

Meeting of:	Cabinet
Date of Meeting:	Monday, 06 December 2021
Relevant Scrutiny Committee:	Homes and Safe Communities
Report Title:	Draft Local Housing Strategy 2021 - 2026
Purpose of Report:	To consider the draft Local Housing Strategy 2021 - 2026.
Report Owner:	Cabinet Member for Housing and Building Services
Responsible Officer:	Miles Punter - Director of Environment and Housing
Elected Member and Officer Consultation:	Carys Lord, Head of Finance. Committee Reports; Legal Services; Mike Ingram, Head of Housing; Nick Jones, Operational Manager, Housing , Victoria Robinson Operational Manager for Planning & Building Control
Policy Framework:	This report is a matter for Executive decision by Cabinet but will require final approval by Full Council
<p>Executive Summary:</p> <ul style="list-style-type: none"> • The proposed Local Housing Strategy 2021 -26 sets out the vision for housing in the Vale of Glamorgan which is that ‘All residents in the Vale of Glamorgan have access to good quality, suitable housing and can live happily and independently in vibrant, sustainable communities’. • Each local authority is required to produce and publish a Local Housing Strategy (LHS) under Section 87 of the Local Government Act 2003. • The Local Housing Strategy 2021-26 builds on the previous Housing Strategy for the Vale of Glamorgan and sets out how the Council will work in partnership to meet the housing requirements of the area, develop solutions and maximise opportunities to improve the quality of life for residents and future residents of the Vale of Glamorgan. • As a stock retaining local authority the Council can access grant funding through the Welsh Government Social Housing Grant to build affordable housing in its own right or in partnership with other agencies. The Council has its own delivery programme which compliments housing developments provided by partner organisations. • In February 2020 the Council hosted a Local Housing Strategy event which included presentations, workshops and consultation exercises focusing on delivering more low Carbon Housing, Affordable Housing, Sustainable Communities and Specialist Housing. This event, along 	

with the views of partner organisations, representatives from the public, private and third sectors, elected members and Council departments were used to inform the development of this Strategy.

- The Local Housing Strategy sets out the locally agreed, long term vision for housing in the Vale of Glamorgan; it provides a statement of local strategic housing-related objectives and agreed target outcomes. The strategy covers a period of five years; however, the vision is viewed over a longer period within the context of the Corporate Plan. The aims, objectives and intentions are to contribute to the Council's vision for the future of the Vale of Glamorgan: "Strong communities with a bright future".
- The Local Housing Strategy sets out the approach that will be taken to meet the legislative requirements of the Housing (Wales) Act 2014 and subsequent legislation.
- This strategy does not detail all the activities being undertaken to improve services and the quality of life in the Vale. It does however provide a high-level vision and a framework for the next five years which highlights the key issues the strategy seeks to address.
- There are several housing budgets relevant to the implementation of the Strategy; these include The Housing Support Grant; The Rural Housing Enabler Grant; The Social Housing Grant; Regeneration funding and Disabled Facility Grants.
- Welsh Government is providing funding through its Covid Recovery Fund in relation to changes in Homelessness legislation and additional pressures placed on homelessness departments in relation to Covid-19.
- The Council's Housing Department is aware of the resource implications of implementing the Strategy and understands the relevant funding sources necessary to meet the strategic aim.
- Many of the resource implications in the strategy will affect partner organisations that provide housing and housing related services. All relevant partners have been involved with the development of this strategy.

Recommendations

1. That Cabinet considers the content of this report and endorses the draft Local Housing Strategy 2021 – 2026.
2. The draft Local Housing Strategy is referred to the Housing and Safe Communities Scrutiny Committee for its consideration.
3. That the views of the Scrutiny Committee on the Draft Local Housing Strategy 2021 – 2026 be considered by Cabinet prior to the final Strategy being referred to Full Council for approval.

Reasons for Recommendations

1. To note the strategic direction the Council wishes to take in responding to key housing challenges faced in the Vale of Glamorgan, including meeting housing need, improving access and strengthening existing homes and communities.
2. To ensure the appropriate level of scrutiny of this key strategic document.
3. To allow Cabinet to make a fully informed decision on the final Strategy before referring the same to Full Council.

1. Background

- 1.1 Section 87 of the Local Government Act 2003 requires each local authority to produce and publish a Local Housing Strategy (LHS).
- 1.2 The Local Housing Strategy 2021-26 builds on the previous Housing Strategy for the Vale of Glamorgan and sets out how the Council will work in partnership to meet the housing requirements of the area, develop solutions and maximise opportunities to improve the quality of life for residents and future residents of the Vale of Glamorgan.
- 1.3 Local authorities have played the lead role in developing an approach to housing across all tenures and ensuring the delivery of a more integrated housing related service to meet local needs. The strategic function incorporates an enabling role with the local authority working in partnership with other public, private and third sector organisations to deliver suitable housing and to develop innovative solutions to address local housing needs.
- 1.4 As a stock retaining local authority the Council is able to access grant funding through the Welsh Government Social Housing Grant to build affordable housing in its own right or in partnership with other agencies. The Council has its own delivery programme which compliments housing developments provided by partner organisations.

- 1.5** In February 2020 the Council hosted a Local Housing Strategy event which included presentations, workshops and consultation exercises focusing on delivering more:
- Low Carbon Housing
 - Affordable Housing
 - Sustainable Communities
 - Specialist Housing
- 1.6** The views of partner organisations, representatives from the public, private and third sectors, elected members and Council departments were used to inform the development of the Local Housing Strategy. A summary of the event is provided in Appendix 1.
- 1.7** The Local Housing Strategy sets out the locally agreed, long term vision for housing in the Vale of Glamorgan; it provides a statement of local strategic housing-related objectives and agreed target outcomes. The strategy covers a period of five years; however, the vision is viewed over a longer period within the context of the Corporate Plan. The aims, objectives and intentions are to contribute to the Council’s vision for the future of the Vale of Glamorgan: “Strong communities with a bright future”.
- 1.8** The Local Housing Strategy sets out the approach that will be taken to meet the legislative requirements of the Housing (Wales) Act 2014 and subsequent legislation.
- 1.9** This strategy does not detail all the activities being undertaken to improve services and the quality of life in the Vale. It does however provide a high-level vision and a framework for the next five years which highlights the key issues the strategy seeks to address.

2. Key Issues for Consideration

- 2.1** Attached at Appendix 2 is the draft Local Housing Strategy 2021-2026.
- 2.2** The proposed Local Housing Strategy 2021 -26 sets out the vision for housing in the Vale of Glamorgan which is that ‘All residents in the Vale of Glamorgan have access to good quality, suitable housing and can live happily and independently in vibrant, sustainable communities’.
- 2.3** To achieve the vision for housing in the Vale the four key aims of the previous Local Housing Strategy 2015-20 have been continued, each of which is supported by a number of objectives that form the basis for the actions identified in the Action Plan:

- Aim 1: More Homes, More Choice
- Aim 2: Improved homes and communities
- Aim 3: Better housing advice and support
- Aim 4: Equality of access to housing and housing services

- 2.4** The following important themes run through the core of the strategy:
- Current local housing market trends
 - Increased demand for housing of all tenures
 - Growing homelessness
 - Ongoing developments
- 2.5** The strategy was developed in partnership with internal and external stakeholders. The analysis and approach taken are outlined at Appendix 1.
- 2.6** Work will continue to identify pressures on the housing market going forward to meet gaps in provision and seek to address the additional pressures created by the Covid-19 Pandemic.
- 2.7** The actions within this strategy will be monitored against the desired outcomes.

3. How do proposals evidence the Five Ways of Working and contribute to our Well-being Objectives?

- 3.1** LONG TERM
Looking to the long term - the LHS is a tool to help monitor the Strategic Housing Grant, ensuring that it is maximised and that partnership working and S106 agreements lead to an on-going supply of affordable housing to meet the ever-growing needs of the population of the Vale including the most vulnerable members of our society.

- PREVENTION
- 3.2** Good quality, affordable housing is the corner stone of a successful and fulfilled life. Understanding the root causes of issues and preventing them is a core function of the Supporting People Team which is required to collect needs data on clients on an annual basis in order to inform service commissioning and delivery, as well as analyse gaps in provision for the most vulnerable. This information has been accounted for in the strategy.

- COLLABORATION
- 3.3** Collaboration is at the heart of many of our housing services as it is recognised that by working with partner RSLs, Support Providers and other stakeholders, people will be given the best choices possible to succeed in life.

- INTEGRATION
- 3.4** The integration of housing services with health and social care enables the best use of accommodation to enable people to remain in suitable homes for as long

as possible. The Housing Strategy Team recognise that to achieve the best possible outcomes for our residents, working with stakeholders is key.

INVOLVEMENT

- 3.5** The LHS will be made available to the public to consult on via the Vale of Glamorgan Website. The public are also involved in developing our priorities for the LHS through several mechanisms both directly and indirectly prior to its development.

4. Resources and Legal Considerations

Financial

- 4.1** The Council's Housing Department is aware of the resource implications of implementing the Strategy and understands the relevant funding sources necessary to meet the strategic aim.
- 4.2** Many of the resource implications in the strategy will affect partner organisations that provide housing and housing related services. All relevant partners have been involved with the development of this strategy.
- 4.3** In relation to changes in Homelessness legislation and to Covid related planning, Welsh Government is providing funding through its Covid Recovery Fund and support to local authorities to implement the necessary requirements.
- 4.4** There are several housing budgets relevant to the implementation of the Strategy these include funding for : The Housing Support Grant; The Rural Housing Enabler Grant; The Social Housing Grant; Regeneration funding and Disabled Facility Grants.
- 4.5** Achieving the objectives of the Strategy is also reliant on corporate support for the aims and objectives and partnership working between departments. For example, maximising the development of affordable housing is reliant on a shared priority between the Council's Housing and planning Departments and flexibility in the requirement for S106 contributions.

Employment

- 4.6** There are no employment implications in respect of adopting and implementing this strategy.

Legal (Including Equalities)

- 4.7** The development and publication of the LHS is a requirement under Section 87 of the Local Government Act 2003

4.8 There are no equal opportunities implications arising from this report.

5. Background Papers

None.

Local Housing Strategy Planning Day: 14th February 2020

Introduction

The Vale of Glamorgan's Housing Strategy Team organised a Local Housing Strategy Planning Day on Friday 14th February 2020 at the Civic Offices in Barry.

The aim of the day was to review the current local housing strategy 2015-2020, and then consider what the priorities should be when developing a new local housing strategy for 2020-2025.

Elected Members Bus Tour (9.30am to 12.30pm)

In the morning a bus tour for elected members was held to showcase affordable housing sites that have recently been developed or are in the process of being developed by the council and our 4 RSL partners across the Vale of Glamorgan.

Representatives from the VoG Housing Services and our 4 RSL partners presented information to the 21 elected members on the bus tour about the different affordable housing developments.

Unfortunately, due to time constraints we were unable to complete the planned itinerary however we did visit the following sites:

- Subway Road, Ffordd Millenium Way, Barry (Wales & West)
- The Goodshed, Waterfront, Barry (Newydd)
- Cwrt Parc, Woodlands Rd, Barry (Hafod)
- Llys Llechwedd Jenner, Barry (VoG)
- Holm View, Barry (VoG)
- The Woodlands, Cross Common Rd, Dinas Powys (Hafod)
- Scholars Park, Murch Rd, Dinas Powys (UWHA)
- Pentre Meyrick, Penllyn, Cowbridge

Information on all of the sites we planned to visit is included in **Appendix A**.

Lunch (12.30pm - 1.00pm)

Lunch was provided by the Big Fresh Catering Company.

Thank you to our 4 partner RSLs who kindly agreed to sponsor the lunch.

Afternoon Session (1pm to 4pm)

The afternoon session was for elected members and key partners and stakeholders from across the Council, RSL partners, health, probation, police, support providers and others.

The aim of the event was to review our current local housing strategy, and to discuss what should be included in the new local housing strategy to be developed in 2020. An agenda is attached at **Appendix B**.

We had a total of 65 people attending the afternoon session. An attendance list is attached at **Appendix C**.

The Housing Strategy Team commissioned Scarlet Design International Ltd (<https://www.scarletdesign.com/>) to assist with the organisation of the event and the facilitation of the group discussions. During the event the Scarlet Design team members created visual minutes that would provide a graphical recording of the key messages and story from the event.

A summary report of the event by Scarlet Design is attached at **Appendix D**.

The afternoon session was opened by Councillor Margaret Wilkinson (Cabinet Member for Building and Housing Services) who welcomed everyone to the event.

Mike Ingram (Head of Housing & Building Services) then provided an overview of the current local housing strategy focusing on some of the key achievements. A copy of Mike's presentation is attached as **Appendix E**.

Each table had a VoG staff member acting as a table host who then led discussions on the current strategy focusing on:

- What worked well
- What we should improve, change or stop

The feedback from each table has been collated and has been summarised below:

What worked well?

- Using planning system to deliver affordable housing i.e. s106 agreements, rural exception sites, SPG
- Top performing housing solutions team – prevention and reducing homelessness
- Working with private sector landlords and increase supply of private rented accommodation i.e. VATS / bonds
- Collaboration and joint working with RSLs and other key partners.
- Increased choice – A20 and H4U.
- Community investment projects i.e. timebanking, employment and training
- Homes4U partnership
- Development of new council housing
- Maximised SHG allocation
- Range of help and advice for local people i.e. development of one stop shop
- Relationship with elected members
- Increase in affordable housing supply – building and provision of social housing / including accessible properties
- Bringing empty homes back into use i.e. preserving older buildings
- Robust and effective housing support services i.e. successful supported housing provision
- Completed WHQS on homes
- Improved environmental works in existing areas and estates
- Focus on the rural vale i.e. rural housing enabler / local lettings and sales policies / working with community and town councils.
- Building of carbon neutral housing i.e. Llangan
- Supporting discharges from hospital for people with complex needs
- Well designed affordable housing schemes across the Vale
- Better understanding of needs – LHMA and housing support needs
- Older persons housing i.e. Sheltered housing schemes, Housing, Health and Care Board

What should we improve / change / stop?

