasons for Recommendations

1 - 2 In line with the Council's statutory obligations under the Representation of the People Act 1983.

1. Background

- 1.1 The Council has a duty under s.18 (1) and Schedule A1 of the Representation of the People Act 1983 ('the 1983 Act') to divide its area into polling districts for the purpose of elections, to designate a polling place for each polling district and to keep those districts under review in accordance with s.18(2) of the Representation of the People Act 1983.
- 1.2 The Council last carried out a review of polling districts, polling places and polling stations in October 2013 - December 2014. The Council must during each compulsory review period carry out and complete a review of all the polling districts and places within its Parliamentary Constituency and area (and it is recommended by the Electoral Commission that such reviews are conducted at the same time) within a period of 16 months beginning on 1st October of the relevant review year, and a review of all its polling places in its area within the period of 16 months beginning with 1st October of every fifth year after that. These provisions do not prevent a relevant authority carrying out a review of some or all of the polling districts or polling places and stations in its area at other times. In compliance with the statutory provisions the review must be undertaken with any changes implemented by the end of January 2020.

2. Key Issues for Consideration

- 2.1 A review has been conducted by the Electoral Registration Officer of the current polling districts, polling places and polling stations within the Vale of Glamorgan area and in respect of the Parliamentary Constituency, with a view to establishing their suitability, and identifying any potential alternatives where considered appropriate.

- 2.2** Appendix 1 details the current list of polling districts, places and stations for the whole of the Vale of Glamorgan and the Electoral Registration Officer's final proposals having taken the 1983 Act and the Electoral Commission's guidance into account. Where a change to the polling station has been identified the proposed alternative polling station details are listed supported by the Electoral Registration Officer's comments for change. It being noted that no changes are proposed to the existing polling districts as the boundaries are considered to be well-defined, there are suitable transport links within the polling districts and there are no particular obstacles to voters crossing the current polling districts to reach the proposed polling places. The Electoral Registration Officer is therefore satisfied that the existing polling districts meet the test of ensuring that all electors in the Vale of Glamorgan Parliamentary Constituency and Vale of Glamorgan area have such reasonable facilities for voting as are practicable in the circumstances in line with the 1983 Act.
- 2.3** Representations received are shown in Appendix 2 through to Appendix 12 and where relevant are cross referenced within Appendix 1.
- 2.4** In line with the Electoral Commissions' guidance polling place and station evaluation checklists have been completed for each polling station and are available for viewing by contacting the Council's Electoral Services Manager.
- 2.5** Whilst assessing the current arrangements, consideration has been given to location, size, availability and accessibility. All schools used as polling stations were reviewed in detail to reduce the number of schools needing to close in the area. In addition, consideration was given to a number of concerns and complaints received at the European Parliamentary Election in May 2019 regarding the locations and sizes of temporary portacabins particularly relating to Llysworney (near the Carne Arms), George Street and the Horse and Jockey. It is also recognised that portacabins require significant adaptation to assist with access.
- 2.6** As part of the review process the Council must also seek to ensure the following matters which the Electoral Registration Officer has had regard to in drafting Appendix 1:
- Consideration to representations received during the consultation period;
 - With regard to Polling Districts, all electors in the constituency are to have such reasonable facilities for voting as are practicable in the circumstance unless there are special circumstances;
 - A polling place is designated for each polling district unless the size or other circumstances of a polling district are such that the situation of the polling station does not materially affect the convenience of the electors; that all electors have reasonable facilities for voting as are practicable in the circumstances;

- Polling places are accessible to all electors as far as is practicable, and when considering the designation of polling stations, have regard to the accessibility needs of disabled persons.
- The polling place for a polling district must be an area in the district, unless special circumstances make it desirable to designate an area wholly or partly outside the district; and is small enough to indicate to electors in different parts of the district how they will be able to reach the polling station.
- In line with the Electoral Commission's Guidance consideration has been given to:
- In respect of polling districts - whether the boundaries are well defined, transport links and any obstacles to voters; and
- In respect of polling places - location, size, availability and accessibility.