- Build more affordable homes including council housing
- Increase supply of affordable housing in private rented sector
- Improve infrastructure and community facilities at an earlier stage i.e. public transport, schools, medical services
- Create transparency in banding system
- Creative use of funding for affordable housing
- Mixed tenure developments / build links between communities
- More accessible homes / houses for life
- More support / assistance for tenants around UC
- Resolve balance between housing need and balanced communities
- Investment in maintaining estates
- Meet housing and support needs for older people / ageing population
- More engagement with local community councils
- Regular progress updates and site visits to new developments to monitor and raise awareness
- Older persons housing i.e. more retirement homes linked to improved public transport in rural areas / help downsizing in rural vale / more sheltered housing and extra care housing
- Develop more 1 and 2 bed homes
- Continue doing what we are doing
- Review planning policies i.e. reconsider planning policy on sustainability in rural areas / SPG and 5 properties triggering financial viability not working
- Bring more empty homes into use i.e. CPOs
- Assessment of housing need in geographical areas
- WHQS - complete environmental works / complete for leased properties
- Deliver smaller and more tailored schemes
- Better communication i.e. social media, find out what people value about living in the Vale
- Consider rural vale register for housing
- Review service charges
- More specialist housing i.e. Hostel for street homelessness, Female only accommodation, hostels for women experiencing domestic violence, ex-offenders, people with LD / physical disabilities, accessible supported housing
- More support for people with mental health issues
- Work in partnership to meet gaps in supported housing
- Educating young people about housing, temporary housing
- Define what is affordable
- Carbon free housing
- Change and improve perceptions of social housing
- Release larger properties by assisting those under occupying and wanting to downsize
- More land to be made available
- Greater integration of housing, health and social care
- Appropriate allocation of sensitive lets
- More accessible housing for younger people / remove age restriction for step down accommodation and extra care
- Develop more intermediate housing
- Provide more outside space / more trees on new estates / gardens
- Greater focus on working and connecting with private landlords / expand PRS
- Online Homes4U system
- More transparency on what SP services are available and easier access
- Review allocations on new developments to ensure sustainability and balanced communities

The focus then moved to looking forward and what we should be focusing on in our new local housing strategy over the next 5 years.

Alison Clements (Housing Solutions & Supporting People Team Leader) gave an overview of 4 key topics for attendees to consider and discuss in discussion groups facilitated by VoG staff. A copy of her presentation is attached at **Appendix F**.

Each workshop focused on what we should be doing now, in 5 years and what good would look like in 2025. The notes from each workshop session have been written up and will be considered when developing the new strategy. A summary has been included below:

Delivering More.... Low Carbon Housing

What we should be doing now?

- Electric vehicle charging points
- VoG and RSLs to move to electric fleet of vehicles
- Meet WHQ’s standard energy
- Fabric First – New Tech
- Offsite Manufacture / identify right players
- Heat Pumps
- Training - new workforce, carbon literacy,
- Informed knowledge and context – train at the top
- Review planning policy

What we should be doing in 5 years?

- Improve energy rating C to B
- Mechanical Ventilation with Heat Recovery – introduce into new and old properties
- Joined up analysis across sector to determine the best solutions
- Offset carbon – trees / New solar tech
- Need balanced energy – Wind etc
- OSM across the region

What does good look like in 2025?

- No gas boilers in new stock
- More electric and heat pumps
- Affordable use of new technology
- Local/Regional supply chain to build low carbon housing
- More efficient building standard across the board
- Social enterprise model
- Use local workers

Delivering More.....Affordable Housing

What we should be doing now?

- Start putting WG ideals into practice
- Land - looking at different sources of land supply / make any land in Council ownership available to develop
- More flexible planning policy i.e. work together with developers and planners to be less rigid
- Review planning policies
- Attract employers to the Vale
- Look at costs of products – rent2Own isn't affordable
- Re-define affordable – different meanings to different people at different times.
- Build more
- Move away from London led housing policies
- Look at needs – Families, Single, Young and Vulnerable / offer support and affordability
- Look out for single plots of land - build single units to satisfy need.
- Appropriate local policies
- Look at existing low-density areas and space standards – maximise what we have
- Look at new settlement policy
- New LHS – Fair to all and with robust objectives
- Re-assess AH contributions
- Build more 4 bed homes in urban areas for families
- Change LCHO policy
- Look at flexible tenure schemes

What does good look like in 2025?

- Supply of AH meets demand
- All communities have access to GP's, Dentists, Post Office, Transport
- Outside space for all properties
- Transport Links to all communities
- Energy efficient homes
- More smaller homes in rural areas
- Varied communities where people WANT to live
- Attractive properties with green spaces

What we should be doing in 5 years?

- Work on efficient infrastructure
- Developing at pace and scale
- More enforcement to bring empty homes into use
- Build smaller homes in rural areas to enable people to downsize and remain in their community
- Build More - Build, Plan, Be flexible
- More Flexible planning policy - complete revision of planning policies that make AH more flexible
- Build more zero carbon properties
- Make communities inclusive
- Greater mix of properties.
- Reduce the need for AH – look at the economy / work towards no zero hours contracts /attract employers
- Distribute housing more evenly across the Vale - Rural, Small Rural and Urban areas
- Greater mix or Affordable Rent & Purchase
- Look at all public land to develop – Health, Education etc
- Better infrastructure and connections between settlements
- Build on the sites identified.
- Increase powers to facilitate building

Delivering More.....Sustainable Communities

What we should be doing now?

- Review Homes4u allocations policy. It's very dated
- Review Allocations for new build to avoid 100% Band A applicants
- Less local connection consideration given to people outside Vale who move for work
- Ask people what they need – young need schools / old need transport
- We cannot sustain rural communities until we look at the whole – Transport, Housing, Housing Needs, Healthcare needs, Youth Support, IT
- Help thy neighbour, cultural development, community champions
- Place Plan through Planning Act
- Time banking to promote pride in community
- Self-help tools and aids
- Digitally enabled communities & improved connectivity
- Continue to grow opportunities – expand on community spirit to bring people together
- Scale up the good practice integrated community/support services

What we should be doing in 5 years?

- Low carbon housing
- Make more land available at low cost
- Provide more community interaction – young families, single families, older people – to reduce isolation
- Role of allocations in creating sustainable communities
- Try a new settlement
- Link up rural community halls so they can help each other
- Need to understand our communities needs more
- Rural communities require a planning policy that recognises uniqueness. How can we expect rural communities to grow when they are considered by planning as unsustainable because they don't have a bus service or shops? Rural communities should have ways to grow and meet the needs of people who live there.
- Replace lost rural transport
- Preventative services – avoid services such as Social Services having to firefight
- Extend green links in rural hubs
- Engage community councils to action events for all
- Change planning policy to facilitate AH
- Good broadband connections

What does good look like in 2025?

- Seamless, more integrated approach when supporting vulnerable people
- Sustainability, Transport, people become vulnerable as they become older
- Vulnerable people to have everything they need – support, appropriate housing to help them thrive
- Infrastructure - facilities and Transport links in rural communities
- Balanced, resilient community where people want to live and work.
- Access to housing for All
- Communities that people want to live and STAY in - more transport, accessible services, community interaction, opportunities for each specific client group
- Individuals feel the community meets their needs
- Youth homelessness ended
- Access to healthcare
- Can we sustain people without infrastructure, schools, medical centres, highways and public transport?
- Greater access to All of the vale for people who require AH
- Seek out what people would want in a community
- Basic need – House choice

- Sustain zero street homelessness in Vale
- Sustain current lever of housing being built
- Homelessness is rare, brief and non-current

Delivering more.....Specialist Housing

What we should be doing now?

- Gathering data
- RSL – Facility/service saving NHS £ delivering cost effective solutions
- Finance/Funding
- Review SPG – to be opened up. Capacity to look at older persons accommodation
- Issues/demand/groups
- Accessible/ground floor housing
- Disabled housing
- DFG Grant (private)
- Older – 70+ will increase 70% by 2035
- Ex-offenders – preventative measures
- Temp accom – Female only
- RPB Integrated Care fund, Transition Grant, Governance/other for/to capture supply, need demand gaps
- Strategically plan

What we should be doing in 5 years?

- Supported accommodation
- Data sharing between services to identify need
- Look at supported accommodation for those struggling to maintain tenancies – Mental Health/Substance misuse
- Review of whether RSL/LA's provide retirement homes for sale AGAIN
- Greater sharing of data – Accessible housing needs, demand for supported, extra care
- CONSULT
- Ask specialist groups what they want, further engagement, data to support this
- Dual diagnosis service
- Review SPG – OP accommodation
- Bungalows
- Review Planning policies
- More accessible homes
- Further work on older person accommodation, especially in rural areas
- Trial modern pre-fab homes
- Better support for complex needs, provide holistic services that are able to support the person not 3 different services for 1 person
- Need to take time to look at the communities you want to build instead of placing further demands on other services as a result of placing people together

What does good look like in 2025?

- Lifetime designs
- More seamless & integrated services e.g. joint funded, pooled and shared risk and mutual gain. (health, social services, housing, support)
- Increased volume of accessible accommodation
- Understanding of needs
- Proactive
- Type of community we want to build
- Match supply and demand of social housing
- Look at type of community we want to build
- Care & Support closer to home – caring for the future
- Specialist/affordable accommodation for offenders, specifically prolific offenders
- GF flat in blocks having their own separate front doors – fully WC accessible
- Female only accommodation

- Improve infrastructure and Transport in rural Vale of Glamorgan Council Effective consultation on rural housing
- Accommodation for elderly in rural vale
- Special planning guidance on elderly housing
- Non age restricted step down

The event was then brought to a close by Mike Ingram (Head of Housing & Building Services) who thanked the participants for attending and contributing to the discussions so enthusiastically.

Mike advised that the next steps will be to provide feedback on the event to attendees, and also to the Overarching Housing Forum on 12th March 2020. The Housing Strategy team will then work on developing a new local housing strategy taking on board the comments and feedback from this event.

Location: Adjacent Vale of Glamorgan Council offices, within walking distance of Barry Dock train station and Waterfront retail and leisure facilities.

Handover: June 2021

Scheme mix: Social rented for general needs

Type	Amount
1B2P Flat	63
2B3P Flat	9
Total No. of Units	72

Photos / Images:

THE GOODS SHED, HOOD ROAD, BARRY

This urban regeneration project will deliver 42 new homes when completed and is one of three projects that Newydd are delivering in the Vale of Glamorgan to be awarded Innovative Housing Programme Funding (IHP) by the Welsh Government:

IHP is a funding initiative that encourages energy efficient design, the use of locally sourced and sustainable materials and construction methods that are scalable and can be used in the future

The project will deliver 24 SR 18 MR

Jehu Project Services are the appointed contractor for this project

The development cost a total of £5,012,481 with £2,345,109 in IHP grant funding secured to deliver the scheme.

Innovation:

The innovation of this urban regeneration project is to create a new model for a town high street, based on a mixed-use, housing-led approach. The project provides for the delivery of a new innovative and cultural hub in the heart of Barry. The innovation is to deliver a mixed tenure housing led project that will capitalise on the success on the adjacent award-winning Pump House redevelopment that was delivered by our private developer partner, DS (Barry) Ltd.

Cwrt Parc, Woodlands Road.

The site was delivered as a Package Deal with M & J Cosgrove. The total scheme costs for the development was just over 3 million with just over £1.7million grant. The scheme was completed in April 2019.

The scheme provides 27 properties consisting of 17 x 1 bedroom flats and 10 x 2 bedroom flats. The properties are housed in a number of individual blocks, not exceeding 3 storeys high which work with the topography of this sloping site.

The residents are over the moon with their homes, providing an accessible and safe environment. The development has recently won the Vale of Glamorgan Council's Best Social Housing Development for 2020.

-

-

-

Llys Llechwedd Jenner, Barry

Our social housing scheme at Brecon Court, Barry, now renamed Llys Llechwedd Jenner, is the Council's largest development to date..

Built on the site of the former Brecon Court Sheltered Housing Complex on Cornwall Road, which was demolished in October 2017, Llys Llechwedd Jenner will provide 28 much needed new homes for local people.

The scheme comprises 15 one and two bedroom apartments for people aged 55 years and over; 9 split level two bedroom houses and 4 three bedroom houses, one of which is being adapted for a specific client's needs.

Designed by Tony King Architects Ltd (now Chamberlain, Moss, King Architecture Ltd) based in Penarth and being built by local contractors Jehu Project Services Ltd from Bridgend, construction began in February 2019 and the scheme is due for completion in late Spring 2020.

The scheme is part funded through the Welsh Government's Affordable Housing Grant Programme and was successful in securing £2.27 million, which the Council has begun to draw down.

Holm View, Barry

Our social housing scheme at Holm View, Barry, is a small first phase development adjacent to the local Leisure Centre. The construction of a larger second phase of 34 new Council homes will begin in early 2021.

The scheme comprises 4 adapted bungalows for clients with specific needs; 5 two bedroom houses and 2 three bedroom houses, as well as a creating a new vehicular entrance to the Leisure Centre and refiguring their car park.

The scheme is due for completion in the Summer of 2020.

The scheme is part funded through the Welsh Government's Affordable Housing Grant Programme and was successful in securing £1.63 million, which the Council has begun to draw down.

Again designed by Tony King Architects Ltd (now Chamberlain, Moss, King Architecture Ltd) based in Penarth and being built by local contractors Pendragon Design and Build Ltd from Cwmbran. Construction began in February 2019 and the

THE WOODLANDS

Clos Derwen & Llwyn Derwen, Dinas Powys.

This Section 106 Development was delivered by Edenstone Homes and provided 50 homes, which included 6 for Low Cost Home Ownership and 14 for General Needs. The contract value was £1.9m. The handover of the properties was phased and the final properties were completed in November 19.

The site incorporates an attenuation pond, which provides water feature for the houses.

Scholars Park, Murch Road

PM: Barry Leavy

Location: Near to St Joseph's RC Primary and Nursery School, Murch Pharmacy, Tesco and bus routes.

Handover: July 2019 - 2022

Scheme mix:

House Type	Amount
4B6P House	4
3B5P House	6
3B4P House (LCHO)	8
2B4P House	25
2B4P House (LCHO)	17
1B2P Flat	26
Total No. of Units	86

Photos:

GREENWOOD CLOSE, WENVOE

Newydd purchased this site in September 2017 and achieved planning under Rural Exception Policy to deliver the development
Work commenced on site in February 2018 and was completed in July 2019
The development consists of 15 affordable homes, comprising of the following dwelling mix:
9 x 2 bed 4 person houses; and
6 x 1 bed 2 person walk up flats
The development cost a total of £2,025,000 with £1,320,805 in grant funding secured to deliver the scheme.
The scheme was the winner of the Small Housing Development award at the Vale Council Building Control 'Building Excellence' awards that were held on January 24th, 2020.

CLARE GARDEN VILLAGE, COWBRIDGE

This large-scale development is being delivered in partnership with Taylor Wimpey over the next 4 years

The first 2 phases amount to 141 new homes: 100 homes for rent and 41 for LCHO

The 3rd phase will come through the pipeline in 2021-2022 and deliver another 49 homes
Newydd took handover of the first homes in phase 1 in November and December 2019
with 13 Social rented homes completed and occupied

We are programmed to receive a further 4 homes shortly, all LCHO

Heritage Gate, Plasnewydd Farm

PM: Paul Stephens

Location: Between Llantwit Major and Frampton, close to bus routes and train stations.

Handover: December 2019 - 2020

Scheme mix:

House Type	Amount
3B4P House	17
2B3P House	18
1B2P Flat	8
2B3P House (LCHO)	2
3B4P House (LCHO)	5
4B6P House (LCHO)	2
Total No. of Units	45

Photos:

Sycamore Chase, Boverton

PM: Barry Leavy

Location: 5 minute drive to train stations and Llantwit Major Schools

Handover: September 2019 – 2020

Scheme mix:

House Type	Amount
2B4P House	4
1B2P Flats	10
3B5P House (LCHO)	1
3B4P House (LCHO)	2
2B4P House (LCHO)	2
Total No. of Units	19

Pentre Meyrick

This rural development was acquired by Hafod in March 2018. The scheme was tendered and Ashgrove Partnership (Part of the Edenstone Group) was the successful contractor. The Contract Value was just over £2m with £1.3m grant.

Work on site commenced in December 2018 and the Development completed in December, delivering 3 no bungalows and 10 houses. 2 of the properties have been allocated to rural enterprise workers; this was negotiated as part of the land deal.

As part of this development a Defibrillator was provided to Penllyn Village Hall.

Golwg Y Mor, Rhoose

Location: spread across a large new development by Taylor Wimpey off the main road in central Rhoose

Handover: April 2018 – January 2021

Scheme mix:

House Type	Amount
4B6P House	4
3B5P House	6
3B4P House (LCHO)	3
2B4P House	43
2B4P House (LCHO)	18
1B2P Flat	30
Total No. of Units	104

WORKSHOP 1

Q2. WHAT SHOULD WE IMPROVE, CHANGE OR STOP?

Reduced Homelessness

- A focus on rural areas
- Increase in private housing
- Willing to work with us
- Vale Assisted Tenancy Scheme
- Provided bonds for tenants
- Completed W... Quality
- Building of carbon-neutral housing
- Working in partnership with Housing Association (RSL)
- Good links with supporting agencies
- Successful Supported Housing provision
- New build for first time particularly for disabled + vulnerable
- Delivered successful affordable housing
- Bringing empty properties back into use
- Owner Occupied Housing Loans - Care + repair

St Mary Hill

- Increase in private housing
- Willing to work with us
- Vale Assisted Tenancy Scheme
- Provided bonds for tenants
- Completed W... Quality
- Building of carbon-neutral housing
- Working in partnership with Housing Association (RSL)
- Good links with supporting agencies
- Successful Supported Housing provision
- New build for first time particularly for disabled + vulnerable
- Delivered successful affordable housing
- Bringing empty properties back into use
- Owner Occupied Housing Loans - Care + repair

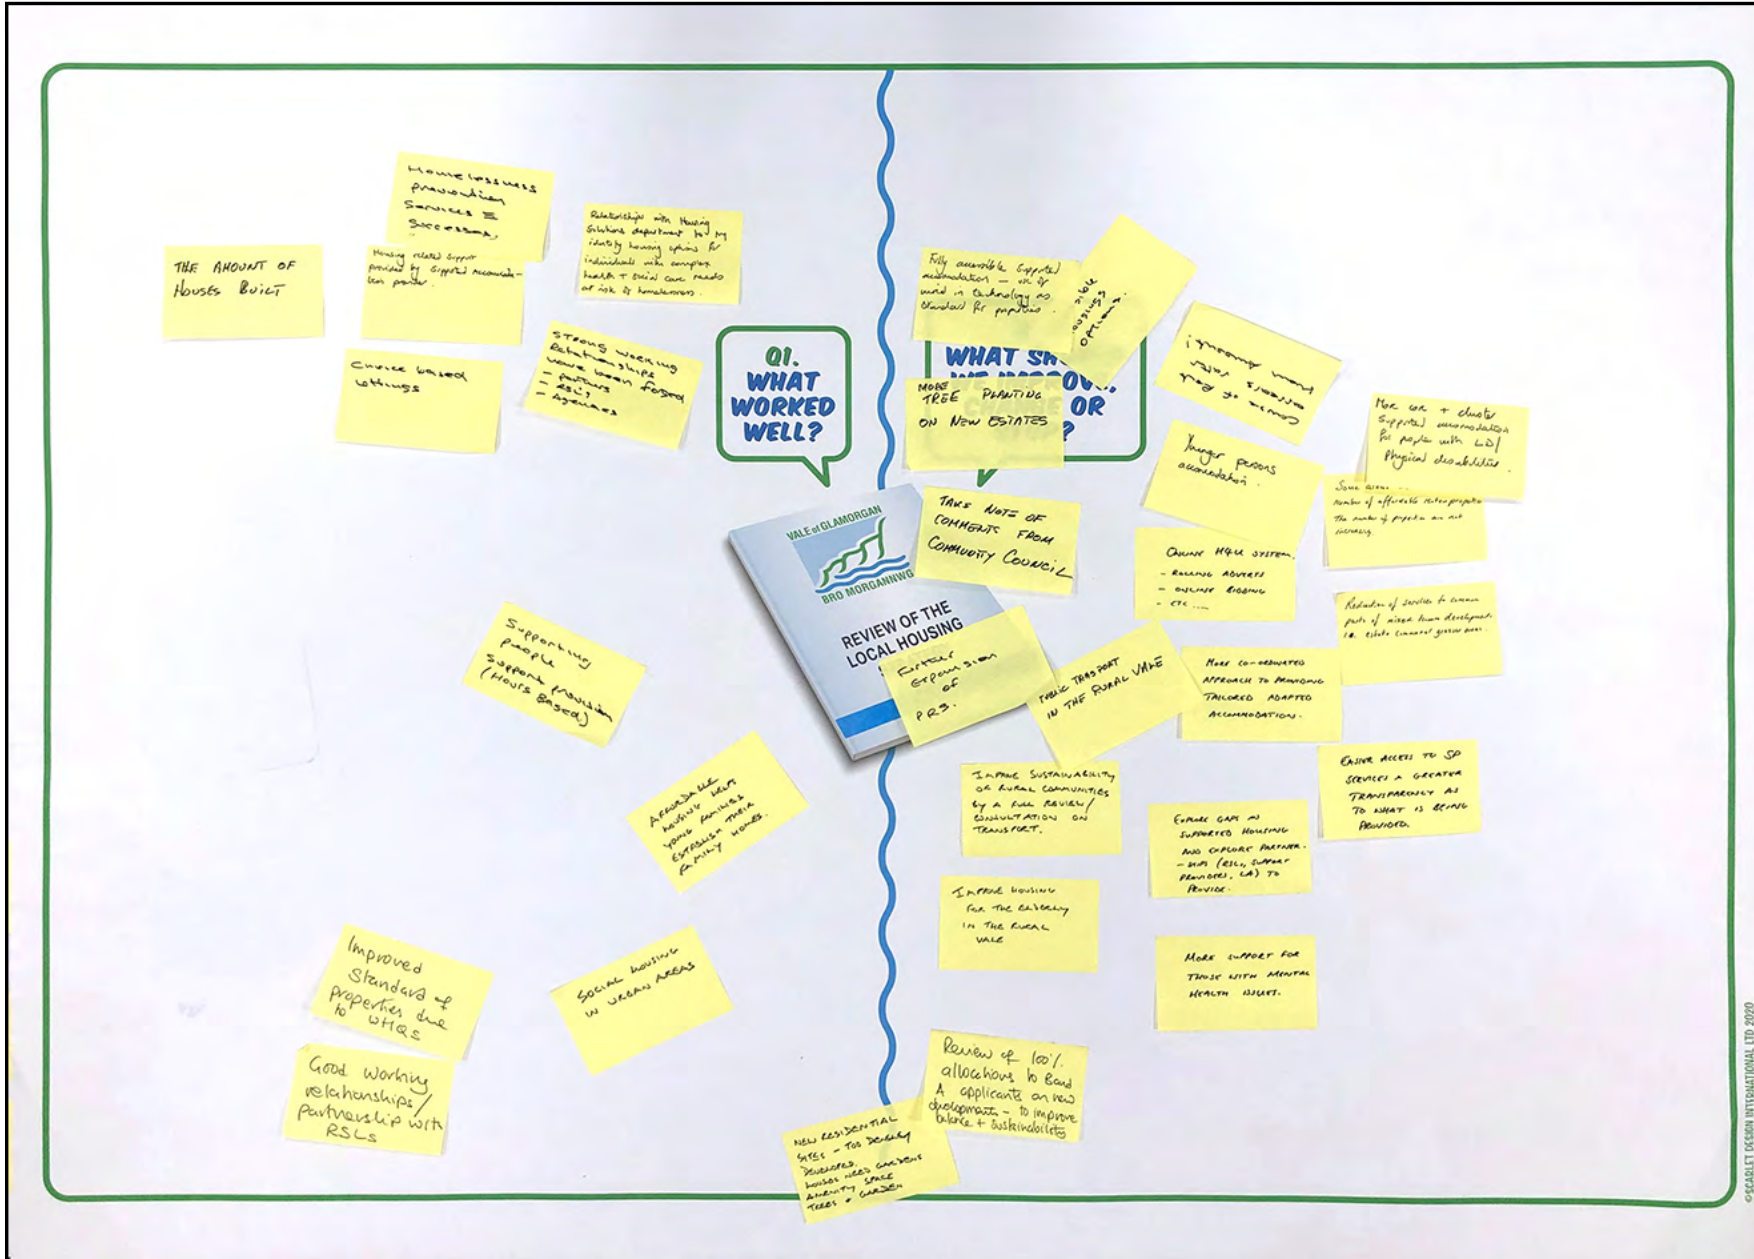

Complete environmental works as part of WHQS

- Assessment of housing in geographical area
- Continue to build homes for local people - St Mary Hill
- Reconsider planning policy in rural areas
- More engagement with local councils
- Deliver smaller, more tailored schemes
- Buy more empty properties into housing stock
- Increased housing hasn't increased facilities e.g. schools
- Continue to build new Council housing in the Vale
- Complete WHQS
- Planning SPG 5 properties trigger financial viability

Other notes and sticky notes:

- Increased housing hasn't been matched with increased facilities e.g. schools
- Complete environmental works as part of WHQS
- Stop NOTHING
- Complete environmental works as part of WHQS
- Assessment of Housing Need in Geographical Areas
- Homes in rural areas desperately need improvement in public transport
- Reconsider planning policy on sustainability in rural areas
- Buy more empty properties into housing stock
- Provision for 1st time buyers in rural areas but a need for more retirement homes linked to improved public transport
- Consider the changes necessary in doing a neighbourhood appraisals
- Review of the Local Housing Strategy 2015-2020
- Buy more empty properties into housing stock
- Provision for 1st time buyers in rural areas but a need for more retirement homes linked to improved public transport
- Consider the changes necessary in doing a neighbourhood appraisals
- Review of the Local Housing Strategy 2015-2020
- Buy more empty properties into housing stock
- Provision for 1st time buyers in rural areas but a need for more retirement homes linked to improved public transport
- Consider the changes necessary in doing a neighbourhood appraisals

WORKSHOP 1

© SCABLET DESIGN INTERNATIONAL LTD 2020

WORKSHOP 1

Q1. WHAT WORKED WELL?

- Partnership Work with RSC's
- WHRs implementations
- Local Lettings Policy
- Working w/ PRS
- Homes 4 U partnership
- Let's have well designed Scheme Plan and before.
- We see Housing - Housing is Home as our No1 Issue!!
- SOME Good Schemes Weekly - but can't share/transfer Exemption Policies
- Areas are not built in areas that are jobs - "Central Housing" - that you don't have that appropriate homes are not different to the other areas.
- Good to have a Round Having Outlier
- Being able to support people with complex medical needs to come out of Secondary Care early. (but not avoid by etc)
- Planning of housing and flats
- Before understanding of what is needed for people fleeing Domestic Violence

Q2. WHAT SHOULD WE IMPROVE, CHANGE OR STOP?

- Not enough affordable housing in the private sector
- Supply of Homes
- Supply of smaller homes in development
- Rebalance social housing for this is most need
- Social Media for Conns
- More support consultation
- More affordable female only
- Supply of homes in Rural Vale
- ONE BED PROPERTIES = WOULD SOLVE MANY OF THESE CONCERNS
- A few good houses in short housing
- Female only temporary accommodation - we need this
- Somebody else that has to build the real housing need is, about 9 years forward!
- Hardship in the rural down size!
- Conns by S.M. via Video Clips
- Communication to our Residents
- More Specialist accommodation for homeless from houses/flatlets
- make the term "Affordable" really mean Affordable
- L.A. define what makes a council renter home more affordable
- Helping young people to recognise they can own their own home - Co-ownership about what we are doing as a L.A.
- Despite internet (conns), so we all know what is available.
- Other schemes for social housing - to get out with people using Community Councils, CILs etc.
- It's difficult to reconcile affordable needs demand with supply
- ...more than just housing for rural areas don't go into housing because they don't think there will be anything there for them!
- ...more than just housing for rural areas don't go into housing because they don't think there will be anything there for them!
- On days of really poor weather people often want to leave in the Vale of Glamorgan (but how can you find it?)

REVIEW OF THE LOCAL HOUSING STRATEGY 2016-2020

VALE OF GLAMORGAN
BIG MORGANHWG

© CRESCENT DESIGN INTERNATIONAL LTD 2020

WORKSHOP 1

Q1. WHAT WORKED WELL?

BUILT MORE HOMES

WORKED WELL WITH RSLs

- HOUSING, HEALTH + CARE BOARD
 - PARTNERING WORKING
- PREVENTION OF HOMELESSNESS
- WORKED WELL WITH PRS.

Q2. WHAT SHOULD WE IMPROVE, CHANGE OR STOP?

* NEED TO BUILD MORE HOMES
1 beds + 2 beds

- * NEED MORE JOINED UP THINKING
- * NEED MORE INFRASTRUCTURE - EARLIER STAGE.
- * PEOPLE FIRST - HOMES IN THE RIGHT PLACE
- * NEED SOCIAL HOUSING DEVELOPERS/BUILDERS
- * NEED MORE HOMES FOR AGEING POPULATION.
- * PERCEPTIONS AROUND SOCIAL HOUSING.
- * NEED TO BORROW TO BUILD SOCIAL HOUSING.

2015-2020**

© CARLETT DESIGN INTERNATIONAL LTD 2020

WORKSHOP 1

WORKSHOP 1

WORKSHOP 1

PRIORITY 1. DELIVERING MORE LOW CARBON HOUSING IN 2025

QUESTION 1B: WHAT DO WE NEED TO BE DOING NOW & OVER THE NEXT 5 YEARS TO ACHIEVE THIS?

DOING NOW?

- EU charging points!
- The goal is to use more electric.