3. How do proposals evidence the Five Ways of Working and contribute to our Well-being Objectives?

- 3.1** The review of polling districts, places and stations safeguards the long-term needs of local residents to ensure that all electors in a constituency in the local authority area have such reasonable facilities for voting as practicable in the circumstances.
- 3.2** The review will include a full consultation with stakeholders.
- 3.3** As part of the review the Vale of Glamorgan Council has had regard to ensure that so far as is reasonable and practicable every polling place for which it is responsible is accessible to electors who are disabled
- 3.4** The Electoral Registration Officer will be proposing a number of changes for consideration to Vale of Glamorgan Council following the consultation period with stakeholders in line with effective collaboration.
- 3.5** The Electoral Registration Officer will ensure the relevant notices are published and stakeholders are contacted directly to encourage engagement with stakeholders.

4. Resources and Legal Considerations

Financial

- 4.1** There will be costs associated with publishing the review, administration costs for reproducing maps and consultation; these costs will be met within existing budgets.

Employment

4.2 There are no direct implications arising from this report.

Legal (Including Equalities)

4.3 Section 18C and Schedule A1 of the Representation of the People Act 1983 places the Council under a legal duty to review their polling places and districts. Any changes to be implemented by 31 January 2020.

				<p>Councillors were emailed but no suggestions made. Merge this portacabin with OE0/OE1, total electors would then be 418. This would mean that it will be out of district but there are only 76 electors at the Green Leckwith. There have also been issues raised about where the portacabin should be placed and complaints were received from residents.</p> <p>Representation received (see Appendix 8) -there are a total of 76 electors registered at this polling station. The comment is noted about electors not being able to drive but there is absent voting alternatives in place should any electors have difficulties in attending the polling station on poll day.</p>

Hi Hayley,

The Town Council's Consultation Working Party considered the Consultation on the Review of Polling Districts, Places and Stations in the Vale of Glamorgan at their meeting held on 26 September 2019.

Please find below their comments for your consideration.

Concerns were expressed that the polling station at the Premier Inn does not work for Baruc Ward due to an expansion of residents in that area. It was felt that there is a need for a more central location which is bigger and is accessible for those living at the far end of the Waterfront Development.

Concerns were raised about the move from Jenner Park school to the Witchill Scout Hall on Dyfan Road (Gibbonsdown Ward and Court Ward) due to the concealed entrance to it. In addition there was concern that during the darker nights it could be quite intimidating to access.

Concerns were raised with the move from Holton Road Primary School to the Scout Hall on Everard Street (Castleland Ward) as it may cause additional travel for some. A suggestion was made of using Crossways Church as it is next door to Holton Road School. Otherwise it was suggested to continue to use Holton Road School as there should be adequate safeguarding measures in place.

Concerns were raised over the lack of provision of a polling station for those who live in the north of Cadoc Ward. Members requested that the Vale of Glamorgan Council consider an additional polling station in the north of Cadoc Ward to serve those who live in the Pencoedtre Estate.

Hi Hayley,

Cllr Nic Hodges mentioned that he and other Cllrs in Baruc thought that the Premier Inn was not suited due to the development of the Waterfront continuing away from the Premier Inn site and the distance for voters to attend.

With regards to the comments for a polling station in Pencoedre, Cllr Wilkinson mentioned that she understood a Portacabin was previously considered in the Lidl car park to give voters less distance to attend a polling station.

Regards,

Mark.

Dear Mark

I refer to your below email, could you please confirm whether or not any alternative locations were discussed at your Consultation Working Party in relation to the Premier Inn and those who live on the Pencoedre Estate?

Should you have any suggestions for polling stations in these areas, please let me know so I can pass the details onto the ERO.