MET WITHS STANDARD ENERGY

FABRIC FIRST - NEW TECH

- OFFSITE MANUFACTURE
- HEAT pumps
- TRAINING NEW WORKFORCE
- CARBON LITERACY TRAINING
 - INFORMED KNOWLEDGE + CONTEXT
- TRAIN AT THE TOP
- REVIEW PLANNING POLICY
 - TREE PLANTING, GREEN SPACES ETC
- IDENTIFY THE RIGHT PLAYERS FOR OSM

OVER NEXT 5 YEARS?

IMPROVE ENERGY RATING
(→ B)

MURR - INTRODUCE INTO NEW + OLD STOCK.

JOINED UP ANALYSIS ACROSS SECTOR TO DETERMINE THE BEST SOLUTIONS.

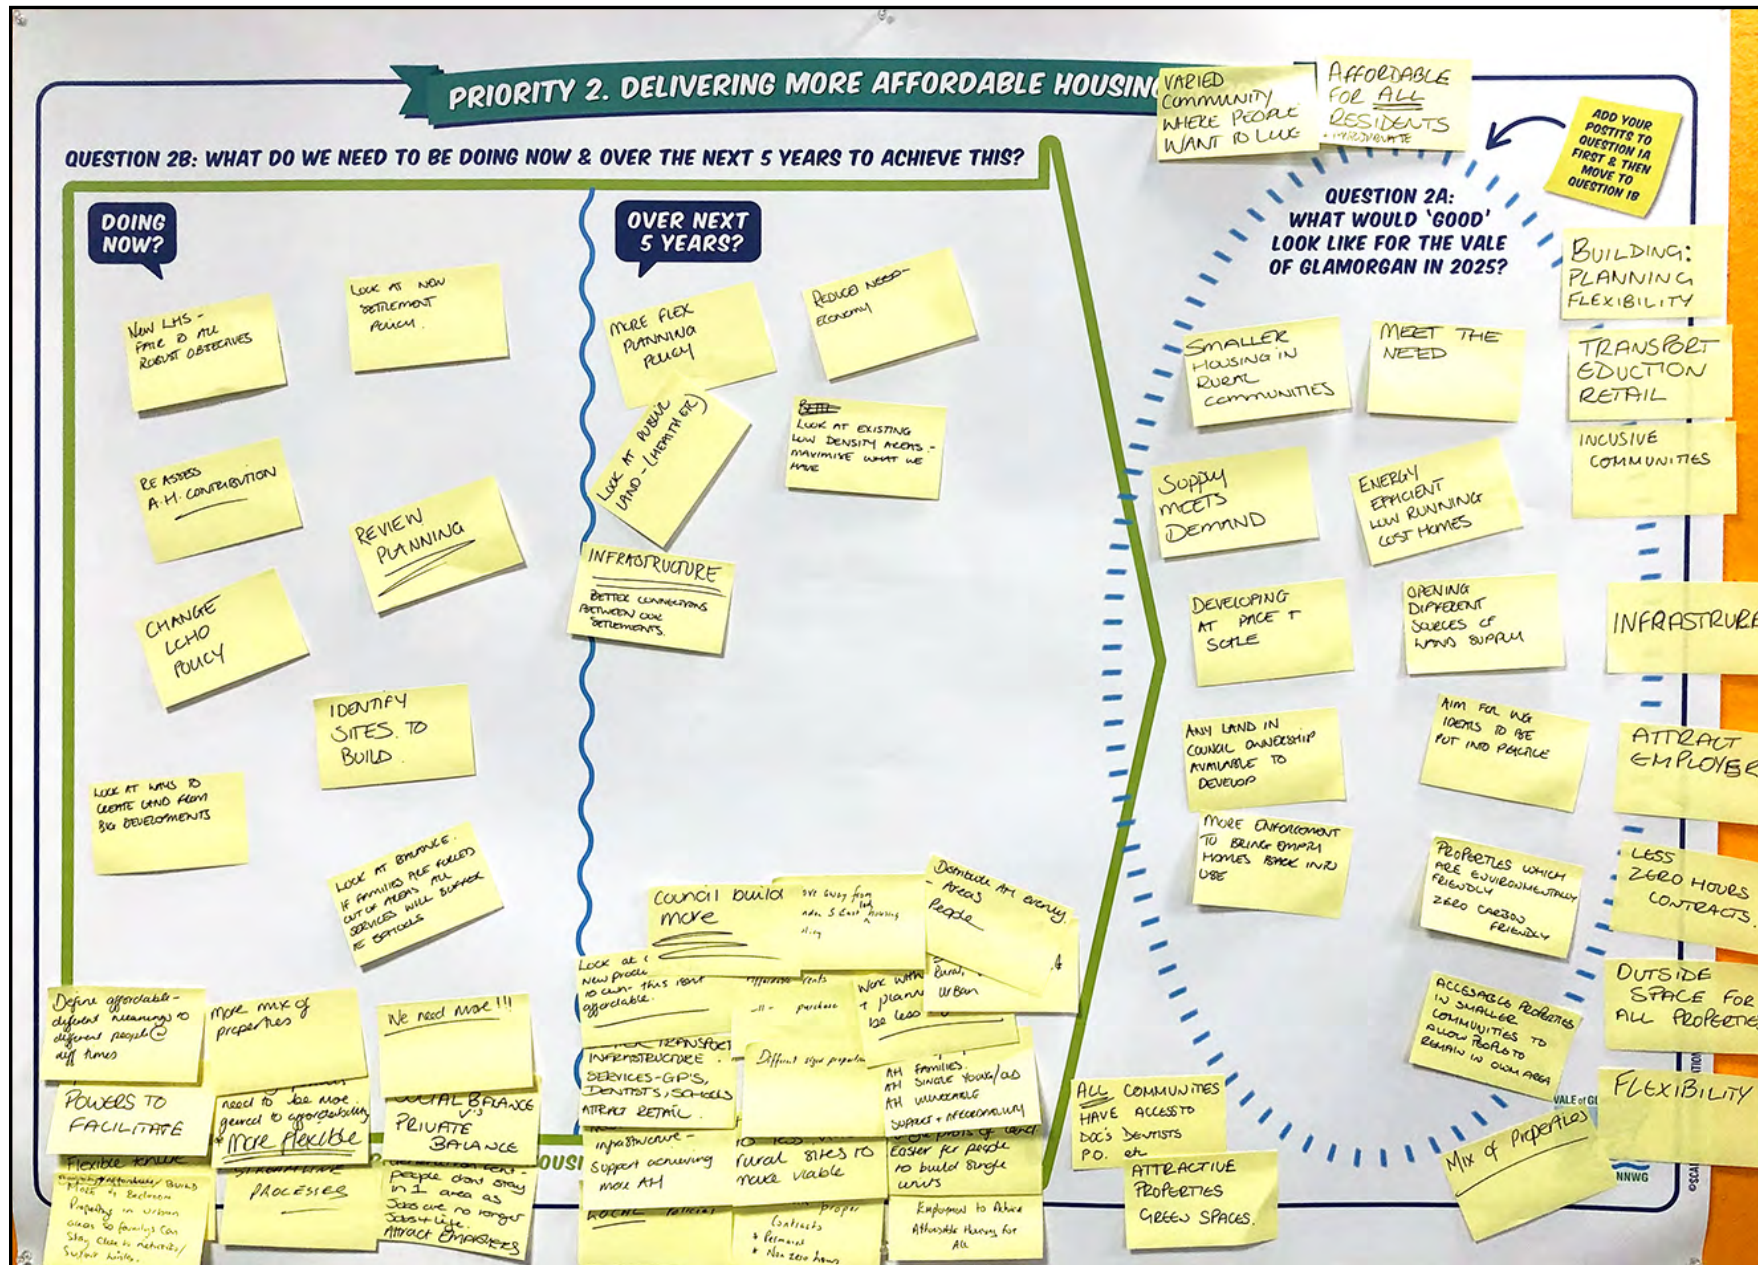

- OFFSET CARBON TREES etc.
- NEW SOLAR TECH.
- TENANTS
- NEED BALANCED ENERGY - WIND etc.
- OSM ACROSS THE REGION.

ADD YOUR POSITIVE TO QUESTION 1A FIRST & THEN MOVE TO QUESTION 1B

QUESTION 1A: WHAT WOULD 'GOOD' LOOK LIKE FOR THE VALE OF GLAMORGAN IN 2025?

- NO GAS BOILERS IN NEW STOCK
- MORE ELECTRIC + HEAT PUMPS
- AFFORDABLE USE OF NEW TECHNOLOGY
- LOCAL/REGIONAL SUPPLY CHAIN TO BUILD LOW CARBON HOUSING.
- MORE EFFICIENT BUILDING STANDARDS ACROSS THE BOARD A 'BOX'.
- SOCIAL ENTERPRISE MODEL
- USE LOCAL WORKERS

WORKSHOP 2

WORKSHOP 2

PRIORITY 3. DELIVERING MORE SUSTAINABLE COMMUNITIES IN 2025

QUESTION 3B: WHAT DO WE NEED TO BE DOING NOW & OVER THE NEXT 5 YEARS TO ACHIEVE THIS?

DOING NOW?

OVER NEXT 5 YEARS?

QUESTION 3A: WOULD 'GOOD' BE FOR THE VALE OF GLAMORGAN IN 2025?

ADD YOUR POINTS TO QUESTION 1A FIRST & THEN MOVE TO QUESTION 1B

DOING NOW?

- Review allocations by now to be developed to... (Handwritten note)
- Greater discretion for EIL to facilitate moves for residents in order to help support settled communities. (Handwritten note)
- Let's work together... (Handwritten note)
- More focus on... (Handwritten note)
- Ask people what they need... (Handwritten note)
- Scale up the good practice... (Handwritten note)
- Helping Neighbors... (Handwritten note)
- Self help tools & aids (Handwritten note)
- Digitally enabled communities & improved connectivity AI - Apps - Social Media (Handwritten note)

OVER NEXT 5 YEARS?

- Low carbon housing low utility bills (Handwritten note)
- Build communities not just houses (Handwritten note)
- Connectivity - Good broadband connection (Handwritten note)
- Extend Greenlinks in rural hubs in Vale (Handwritten note)
- Need to be at the forefront of... (Handwritten note)
- Need to understand our communities better (Handwritten note)

QUESTION 3A: WOULD 'GOOD' BE FOR THE VALE OF GLAMORGAN IN 2025?

- More... (Handwritten note)
- Facilities in a community transport links (Handwritten note)
- Balanced, resilient community where people want to live and work where people are... (Handwritten note)
- Infrastructure to match times (Handwritten note)
- Access to housing for all (Handwritten note)
- Communities that people want to live in - diverse to stay (Handwritten note)
- Individuals feel their community meets needs (Handwritten note)

WORKSHOP 2

PRIORITY 4. DELIVERING MORE SPECIALIST HOUSING IN 2025

QUESTION 4B: WHAT DO WE NEED TO BE DOING NOW & OVER THE NEXT 5 YEARS TO ACHIEVE THIS?

QUESTION 4A: WHAT WOULD 'GOOD' LOOK LIKE FOR THE VALE OF GLAMORGAN IN 2025?

ADD YOUR POSTITS TO QUESTION 1A FIRST & THEN MOVE TO QUESTION 1B

DOING NOW?

OVER NEXT 5 YEARS?

Gathering data

RSL - Facility for service saving
NHS to delivering cost-effective solutions
NHS funding ✓

Review SPG - To be opened up
Capacity to look at older persons accommodation

Issues / Demand / Groups

- Supporting people needs data collection
- * Disabled DFG Grant (Private)
- * Older By 2035 70+ will increase 70%
- * Mental health Domestic abuse target hardening
- * Ex-offenders flexible preventative measures

Temporary accommodation - female only
need accessible homes not just adapted

Currently gathering data on accommodation need / numbers for people with 101 complex needs

Summers Accommodation - Data indicates strong use in summer only

Issues of capacity around the time of summer holidays, 2 months which accommodation

Integrate community care services with health services

Review of service delivery - Review retirement homes for sale - Almond?

lifetime designs - (including biogenic) w/c uses

Greater sharing of data - Accessibility around area - Demos for examples - Extra care

Don't discuss service/deliveries

Proactive

Match supply & Demand

Social housing

Specialist accommodation (e.g. dementia, Parkinson's)

Ground floor flats in blocks having own front doors - fully w/c accessible

Equitable access to accessible housing regardless of age.

Good PLANNING & MORE SUPPORT

Non age restricted Step down (↑ integration & NHS)

Specialist planning policy

Review SPG Older persons accommodation

Bungalows

SPG no of units is limited - financial

More accessible accommodation

Further work particularly rural communities

TRIM - mental PRE-RETIRED homes - very popular

Specialist accommodation

Need to look at the impact of the health services on the housing market

Rural planning policy

Review SPG Older persons accommodation

Bungalows

Local Housing Strategy Planning Day

Overview of the Local Housing Strategy 2015-20

Mike Ingram

Head of Housing & Building Services

Strategic Vision

All residents in the Vale of Glamorgan have access to good quality, suitable housing and are able to live happily and independently in vibrant, sustainable communities

Aim 1. More homes and more choice

<p>Enable a functioning housing market</p>	<ul style="list-style-type: none"> • Clear understanding of housing market through LHMA's • Supplementary Planning Guidance (SPG) 2018 • Shared vision for housing
<p>Increase housing supply</p>	<ul style="list-style-type: none"> • Development of affordable housing meets local housing needs • Ensure S106 agreements meet the needs of the SPG • Increase affordable housing through close working with RSLs • Maximisation of SHG / RCG
<p>Develop supply of private rented accommodation and improve access</p>	<ul style="list-style-type: none"> • PRS Landlords Forum / Landlord Help Facility • 2 PRS Support Officers in Housing Solutions Team • Vale Assisted Tenancy Scheme
<p>Provide housing solutions for the rural vale</p>	<ul style="list-style-type: none"> • Rural Housing Enabler • Local Lettings and Sales Policies • Rural Exception Sites
<p>Develop appropriate housing to meet specific needs with the community</p>	<ul style="list-style-type: none"> • Housing LIN report / Older Persons Accommodation Action Plan • All affordable housing meets the Development Quality Requirements • Adapted units provided on all grant funded new affordable housing • Demand for specialist and supported housing identified through HRS, Gateway and consultation processes

Aim 2. Improve homes and communities

<p>Improve the quality of housing across all tenures</p>	<ul style="list-style-type: none"> • Advice, financial and practical support offered to private households • Quality of housing in private sector improved through a reactive housing enforcement service • Rent Smart Wales registration / compliance
<p>Return Empty Homes to use</p>	<ul style="list-style-type: none"> • Empty Homes Strategy 2019-24 • Empty Homes and Loans Officer • Empty Homes Working Group
<p>Promote the role of housing regeneration and renewal area projects</p>	<ul style="list-style-type: none"> • Barry Town Centre Gateway Regeneration Project • Town Centre Regeneration Loans • Housing Regeneration Policy
<p>Increase the energy efficiency of homes and reduce fuel poverty</p>	<ul style="list-style-type: none"> • HRA funded installation of external wall insulation to 76 council housing • SAP rating increased from 69.93 in April 2018 to 71.86 in April 2019
<p>Improve and invest in communities</p>	<ul style="list-style-type: none"> • Tenants supported to access training, education and employment • Added value clauses in contracts and procurement • Tenant Engagement Strategies in place for VoG and RSLs • Partnership working: H4U, Tenancy Ready and Aspire to Own

Aim 3. Better housing advice and support

<p>Ensure the public have access to high quality housing advice</p>	<ul style="list-style-type: none"> • Universal Credit Partnership Group • Housing Advice Service to rural communities: TREV • Housing Solutions Service / prevention of homelessness • Emphasis project for young people
<p>Prevent homelessness wherever possible</p>	<ul style="list-style-type: none"> • Engaging with PRS landlords and letting agenda: PRS Landlord Forum • Vale Assisted Tenancy Scheme (VATS) • B&B use only in emergencies / for single people • Provide wide range of temporary housing solutions
<p>Enable access to the right type of housing</p>	<ul style="list-style-type: none"> • Utilise existing supply of accessible / adapted properties • Reviewing eligibility criteria for low cost home ownership properties
<p>Provide support to enable people to develop and maintain their capacity to live independently</p>	<ul style="list-style-type: none"> • SP funded schemes - Private Rented Scheme / One Stop Shop • Weekly drop in held at mental health locality team • Improving links with health through HSG changes • Flexible funding governance structure in place – meetings held between HSG and CCG.

Aim 4. Equality of access

<p>Understand and recognise the needs of people falling within the nine protected characteristics and those who use the Welsh Language</p>	<ul style="list-style-type: none"> • Housing Solutions Team offer visits within the community • Online self help tool to be launched shortly • SP contracts state that equal access must be promoted • EIAs completed when services are reconfigured/developed • Vulnerable Persons Resettlement Service
<p>Eliminating discrimination, harassment and victimisation</p>	<ul style="list-style-type: none"> • All housing providers have policies and procedures in place • All housing providers work closely with the police and Community Safety Partnership
<p>Respond to the diverse housing needs of people in the Vale of Glamorgan</p>	<ul style="list-style-type: none"> • Social landlords work to promote the use of the Welsh Language • Work to meet the housing needs of gypsies and travellers in the Vale through the Gypsy & Traveller Project Board

What should we improve / change / stop?

Local Housing Strategy Planning Day

Looking Forward: 2020-25 Priorities

Alison Clements

Housing Solutions & Supporting People
Team Leader

Delivering more.....Low Carbon Housing

Why?

- Climate emergency
- Net zero by 2050

Role of Council and Partners

- Joint working
- Reduce fuel poverty
- Create jobs / training / supply chains

Good Practice

- WG Innovative Housing Programme Funding

Delivering more.....Affordable Housing

Why?

- 20,000 affordable homes
- Affordable Housing Review

Role of Council and Partners

- Strategic housing role
- Affordable housing partnership

Good Practice

- VoG Affordable Housing developments

Delivering more....Sustainable Communities

Why?

- Housing a key national priority
- Housing (Wales) Act 2014

Role of Council and Partners

- Homelessness Strategy
- Housing Support Grant
- Social landlords role i.e. community investors

Good Practice

- VoG Housing Solutions Service
- Tenancy Ready project

Delivering more.....Specialist Housing

Why?

- Develop appropriate housing to meet specific needs
- Ageing population / Housing LIN report 2018

Role of Council and Partners

- Work in partnership to develop housing options
- Development of Older Persons Housing Strategy

Good Practice

- Golau Caredig
- Accommodation Solutions Project

DRAFT

FOREWORD

I am pleased to introduce the new Local Housing Strategy 2021 -26 for the Vale of Glamorgan.

The previous strategy was implemented in 2015 amid changes to the welfare system, legislation and a global economic crisis. We have seen increasing demand for housing, housing advice and support services as people have faced rising costs of living with little or no growth in wages.

I am proud of the way in which the Vale of Glamorgan has embraced the challenges with investment in housing exceeding £82m over the five year period 2015 – 2020, and the partnerships built with stakeholders and residents have continued to go from strength to strength, resulting in the development of solutions to meet needs.

I am delighted to see that the Council has also started building council housing for the first time in many years, and the opening of the One Stop Shop will go some way to ensuring people are able to access help when they most need it.

Against a backdrop of the current recession brought about by the Coronavirus Pandemic, which looks set to see rising unemployment and fluctuating levels of public funding for the foreseeable future, I look forward to our achieving further success, working in partnership with stakeholders and residents.

Councillor Margaret Wilkinson

Cabinet Member for Housing and Building Services.

The Local Housing Strategy sets out to continued long term strategic vision for housing in the Vale. That;

All residents in the Vale of Glamorgan have access to good quality, suitable housing and can live happily and independently in vibrant, sustainable communities

In developing the strategy, we have drawn on the views of key partners and residents to help shape and refine the priorities and make sure we address the issues that matter most.

The effects of the Pandemic on public spending will be seen for some time and will impact on our ability to provide housing services, but we are ready to meet the challenge and through this strategy we can make a real difference to people's lives.

In partnership, we can build more homes, drive up standards in the private-rented sector and make homes cheaper to run. We can stimulate the economy; create apprenticeships, training and employment opportunities for local people. Reduce homelessness and help people maintain their accommodation.

The Council and its partners recognise that we must continue to develop innovative and flexible ways of working. The Housing Solutions Service continues to enable all residents access to housing advice, not just at the point of crisis, but throughout their lives as their housing needs change.

With determination, commitment, support from those we work with and the involvement of residents, together we will seek to make the vision of the strategy a reality

Michael Ingram

Head of Housing and Building Services

2. INTRODUCTION

The Vale of Glamorgan Council's revised Local Housing Strategy 2021-2026 updates the adopted 2015-2020 Strategy¹. In February 2020, an extensive consultation exercise was held with key partners including Elected Members, community councillors and stakeholders from across the Council, RSL partners, health, probation, police, support providers and others. Key themes were identified which are summarised in Figure 1.

Figure 1

These themes align with the four aims of the 2015-2020 Strategy. For this reason, the decision to carry these aims forward into the new strategy was agreed in the Overarching Housing Forum in December 2020.

This Strategy also reflects legislative changes that occurred after the consultation took place and changes to working practices brought about via the effects of the Coronavirus pandemic.

Vision

The Local Housing Strategy long term strategic vision for housing in the Vale is:

All residents in the Vale of Glamorgan have access to good quality, suitable housing and can live happily and independently in vibrant, sustainable communities

It also sets out how the Vale of Glamorgan Council and its partners will shape and deliver housing and housing services across the Vale to achieve our vision.

The Strategy has been developed in challenging times with new legislative duties on local authorities, with COVID19 potentially resulting in the biggest recession in history which will lead to local and national budgetary changes, Brexit and an ever-increasing demand for services as a result of the Covid pandemic; the full extent of which is not yet known.

Creating strong communities to ensure they are attractive places to live and work requires the commitment and resources of a range of public, private sector, voluntary agencies and crucially local people. Partnership working is therefore essential to the success of the Strategy and we have drawn on the views of key partners and residents to help us shape and drive the priorities and address the issues that matter most to them.

Aims

The four Aims outlined in the previous strategy remain important and relevant and therefore the themes are carried through into 2021-2026 Local Housing Strategy and we will continue to build on the achievements to date in Figure 2:

Figure 2

1. More homes, more choice
2. Improve homes and communities
3. Better housing advice and support
4. Equality of access to housing and housing services.

Each of these aims are addressed in a separate chapter with the heading “Our Aims”

Our Partners

Key to the success of any strategy is partnership working. The Council is fortunate to have a wealth of partners, see Figure 3, who share the same values and priorities including:

Figure 3

- Housing Associations (also known as Registered Social Landlords)
- Private landlords and letting agents
- Third sector support providers and agencies
- Statutory partners operating in the Vale including Planning, Health, Probation and Police
- Welsh Government

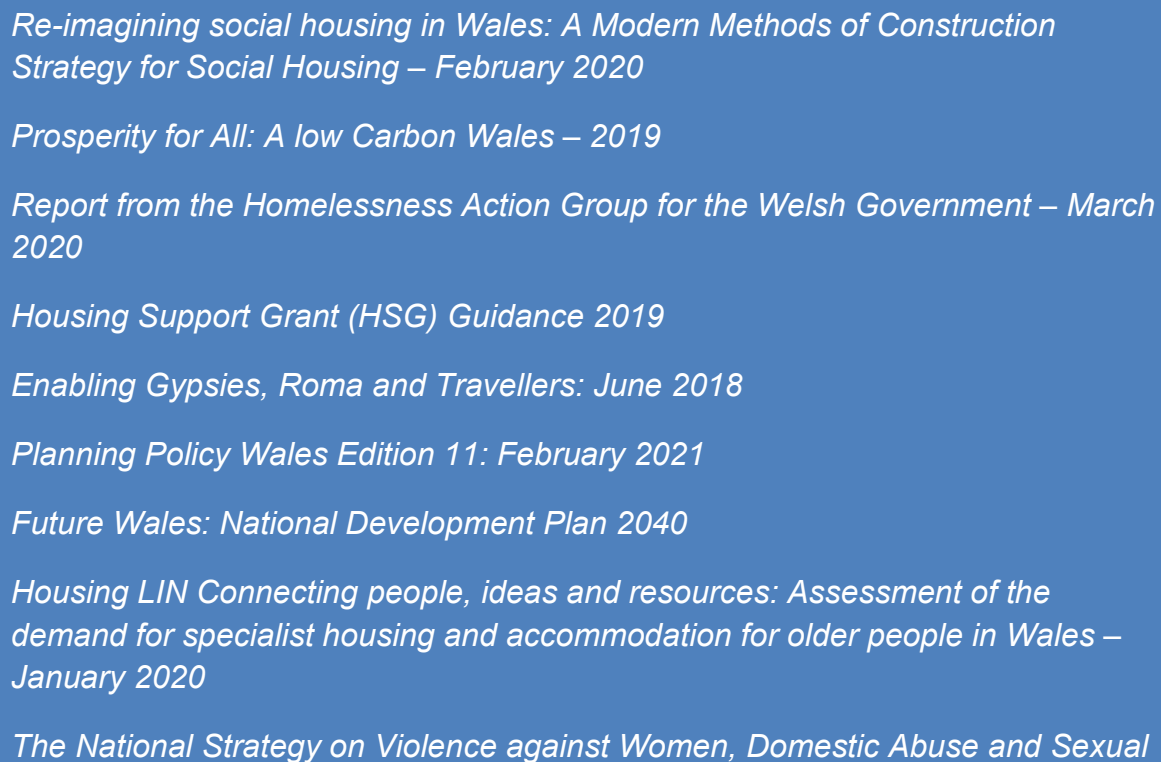

Welsh National Policy

This Strategy acknowledges the priorities outlined in the Welsh Government’s national planning policy, housing and homelessness strategies.

It also responds to Welsh Government legislation including the Housing (Wales) Act 2014, Wellbeing of Future Generations (Wales) Act 2015 (and the five ways of working for sustainable development), Social Services and Well-being (Wales) Act 2014 and Renting Homes (Wales) Act 2016, together with changes in UK Government policy, specifically around welfare reform.

Following the publication in April 2019 of the Affordable Housing Supply Review, in February 2020 Welsh Government committed £2billion to housing and published its new strategy “Re-imagining social housing in Wales” with the aim of delivering 20,000 new affordable homes during the period 2016 - 2021. here are several recent Welsh Government strategies and documents, Figure 4, which have also informed this Strategy:

Local Policy

Council Strategic Planning

Figure 5

The Vale of Glamorgan Corporate Plan, Figure 5, “*Working together for a brighter future 2020 – 2025*” is the Council’s key strategic document and together with “*Our Vale – Our Future*” the Public Service Board’s wellbeing plan for the Vale, sets out the Council’s vision for the future of the Vale of Glamorgan: “Strong communities with a bright future”

‘Working together for a brighter future’ is a five-year plan and details four new wellbeing objectives we want to achieve: -

- To work with and for our communities
- To support learning, employment and sustainable economic growth
- To support people at home and in their community
- To respect, enhance and enjoy our environment

The plan has a strong emphasis on collaboration and working partnerships. The partnership working is wide ranging, including working with families, children and young people, our health partners, the Police and the Fire Services as well as other public sector bodies, the third sector, Town and Community Councils and our communities.

The Local Development Plan

Figure 6

In addition to the corporate plan, the Vale of Glamorgan Council has an *Adopted Local Development Plan 2011 – 2026 (LDP)*.

Figure 6

This document was adopted in June 2017 and is the key document in terms of delivering new homes and infrastructure in the Vale of Glamorgan.

The LDP is supported by the Council’s Supplementary Planning Guidance (SPG) on Affordable Housing. This SPG sets out the Council’s approach to delivering affordable housing through the planning system. It sets out the Council’s planning requirements and mechanisms for securing and delivering affordable housing within the Vale of Glamorgan.

Housing Strategy and related policies

The Local Housing Strategy 2020-2025 provides the vision for housing in the Vale of Glamorgan and is supported by several related strategies and policies , Figure 7:

Figure 7

Monitoring and Review

The Strategy sets out several ambitions to be undertaken over the next 5 years and a separate action plan has been developed to accompany it which will be continually monitored with partners through the Overarching Housing Forum (OHF) to inform reporting and progress each year. The achievements will also be regularly reported to the Homes and Safe Communities Scrutiny Committee.

3. LIVING IN THE VALE – HOUSING MARKET INFORMATION

Housing Supply

In March 2020, Technical Advice Note 1 was deleted, and Planning Policy Wales was amended to remove the five-year housing land supply policy and replace it with a policy statement making it explicit that the housing trajectory, as set out in the adopted LDP, will be the basis for monitoring the delivery of development plan housing requirements as part of LDP Annual Monitoring Reports (AMRs). There is no longer a requirement to provide a Joint Housing Land Availability Study.

Since the previous Local Housing Strategy (2015-2020) was launched, house building in the Vale of Glamorgan has increased as evidenced via the collected annual data². The latest data is set out in Figure 8 below:

Figure 8

2014-15	272
2015-16	621
2016-17	842
2017-18	794
2018-19	623
2019-20	917

The data collected shows a rise in new housing completions from 272 new dwellings completed in 2014/15 to 917 in 2019/20.