Thanks
Hayley

2. I propose a change to the arrangements

Please add any comments (no more than 2,000 words) in support of your view(s) for either a change or for no changes to be made. If you propose a change, specify the nature of that change. Provide reasons and/or supporting evidence.

Llanfair Community Council objects to the proposed change for the Llanfair Ward, SE0. The change is for voters in the Llanfair Ward covering St Mary Church, The Herberts and Llandough, to use St Hilary Village Hall instead of the Portacabin at Llanfair Primary School.

The statement "There are good transport links and the station will remain in the same ward in neighbouring district" is factual incorrect on two counts:

1. There are no good transport links to St Hilary from St Mary Church, The Herberts and Llandough. There is no public transport, the single track road to St Hilary is highly dangerous and lengthy for pedestrians and is extremely narrow for motorists with very few passing places.
2. The station will not be in the same ward as St Mary Church, The Herberts and Llandough are in the Llanfair Ward (SE0) and St Hilary is in the St Hilary Ward (SF0).

Dear Sir/Madam,

“Penarth Town Council recognises there are no changes being proposed. However, in light of some polling districts having more than one venue, perhaps these could be condensed further, if this is likely to produce a cost saving.”

Subject: Review of Polling stations

Good afternoon,

I would like to comment on the proposal to close the polling station to the east of Ogmore by Sea and use the polling station in the church in Southerndown instead.

Whilst for many people this will be a minor inconvenience, for the people who don't drive this will mean a bus ride to Southerndown, a wait and a bus back to Ogmore by Sea. As the buses only run once every hour each way on a Thursday, this could deter people from voting, the very opposite of what we need. I thought the recent review carried out by HM Govt was to increase the number of people voting and hence other avenues were being explored to cast a vote.

In the absence of any more convenient methods of voting, I would ask that you reconsider closing the polling station at Ogmore by Sea, however much money it would save.

In this modern age, democracy relies on an easy and convenient way to cast a vote and this proposal will make it more difficult and hence less likely that everyone will cast a vote.

hi
if you close the polling station from ogmore by sea then my husband myself and daughter will no longer be able to vote as my husband is disabled and can no longer drive neither can I or my daughter. I am sure that we are not the only people in the village in this position without transport. with the village now bigger than ever it makes no sense to remove lets be honest the only thing that the vale actually provides in ogmore by sea for the community.

Dear Hayley

I've recently taken over as Clerk to Michaelston-le-Pit & Leckwith Community Council. I'm not sure when the original request for comments on Polling Stations in the Vale of Glamorgan was sent out, but the letter and Review document you e-mailed recently is the first the Councillors have seen.

I'm still waiting to receive comments from a couple of Councillors but those who have responded would like to object to the proposal to remove the Polling Station at Leckwith...

It will present difficulties for some electors in Leckwith ... There are some people who do not drive and it will be very difficult for them to get over to Michaelston-le-Pit to vote. The distance is quite far and to walk it would be along very dangerous roads.

I would be grateful if you could forward their comments on. Please let me know if you need individual names are whether you are happy to receive a collective response.

Kind regards.

Dear Hayley,

Just a couple of items to raise, the Youth Centre at Station Road is now managed by GVS (Rachel Connor) and is a Community Building, the Youth centre hire rooms there when required. Secondly, I am sure the people of Boverton will have an issue about going to Llantwit Major Leisure Centre, have you checked if the Mission Hall on the hill coming from the centre of Boverton towards Llantwit Major is suitable. I know the WI use the Hall for meetings !

Best Wishes

Gwyn

Thanks Haley

My only concern re my ward St Augustine's is that there seems to be little in the North West part ie easily accessible from the region around Penarth Heights and perhaps consideration should be given for something in this part of the ward given the increase in population numbers in this area.

Regards and Thanks again

I propose that polling station could be sited at the end of Brooklands Terrace, photo attached, this area is pedestrian friendly with good access. If this is not possible, the existing site at the top end of Brooklands Terrace on again Council land has worked well.