Many the new affordable homes delivered are through market-led developments, which are secured via a Section 106 Agreement requiring a percentage of the overall number of houses to be affordable. The number of S 106 affordable homes³ can be seen in Figure 9 below:

Figure 9

Annual number of affordable dwellings delivered Via S 106 Agreements	
Period	Additional Affordable Dwellings Provided
2015-16	111
2016-17	186
2017-18	217
2018-19	105
2019-20	156
2020-21	122
Total	897

The type and size of new dwellings built differs between private sector developers and Registered Social Landlords (RSL) and according to data collected by Local Authority Building Inspectors and the National House Building Council between 2014 and 2019⁴ shows:

- 83% of the properties built by private developers were houses and 17% were flats. In terms of house size, 4-bed houses are the most common type, whereas 2-bed flats are the most common size of that type.
- 41% of the properties built by RSL's were flats and 59% were houses. In terms of house size, 2-bed houses were the most common size type whereas for flats, 1-bed flats are the most common size.

The Vale has an estimated 59,891⁵ households as at 31st March 2020. Most households, 75%, own their own home, 11% rent from a social landlord and 13% from a private landlord. The percentage of owner occupiers is higher than the Wales average of 70% home ownership.

In terms of affordable housing delivery, the RSLs active within the Vale of Glamorgan have steadily increased their provision over the last 5 years. In the period 2015-21, RSLs in the Vale of Glamorgan provided 1303 affordable homes. The LHS shall continue to promote the delivery of affordable homes through the Local Authority and RSLs continuing to collaborate and removing unnecessary barriers to affordable housing to ensure affordable homes are continued to be delivered to meet the need in the Vale of Glamorgan area. For example, maintaining the planning obligation exemption for 100% Affordable Housing schemes of 25 units or less as agreed by the Vale of Glamorgan Cabinet on 5th September 2016.

Figure 10

Annual number of affordable dwellings delivered ⁶ Via Social Housing Grant	
Period	Additional Affordable Dwellings Provided
2015-16	52
2016-17	40
2017-18	69
2018-19	0
2019-20	138
2020-21	107
Total	406

Additionally, the Vale of Glamorgan Council has initiated their own affordable house building programme taking advantage of available grant funding from Welsh Government and financial contributions secured through Section 106 agreements through the planning system. In the period 2017-18 the Local Authority delivered 3 affordable homes, following the success of this development the Local Authority has increased its development programme with 28 units planned in the period 2020-21. The Vale of Glamorgan Council will continue to deliver affordable housing collaborating with partners to ensure effective delivery.

Population changes

At the time of the last Census in 2011 the population of the Vale of Glamorgan was 126,336⁷, with most people being of working age. However, the Vale of Glamorgan had a lower proportion of working age people and a higher proportion of children in comparison to the rest of Wales. In contrast, the proportion of people over the age of 65 was representative of Wales as whole.

On 4th August 2020 Welsh Government published the Local Authority Household Projections for Wales 2018⁸, based on information obtained from the Office for National Statistics (ONS) national projections. These household projections provide an indication of the future number of households and their composition in Wales based on how many additional households would form if the population of Wales continues to change as predicted using the mid-year population and household estimates.

Figure 11

POPULATION PROJECTIONS TO 2028											
Year	2018	2019	2020	2021	2022	2023	2024	2025	2026	2027	2028
Population	132165	132987	133864	134749	135617	136448	137233	137999	138713	139384	140044

The household projections shown in Figure 11 for the Vale of Glamorgan are also based on data about 'household formation'. Assumptions about the formations, or different types of households, are based on 2001 and 2011 Census data, produced by the ONS.

Figure 12

Household Projections to 2028											
Year	2018	2019	2020	2021	2022	2023	2024	2025	2026	2027	2028
Population	57230	57762	58297	58816	59358	59885	60383	60863	61316	61750	62176

The Vale of Glamorgan Local Authority area is predicted to have a percentage increase (4.2%) in the number of households in Wales for the period 2021-2026, as shown in Figure 12. Although the total number of households in Wales is projected to increase during the period 2021 to 2026, the number of one-person and two-person

households will increase the most. This will result in the number of these type of households with no children will continue to be the most common household type in the Vale of Glamorgan.

The number of households with children is projected to rise by 4.2% between 2018 and 2028 and the number of children between the ages of 0 and 15 years old is set to increase during this period (up 2.8%). There is a projected increase of 8.6% in households with no children between 2018 and 2028.

One person households are projected to increase in all local authority areas with the Vale of Glamorgan representing one of the larger increases in Wales, with the projected one person households increasing by 16.9%. The number of one person households with a person aged 65 or over is projected to account for nearly 45% of all one person households by 2028 in the Vale of Glamorgan. The increase in one person households with a person aged 65 or over demonstrates that there will be a greater need to deliver older persons accommodation to reflect this change in household formation. This will be addressed through the aims and objectives of the LHS.

However, it is important to draw a distinction between the predicted household figures and the number of dwellings required to meet the anticipated population growth in the Vale of Glamorgan. Multiple households can be contained within one dwelling (HMO – House in Multiple Occupation) resulting in a difference between the household projections and the dwelling requirement for a Local Authority. Both population and household projections are required to inform the dwelling requirement for a Local Authority. The Vale of Glamorgan Local Development Plan calculated the anticipated residential requirement over the plan period from 2011 to 2026. A more in depth analysis of these predictions and requirements are outlined within the LDP⁹

<https://www.valeofglamorgan.gov.uk/Documents/Living/Planning/Policy/LDP/LDP-Adoption/Adopted-LDP-Written-Statement-June-2017-final-interactive-web-version.pdf>

Since the LDP adoption, the Welsh Government have released the 2018-based projections. The principal variant for the 2018-based projection for the Vale of Glamorgan identifies 134,749 people in 2021 which is projected to grow to 144,536 by the end of the replacement LDP period (2036).

The potential residential requirement in the replacement LDP would be informed by the most recent projections at the time of the LDP review, however, this may decrease or increase depending upon the local context and objectives of the local planning authority. The LHS will help inform how the projections are translated into the residential requirement and how the need for affordable housing is addressed in conjunction with the most recent LHMA. Furthermore, working in collaboration with partners and the LPA the objectives and aims of the LHS can inform the development plan policies in the replacement plan.

Housing Demand

The latest Vale of Glamorgan Council's Local Housing Market Assessment (LHMA) 2019¹⁰ calculates the need for affordable housing and identifies that the Vale of Glamorgan's greatest need is for social rented accommodation. The development of social housing must therefore remain a priority, particularly in relation to the affordable housing delivered on market housing developments in compliance of the Supplementary Planning Guidance for Affordable Housing (SPG) which requires a contribution of between 30% and 40% affordable housing on most sites, depending on the area in which they are being built as viability varies throughout the Vale of Glamorgan.

The key outcome of the LHMA 2019 is the identified need for an additional 890 units of affordable housing per year over the coming 5 year period 2019 – 2024, broken down to 799 units of social rented accommodation, 70 units of intermediate rented housing and 21 units of housing for assisted home ownership per year. It is anticipated that the impact of the Covid-19 pandemic and resultant lockdowns will increase the number of households in financial difficulties, and housing crisis and that the next LHMA, due to be completed in the Summer of 2021 which show an even higher affordable housing need.

However, it should be noted the 2019 LHMA used the 2014-based projections which are not the most up to date projections available. This is due to the 2018-based projections being recalled by ONS during the period the 2019 LHMA was being drafted. This was because ONS had identified several errors in the projections which significantly increased the predicted population for some Local Authorities which included the Vale of Glamorgan. Therefore, it was considered appropriate to use the 2014-based projections to inform the 2019 LHMA as it was the most reliable data available at the time.

Although the 2019 LHMA projections differ from the projections discussed in the LHS, the LHMA is reviewed every two years to ensure the document reflects the most recent data. Consequently, the 2019 LHMA will be reviewed in 2021 bringing the projections in line with the LHS.

Property Condition

Whilst homeowners are responsible for maintaining their homes, the Council is committed to improving the quality of housing across all sectors and accepts that many homeowners, especially the elderly may not have the resources needed to keep their homes in a good state of repair. The Council has a role to provide help in these circumstances.

The Council, as social landlord, achieved 100% compliance with the Welsh Housing Quality Standard (WHQS) in 2020, ensuring the minimum quality standard for housing.

On all new proposed social-rented housing (including those being secured via Section 106 agreements via market-led developments), the Council requires developers to deliver them to Development Quality Requirements (DQR), the current social housing standard defined by Welsh Government (WG). DQR for new builds is currently under review by WG and looks set to be replaced with a new standard 'Beautiful Homes and Spaces' (BHS) which sets out minimum functional quality standards for new and rehabilitated general needs affordable homes. The new standard considers not just homes but also their environs and is as much about the external spaces created as it is about the design of the home.

Affordability

The Vale of Glamorgan has considerable socio-economic disparity, with some of the most affluent and some of the most deprived communities in Wales.

The latest Welsh Index of Multiple Deprivation published in 2019¹¹ shows 3 areas within the Vale (within Barry) which fall within the 10% most deprived lower super output areas (LSOAs) in Wales, accounting for 3.8% of the Vale of Glamorgan's population. There are also some smaller concentrated pockets in rural areas and south east Vale.

The impact of the economy on house prices, mortgage availability and households' incomes have a significant effect on affordability and in turn on housing need.

In December 2019 the Welsh Government announced a five year rent policy for social housing tenants in Wales, which will help keep rents affordable while allowing social landlords to build more affordable homes across the country. Housing providers have a role to place affordability calculations for social housing within their rent policies from 2021-22.

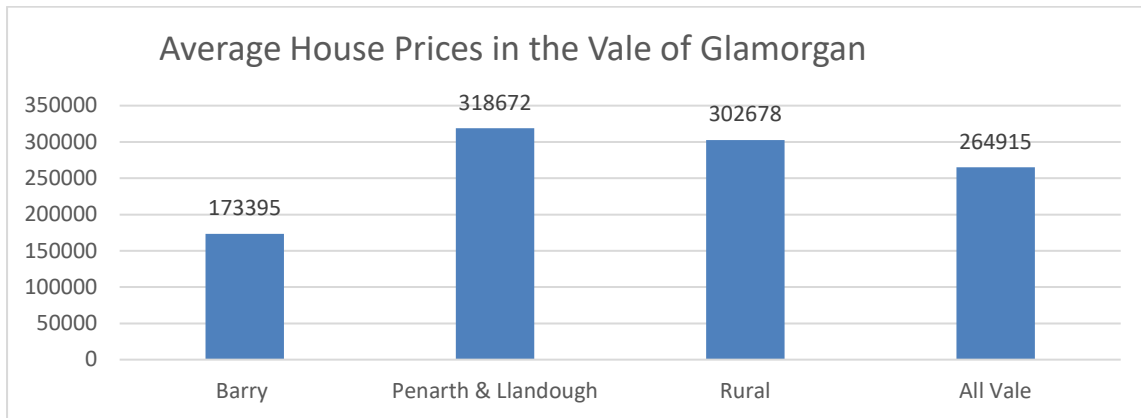

The number of people accessing housing advice has increased year on year and reflects changes in the housing market i.e. the shortage of housing across all tenures, the growth of the private rented sector, increasing affordability issues and difficulties for first time buyers. It is anticipated that the Covid-19 pandemic will increase these pressures further as more people find themselves in financial hardship and unemployed.

House Prices

The average overall house prices in the Vale of Glamorgan¹², Figure 13, in December 2020 was £264,915; the average cost of a one bedroom flat was £116,280 and a two bedroom terraced house £176,720, while a detached property

was £400,008, with Penarth & Llandough and rural Vale seeing average prices considerably higher than those in Barry.

Figure 13

Average house prices in rural Vale vary, figure 14, one significant fact is that there are very few, if any, one-bedroom properties available for sale in rural vale:

Figure 14

	Dinas Powys ED	Sully	Cowbridge	Llandow /Ewenny	Llantwit Major	Peterston-super-Ely	Rhose	St. Athan	St. Bride's Major	Wenvoe	Rural Total	Rural Average
1 bed Prices (Flat)	N/A	N/A	N/A	N/A	N/A	N/A	N/A	N/A	N/A	N/A	0	0
2 bed Prices (Flat)	153000	185398	180000	N/A	N/A	226500	122000	N/A	280000	N/A	1146898	191150

Average house prices in Barry, Figure 15, are much less and whilst they do vary, the variation is less:

Figure 15

	Baruc	Buttrills	Cadoc	Court	Castleland	Dyfan	Gibbonsdown	Illtyd	Barry Total	Barry Average
1 bed Prices (Flat)	97800	N/A	72000	N/A	N/A	N/A	N/A	N/A	169800	84900
2 bed Prices (Flat)	145333	115429	N/A	95000	128000	N/A	N/A	167500	651262	130252

AVERAGE	188508	151579	167057	145953	152954	203720	181220	196169	1387160	173395

Rental Costs

The average rent charged for a private sector two bedroom property in the different areas of the Vale varies considerably, with Penarth/Llandough being the most expensive at 22.5% more expensive than the average rent of £152.41 (per week), and Barry being the cheapest at 25% lower than the average rent. Housing association and local authority rents are less expensive, with the average housing association rent for a 2-bedroom home being £109.43 a week and the average for council 2 bedroom properties being £100.54¹³.

Health and Social Care

Health in the Vale of Glamorgan is generally good with life expectancy like, or above the Welsh average. The 'above average' life expectancy is not experienced equally across all areas and there is a gap in healthy life expectancy between people living in the most and least deprived areas of the Vale.

Census and demographic predictions suggest that the rise in the number of older people is set to continue with the number of those aged 65 and older predicted to increase by more than half between 2013 and 2036 in the Vale of Glamorgan.

The proportion of people with a long-term limiting illness or disability increases with age, hence population changes are likely to have a large impact on the demand for health and social care.

Economy

The global economic recession (2007-2009) has had a severe impact on the housing sector for many years since. It is currently uncertain how the current recession (2020), brought on by the Coronavirus pandemic, will impact housing in terms of demand and delivery.

Unemployment levels look set to rise dramatically and at the same time, higher energy, food and transport costs have all added to the increasing cost of living which has been further compounded by Welfare Reform and austerity measures that have taken place over recent years. Changes to the welfare system have and will continue to have an impact on tenants, landlords and local authorities in years to come.

The UK House Price Index ¹⁴for September 2020 shows UK house price growth hit a two and half year high because of high demand over the summer, this is moderating now to pre-Covid-19 levels although remains 40% higher than a year ago.

Many of the challenges set out in this strategy reflect much wider social and economic issues along with the anticipated effects of Brexit.

4. OUR AIMS

AIM 1 - MORE HOMES, MORE CHOICE

To provide more homes and more choice; ensuring that all residents have access to suitable and affordable accommodation

A home is more than just a place to live. Good quality housing is key to good health and well-being with poor or unsuitable housing contributing to ill health, leading to the need for greater levels of social care and often having a negative impact on education and employment.

Houses are about the people who live in them and the communities they are located in. Housing drives the demand for local services, shops and facilities and the contribution housing makes to thriving communities is clear.

Creating and sustaining strong, vibrant communities, and re-vitalising town centres to ensure they are attractive places to live and work, requires the commitment and resources of a range of public, private sector and voluntary agencies and, crucially, local people. Working in partnership to deliver housing and housing services and to develop innovative solutions to address local housing needs is therefore imperative.

The Council and its partner Registered Social Landlords (RSL)s are committed to continuing to deliver as many new affordable housing units as possible to contribute towards the need identified in the Local Housing Market Assessment 2019, of 890 units of affordable housing per annum over the 5-year period 2021-26.

In April 2020, the Council's Cabinet approved the first Council Housing Development Strategy and an ambitious five-year development programme, with the objective of delivering over 500 new homes across the Vale, including homes for market sale. The Strategy focuses on delivering new homes in the communities that have greatest need, evidenced in the most recent Local Housing Market Assessment. The Council has committed £68 million through the Housing Business Plan to achieve this objective, over the next five years.

The Vale of Glamorgan's aim to provide **more homes and more choice** will be achieved by working towards the following key objectives:

More homes, More choice – key actions

1.1 Enable a functioning housing market

The Housing Market refers to the supply and demand for housing, in an area, country or region. A functioning housing market is defined as one where all residents can access suitable and affordable housing, regardless of their income.

The housing market can be affected by several factors, including.

- House prices
- Population and demographic changes
- The buy-to-let investment market and demand from tenants
- The mortgage industry and interest rates
- Government intervention
- Economic factors such as income and employment rates, and changes to welfare reform

The Vale of Glamorgan Council has an enabling role in ensuring that the housing market is functioning well; without intervention it is likely that many households would find housing inaccessible, as the market house prices and rents would be unaffordable to them.

The Council has several levers available to it which can be used to influence and shape the housing market, these include:

- Information on housing need and demand
- Orchestration of the views of tenants and communities
- Finance in the form of grants, e.g. to subsidise housing development, provide welfare assistance and housing support services
- Planning powers to oversee and influence land usage
- Facilitating more land to come forward for development
- Legal and regulatory powers, e.g. environmental health
- Statutory responsibilities, e.g. in relation to homelessness

The Council's strategic housing function needs to maintain a sound knowledge of the local housing market to ensure that the development of the housing market and housing supply meets the locally identified needs.

As already highlighted, the Council gains a significant amount of information about the local housing market from the bi-annual Local Housing Market Assessments (LHMA), with the most recent carried out in 2019.

<https://www.valeofglamorgan.gov.uk/Documents/Living/Housing/Local-Housing-Market-Assessment-LHMA.pdf>

The Council's Housing and Planning departments work closely with market housing developers and RSLs to enable housing development in the public and private sectors. A strategic approach will continue to be taken to meet local housing need and the Housing Department will continue to provide responses to planning consultations based on local housing need data.

ACTIONS

- Adopt and monitor the Local Housing Strategy 2020-2025
- Review governance structure of the existing forums
- Complete a Local Housing Market Assessment as directed by Welsh Government
- Understand need – LHMA and Housing Solutions needs
- Balance housing need with the needs to balance communities
- Have due regard to affordability when setting rents
- Assess housing need within geographic boundaries
- Change and improve the perception of social housing
- Maximise Welsh Government subsidy for affordable housing
- Maximise land availability

1.2 Increase housing supply

The demand for additional housing in the Vale of Glamorgan has continued to grow and the latest Welsh Government population growth prediction confirms that this will be the case over the coming years. The demographic changes predicted show a notable aging population and a large increase in the number of single person and lone parent households. These factors along with inward migration provide the basis for housing demand in the Vale of Glamorgan.

The Vale of Glamorgan's Adopted Local Development Plan (LDP) 2011-2026 sets out the Council's strategic land use plan and makes provision for the use of land for housing. It contributes to the need for affordable housing by securing contributions from market housing site via legal agreements (section 106 contributions), rural exception sites and the development of sites by social housing landlords, including the Council. To accommodate the level of growth identified in the Vale of Glamorgan, the LDP identifies a range of development opportunities to meet this residential requirement Policy MG1 – Housing Supply in the Vale of Glamorgan outlines 10,408 dwellings which is broken down as in Figure 16, following:

Figure 16

Type of Delivery	Number of Residential Units
Development of Sites with extant planning permissions (10 or more dwellings) at April 2011	182
Allocations within the Plan	8,525

Development of unallocated windfall sites (10 or more dwellings)	840
Development of small sites (less than 10 dwellings)	861
Total Dwelling Supply 2011-2026	10,408

In terms of delivery, as of 1st April 2020, the LDP had delivered 4,534 additional dwellings, which included 1,393 additional affordable homes. It is the Council's intention to commence its formal review of the LDP in June 2021 and anticipate that a replacement LDP will be adopted by March 2025. The review represents an opportunity for Housing and RSL partners to work in collaboration with the planning colleagues in order to maximise opportunities for the delivery of affordable housing during next plan period 2021 to 2036 to reflect the need within the LHMA and meet the objectives of the LHS.

Welsh Government also aims to increase the number of affordable homes built in Wales with more open market development, more affordable housing development and more direct development by local authorities. This aim is reflected in the revised Planning Policy Wales (PPW) Edition 11, which sets out the planning policy framework for Wales. PPW directs Local Planning Authorities to make provision for affordable housing led residential schemes within development plans. These allocated residential sites must include a minimum of 50% affordable housing based on criteria that reflects the local circumstances of the Local Authority.

Welsh Government have also increased the amount of SHG available to LAs to build affordable housing, with the commitment to extend the additional funding for a period of 3 years. This additional money will enable the Vale Council to bring forward schemes already in the programme as well as those on the reserve and potential list, and is very welcome, this will go some way towards meeting the increasing need for social housing in the area.

Previously PPW made an exemption for small affordable housing sites allowing Local Planning Authorities to allow these developments as exception sites to planning policies where it is required to meet an identified need. This is addressed under LDP Policy MG10 – Affordable Housing Developments Outside Settlement Boundaries which allows small scale affordable housing development outside settlement boundaries where they have a distinct physical or visual relationship with an existing settlement. The policy defines small scale as generally meaning 10 or fewer dwellings. However, PPW has removed the reference to small scale meaning exception sites are not restricted in size but would still need to reflect the context of the area and meet all other criteria against which a housing development would be judged such as the national sustainable placemaking outcomes.

This change represents an opportunity to increase the delivery of affordable housing on appropriate sites throughout the Vale of Glamorgan. Helping to meet affordable housing need within rural areas where it has previously been difficult to develop sufficient stock to meet the need.

In urban areas, the Future Wales: National Development Plan under Policy 2 – Shaping Urban Growth and Regeneration – Strategic Placemaking states “To support the economic and social success of our towns and cities, including sustaining public transport and facilities, urban growth and regeneration should increase the population density of our towns and cities. New developments in urban areas should aim to have a density of at least 50 dwellings per hectare (net), with higher densities in more central and accessible locations.” (WG, p.66, 2021). This represents an opportunity to increase the delivery of affordable housing by allowing higher densities, this is particularly important within the area of Barry which has the highest need for affordable housing in the Local Authority.

The Vale of Glamorgan Council supports innovative solutions to increase the supply of housing and will make the most of all opportunities to work with others to achieve this increase including:

- Co-operative housing
- Self-build opportunities
- Open Market Housing Developments
- Planning gain
- Partnership working

ACTIONS

- Develop housing for intermediate rent or assisted sale
- Collaborate and provide strategic support to locally zoned RSLs and other key partners
- Use the planning system to deliver affordable housing i.e. S106 agreements, Rural Exception Sites (RES) in order to assist local communities to remain sustainable and provide homes for local people
- Maximise funding e.g. Social Housing Grant and any other subsidies that Welsh Government make available
- Build more affordable homes including council homes

1.3 Develop the supply of private rented accommodation and improve access

Homes which are owned, managed or let by private landlords are part of the private rented sector (PRS). The sector is diverse, catering for many sections of the housing market. It varies considerably between the extremes from very poor quality at one end of the scale to luxurious at the other.

The Vale of Glamorgan Council will continue to work with landlords and tenants to ensure there is enough supply of good quality, well managed private rented properties, and to promote the sector positively to the public.

ACTIONS:

- Work with PRS to increase the supply of good quality PR accommodation available i.e. bonds/Vale Assisted Tenancy Scheme (VATS)
- Provide support to individual landlords and tenants to help to maintain tenancies
- Assist individuals with Bonds/Rent in advance when appropriate and put in place procedures to facilitate their repayment

1.4 Provide housing solutions for the rural Vale

The Vale of Glamorgan is estimated to be 85% rural and whilst poverty and housing need is concentrated in urban areas there are also pockets of deprivation in the rural Vale. The high price of homes in most rural areas mean that there is pressure on affordable housing in some communities.

The average house price in the Vale of Glamorgan is £219,284 whilst the average over the rural Vale is £302,678.¹⁵ Whilst this does not appear to be a large difference, the lack of one and two bedroom homes in the rural Vale exacerbates the problem in terms of affordability.

Enabling people to remain or return to living where they grew up, where they have family and a connection, enables communities to support each other by providing care, support and childcare to family members. It also supports local facilities e.g. shops, schools and pubs and helps the community to remain sustainable.

There are obstacles to developing new housing in the rural Vale, including a lack of understanding, funding, land suitability and availability. The adopted LDP attempts to redress the imbalance by including housing allocations with affordable housing requirements in the rural Vale in identified minor rural settlements. FLDP Policy MD10 – Affordable Housing Developments Outside Settlement Boundaries supports the development of small-scale affordable housing outside of settlement boundaries in rural areas, where there is evidence of housing need and where the site has a distinct physical or visual relationship with an existing settlement.

There continues to be a need for sensitive affordable development to keep our rural communities vibrant and sustainable. Developing affordable housing in the rural Vale will continue to be based on a few good practice principles:

- Building to meet identified need and working with communities to identify exactly what type of housing they need, and where.

- Close community engagement from initial consultation, through to design, planning and lifetime management of the homes. By developing strong relationships with our communities to inform development we will gain continued support for future housing developments.
- Sympathetic design and materials to fit in with the surrounding area; schemes need to complement the surrounding architecture; they should also be sensitive to environmental and conservation issues.
- Recognising local connection, affordable housing should meet the area's needs and lettings are prioritised for people with a local connection

The Council remains part of the Welsh Government's Rural Housing project and in partnership with the local RSL's a full time Rural Housing Enabler (RHE) is employed to proactively identify housing need in rural areas and engage with communities to develop housing solutions designed specifically with the needs of rural communities in mind. The RHE develops local lettings and sales policies in partnership with RSL's and the relevant community council to ensure new affordable homes are prioritised for local people.

ACTIONS

- Promote the use of rural exception sites
- Focus on rural Vale i.e. RHE, local lettings and Sales policies, and work more with community councils
- Consider a rural housing register
- Ensure all Elected Members are aware of the Rural Housing Pledge
- Support the delivery of more homes for older people and better links to transport in rural areas to assist with downsizing
- Work with Planning colleagues to ensure adopted planning policies remain relevant to rural areas of the Vale

1.5 Develop appropriate housing to meet specific needs within the community

The need for additional housing is clear and whilst most of the new homes required are for 'general needs' purposes, there is also a need for appropriate housing which is designed to meet the needs of specific groups within the community to include:

Housing for older people

Like many areas, the Vale of Glamorgan Council's older population is projected to increase considerably over the next 20 years. In considering accommodation for older persons, this Strategy looks at those aged 50 and over, with a focus on the older age ranges and people with specific needs.

A strategy for 'Older Persons Accommodation' will be developed separately which will bring together the response required from a range of partners to address the

challenges and achieve a suitable supply and balance of accommodation types to enable older people to live independently for as long as possible with access to appropriate services and support. Collaboration between Housing, Social Care and Planning within the Vale of Glamorgan Council and with other key partners including Health, RSLs and developers is essential to make this work and to deliver the best outcomes for older people in the Vale.

Specialist and supported housing.

Designed to meet the needs of vulnerable people in the community who may need support to live independently either in the short or long term.

Specialist accommodation is required within the County to meet the needs of vulnerable people and enable people to develop and maintain their independence. Developing enough supply of specialist accommodation for client groups involved with statutory social services also helps to minimise the use of expensive residential and out of county placements.

The priorities for supported housing development are identified through the Housing Support Grant Programme and set out in the Housing Support Grant Delivery Plan 2021-2022. They have been in part driven by the response to the covid-19 pandemic, and the resulting increase in homeless presentations.

<https://www.valeofglamorgan.gov.uk/Documents/Living/Housing/Public%20Sector/Supporting%20People/Housing-Support-Grant-HSG-Delivery-Plan-2020-21.docx>

Accessible and adapted housing.

Individuals may require accessible, level access or adapted properties for several reasons, including physical disability, mobility issues and illness. Greater consideration must be given to the tenure options available for adapted and particularly purpose-built properties.

The Council works with RSLs and private house builders to develop a supply of new adapted, accessible and purpose-built homes and aims to provide at least two adapted, accessible or purpose-built properties on each development of affordable housing where subsidy such as Social Housing Grant is included.

To ensure equality of access to housing an Accessible Housing Panel was introduced in autumn 2020. The panel, made up of Housing and Health professionals, considers each property on its suitability for the individual applicant who has successfully bid for it through Homes4U. Following both an individual and a property assessment, any adaptations which are viable are carried out based on the applicant's individual circumstances.

ACTIONS

- Develop an Older Persons Accommodation Strategy and Action Plan
- Assess the suitability and financial viability of adapting each general needs social rented property if the successful applicant has specialist requirements
- Promote the types of development identified as needed by older people in the Housing LIN review
- Plan and develop affordable housing for older people and consider mixed age schemes
- Review the eligibility criteria for assisted home ownership to include people currently excluded who have affordability issues especially older persons
- Build more homes that meet DQR and the Lifetime Homes Standard and accessible housing
- Promote mixed tenure developments and links with existing communities

DRAFT

Aim 2 – Improve Homes and Communities

To improve homes and communities; by ensuring housing is maintained and fit for purpose, increasing the supply of good quality, energy efficient homes in vibrant and sustainable communities.

Health and housing are intrinsically linked as poor housing can exacerbate health issues. Housing is particularly relevant to the ageing population with good quality suitable housing often seen as a solution to health and social care issues. Homes may not always be poor quality to be unsuitable and adapting someone's home to meet their needs can enable them to continue living independently in their own home, relieving pressure on already stretched waiting lists.

The Council and its partners remain committed to sustaining vibrant communities and breaking the cycle of deprivation. Housing is an important aspect of regeneration and investing in housing is also an investment in communities. Maximising and making the best use of investment in housing continues to contribute to wider benefits of sustainable, vibrant and prosperous communities.

The Vale of Glamorgan's aim to improve homes and communities will be achieved by continuing to work towards the following key objectives:

Improve Homes and Communities

2.1 Improve the quality of housing across all tenures

The introduction of the Welsh Housing Quality Standard in 2002 provided a minimum standard for social housing and all the social landlords in the Vale including the Council have achieved 100% compliance. To maintain stock at the WHQS a significant investment in planned maintenance programmes is in place, both within the VoG housing stock and that of the RSLs.

ACTIONS

- **Ensure that all social landlords in the Vale maintain WHQS Going forward.**

2.2 Enable homeowners to access financial help, by way of loans, to help with repairs, improvements and housing adaptations

Whilst homeowners are responsible for maintaining their homes the Council is committed to improving the quality of housing across all tenures and accepts that many homeowners especially the elderly may not have the resources needed to keep their homes in a good state of repair. The Council has a role to provide help in these circumstances and access to capital funding from Welsh Government enables the Council provide loans to private sector property owners.

As well as repairs and household improvements, over time some homes need adapting to meet their occupier's changing physical needs. Adaptations can be required due to a person's physical mobility reducing with age or through medical conditions. This demand is likely to increase as the population of older people increases and medical advances improve life chances.

Help for adaptations is provided through a range of capital grant programmes:

- Mandatory Disabled Facilities Grant (DFG)
- Major Adaptations Grant
- Relocation Assistance
- Council homes adaptations funding
- Physical Adaptations Grants (RSLs)

The DFG programme is a Welsh Government priority as it reduces the need for care packages, enables community rehabilitation and reduces admissions to hospital. The Council prioritises funding to the most vulnerable residents so support can be given to as many private sector residents as possible and to maximise funding.

The Council has also experienced an increase in the number of major adaptations being identified and continuously seeks the most cost-effective way(s) of delivering adaptations, assessing and prioritising funds to the most vulnerable tenants and so maximising the identified annual capital budget. This supports delivery of minor and major adaptations and promotes independent living in council homes.

The Council has within its stock holding, some older, larger properties which may no longer be needed as demands for family housing have changed, options to convert these large properties into smaller units will be explored.

ACTIONS

- Explore alternative use of larger social housing stock
- Promote the availability of loans
- Promote the availability of grants for adaptations

2.3 Support for Town Centres

Building on the regeneration work to date, and the need for a direct and urgent response to the challenges posed by the Covid-19 pandemic, the Council is prioritising schemes that reduce the number of vacant, underutilised and redundant sites and premises in town centres.

The Council will support town centre diversification by encouraging more sustainable uses for empty sites and premises, such as residential, leisure and for key services. As outlined in the Welsh Government's Transforming Towns agenda the outcomes of this approach should focus on supporting job creation and economic growth,

tackling poverty, increasing the supply and quality of the housing offer, and supporting targeted training and recruitment during construction.

ACTIONS

- Improve environmental works and invest in existing areas and estates
- Consider the need for wider mixed-use regeneration opportunities in areas/communities

2.4 Return empty homes to use

Empty homes represent a wasted resource and a lost opportunity. The Vale of Glamorgan has a significant need for additional market and affordable housing and yet there are over 800 empty homes across the County that could be brought back into use.

Empty homes pose problems for the Council and it is recognised that a proactive and corporate approach is required. The Council's Empty Homes Strategy 2019-24 sets out the aim to reduce, and return to use, the many long-term empty properties within the Vale.

<https://www.valeofglamorgan.gov.uk/Documents/Living/Housing/Empty-Homes/Empty-Homes-Strategy-2019-2024-English.pdf>

The Council's Empty Homes and Loans Officer (EHLO) informs property owners of the assistance available and encourages engagement i.e. interest free loans, reduced VAT on renovation work as well as providing selling and letting options. In addition, the EHLO helps to coordinate action in relation to problem empty homes and refers cases onto relevant enforcement departments, as required.

ACTIONS

- Bring back empty homes into use and consider Compulsory Purchase Orders when appropriate
- Assemble, maintain and improve empty homes data
- Provide advice, assistance and financial incentives to reduce the number of long-term empty properties
- Prioritise empty homes for enforcement action
- Raise awareness of the empty homes issue

2.5 Increase the energy efficiency of homes and reduce poverty

The Council has continued to improve the energy efficiency of its housing stock to meet the requirements of Welsh Government legislation in relation to decarbonisation and the Welsh Housing Quality Standard (WHQS). With original

decarbonisation targets being set to reduce the carbon footprint by 80% by 2030, this has now been revised to a target of EPC A by 2030 for all social homes following the recommendations of the “Better Homes, Better Wales, Better World” report in July 2019.

In July 2019, the Vale of Glamorgan Council declared its commitment to deliver its well-being goals as set out in its Corporate Plan ‘Strong Communities with a Bright Future’ and the Well-being of Future Generations Act, and the progress of initiatives in support of the existing Carbon Management Plan.

Carbon reduction work undertaken on existing council housing stock focused on a fabric first approach to reduce the potential of fuel poverty for tenants, however with the introduction of PAS 2035, the Council is keen to train staff in the principles of the “Each Home Counts” report.

The Council has reprofiled its entire council house development programme to ensure that its new homes meet the increased expectations of Welsh Government to deliver ‘net zero carbon homes’ and improve the quality of life, health and financial well-being of its residents. The Council has embraced Welsh Governments’ aims and objectives, set out in its new strategic vision for social housing entitled ‘Beautiful Homes and Places’, which will replace the current Development Quality Requirements.

The Council will employ Modern Methods of Construction (MMC) and Off Site Manufacturing (OSM) techniques, meaning that more of the structural components of its new homes will be manufactured in factory settings, which will improve the quality, energy performance and the speed at which new homes can be built. These new homes will be constructed using modular fully finished factory-built units, as well as structurally insulated panels.

The Council will work with partner RSLs and other relevant stakeholders to make MMC/Net Zero Carbon a more viable option by seeking to secure mixed tenure / use opportunities so that access to good quality energy efficient homes are available for all: not just social

ACTIONS

- All new council-built homes to be off the gas network, utilising electricity supplied from sustainable sources.
- All new homes to be EPC ‘A’ rated from 2021, transitioning to net zero carbon as soon as improvements to the National Grid allow.
- Work collaboratively with WG and other local authorities to standardise a template for a range of zero carbon homes

- Work collaboratively with Welsh timber frame and modular home manufacturers to increase the scale and pace of delivery of zero carbon homes
- Build more carbon neutral housing
- Consider working towards decarbonisation of existing housing
- Consider Welsh Government's 5-year rent policy and the effects of new technology on all household bills, to ensure true affordability

2.6 Invest in communities

RSLs are more than just landlords, and their investment in community activities adds value to the economy and the development of sustainable communities. The benefits of community investment include:

- Getting people into work or adult learning
- Enabling access to technology
- Money Advice services
- Working with schools
- Targeted recruitment and training opportunities in construction projects
- Helping community groups to access funding

The Council aims to not only be an excellent landlord but also a 'community investor' and to adopt a more than 'bricks and mortar approach'. Its Community Investment Strategy drives a significant investment in improving the quality of tenants' lives via a range of initiatives including employability, health and well-being, digital inclusion and promoting tenant empowerment.

ACTIONS

- Invest in community projects
- Educate young people about housing
- Develop support for tenants around Universal Credit (UC)
- Improve communication via social media
- Provide more outside space, trees etc
- Review service charges

Aim 3 – Better housing advice and support

Better Housing advice and support – key actions

*To provide **better housing advice and support**; ensuring residents have access to the housing and services they need to live independently and plan their housing futures*

Everyone needs a home and some people at certain points in their lives need advice and/or support to either access or to maintain a safe, suitable home in which they can continue to live independently. Whilst there are many public, private and third sector organisations providing a range of good quality services we will always look to improve the help on offer and to ensure it reaches the people who need it.

Homelessness can occur for a multitude of reasons. Homelessness does not mean living on the streets and applies to anyone who does not have access to an affordable, decent, secure dwelling. A proactive approach to preventing homelessness is a vital part of the service provided and to ensuring there are options for people which meet the different circumstances they face at different stages of their life is crucial.

Some people will need support to enable them to develop their capacity to live independently and remain in their accommodation, either short or long term and delivered in a way which suits the individual. There are some people who are not ready or able to live independently and specialist supported accommodation is commissioned through the Housing Support Grant for people with additional housing related support needs.

The Vale of Glamorgan Council's aims to provide better housing advice and support are:

3.1 Ensure the public have access to high quality housing advice

Many people require housing advice at some point in their lives, whether they are a young person leaving home for the first time, a family looking for a settled home, or an older person looking to move to a more manageable property. People need to be able to access timely, high quality advice and assistance to help them resolve their housing problems well before their situation reaches crisis point.

There are many organisations offering housing advice in the Vale including (but not limited to), the Council's Housing Advice Service, Pobl's One Stop Shop, Llamau's One Stop Shop for Young People, Shelter Cymru, Care and Repair in the Vale, The Citizens Advice Bureau, registered social landlords, support and care providers and numerous private organisations such as letting agents, banks, building societies, mortgage and financial advisors and those that provide advice on accessing private

sector housing. Often resolving a housing issue will require advice from a range of organisations, not just those directly involved in housing, Of particular relevance are providers who offer advice around financial inclusion and awareness, employment, education and training, physical and mental health, community safety, legal rights and wellbeing of children and young people.

The underlying economic climate and changes to the welfare benefits system continue to impact on individuals and families, and social landlords regularly find themselves working with households who are in a precarious financial situation. Trained staff and specialist Money Advice teams provide invaluable assistance in more complex situations, helping tenants in a variety of ways. Over the last year the Council's Money Advice team alone, made 955 home visits to clients which resulted in £397,502 in additional money for the tenants. This is in addition to interventions delivered by registered social landlords. Demand on the services continue to grow as people find themselves in financial hardship. As well as increased demand due to the roll out of universal credit and more people being out of work, a growing number of employed people are requesting assistance.

The households seeking housing advice are not limited to those threatened with homelessness, experiencing overcrowding or poor housing conditions. The number of people accessing housing advice has increased year on year, which is likely to reflect the changes in the housing market, such as; the shortage of housing across all tenures, the growth of the private rented sector, increasing affordability issues, difficulties for first time buyers and the impact of welfare reform. However, it is anticipated that the Covid-19 pandemic will put unprecedented pressures on all housing advice and support providers, as more people face financial hardships resulting from the pandemic and subsequent lockdowns.

Many continuing challenges and changes are likely to impact on the demand for housing advice, both in terms of the number of people needing advice and the type of advice and support required. The 2015-2020 Local Housing Strategy identified that the Vale of Glamorgan requires a coordinated response between the Council and its partners to future proof advice services to ensure they were fit for purpose going forward. Following consultation with stakeholders, Members, the people who use our services and the people delivering these services, the Vale of Glamorgan commissioned a one stop shop for housing related support in collaboration with Pobl. The service is open to anyone in need of advice or support with housing issues, regardless of personal circumstances or tenure of accommodation and demand for the service is extremely high.

ACTIONS

- All social housing partners (Council and RSLs) set up and maintain a database of adapted properties
- Continue the Discharge Solutions Service to help reduce delays in hospital discharge, minimise hospital admissions and provide a seamless service
- Review the eligibility criteria for assisted home ownership properties for
 - a) older people who are homeowners but are unable to afford to downsize or access suitable accommodation
 - b) homeowners who have a specific need for an adapted/accessible home
- Review and update the Aspire2Own (A2O) and Homes4U Schemes to ensure they remain fit for purpose
- Promote the drop-in support services available
- Maximise the use of social media
- Develop a set of Customer Service Standards with relevant policies and procedures
- Implement a method of obtaining regular feedback on customer services

3.2 Prevent homelessness wherever possible and provide sustainable solutions

Part 2 of The Housing (Wales) Act 2014 became legislation on 27th April 2015, replacing Part 2 of the Housing Act 1996 as the primary legislation for local authorities to meet their duties to anyone presenting with a housing need. The Act introduced several new duties to help anyone seeking housing advice and assistance from the local authority. These new duties included:

- providing assistance to everyone who is threatened with homelessness regardless of whether they fall into a priority need category or have a local connection to the authority.
- an emphasis on prevention and early intervention by placing a duty on local authorities to work with people who are at risk of losing their home within 56 days to help find a solution to their problems.
- the ability for local authorities to discharge their homeless duty into the private rented sector.
- the removal of the automatic priority previously given to prison leavers.
- The need for all local authorities to publish a four-year Homelessness Strategy for the period 2018-2022.

The Vale of Glamorgan was the highest performing local authority in 2018 and 2019 and has continued to maintain a high rate of prevention successes over the last year despite significant challenges created by the pandemic.

To date 3988 households have been assisted through the new legislation with 2462 achieving a positive outcome. Of these cases 1384 households were prevented from becoming homeless and 1078 households were successfully rehoused.

There has been an increasing recognition of the need to provide effective housing options for people who are non-statutorily homeless in recent years, and the Council has implemented a range of measures to improve the services it can offer to these clients. These include a frontline comprehensive housing advice service, including direct help where necessary to mediate/negotiate with landlords, and the provision of bonds and rent in advance to help secure privately rented accommodation.

The Service has made significant progress over the past 5 years. Collaborative working has become embedded in the Service allowing access to specialist advice and support offered by partner agencies. A Shelter Cymru advice worker has been seconded to the team to assist with the transition period between the old and new legislative framework as well as providing advice to the team to ensure that they are adhering to the legislation. In addition, the Housing Solutions Team has continued to work very closely with the Supporting People Team to identify and develop complementary support services to assist clients more effectively. The homelessness assessment process has been enhanced by the introduction of support workers onsite from Pobl and Platform. These workers assist clients in crisis, at the time of presentation, and have proved an invaluable tool in preventing homelessness and assisting clients to maintain their accommodation.

The Covid-19 pandemic put extraordinary pressure on Homelessness Services with Welsh Government instructing authorities in Wales that if someone was roofless or sofa surfing, they should be treated as vulnerable due to the dangers of the pandemic and must be provided with temporary accommodation. Welsh Government has made it clear that they are committed to ensuring that this new way of working is embedded in the way local authorities assess homeless applicants going forward. This will therefore continue to put pressure on the service to find new and innovative solutions to meet the needs of all citizens with a housing need, including those with high support needs and chaotic lifestyles.

In response to this challenge additional funding was made available to local authorities through the Covid Recovery Fund, enabling the Vale of Glamorgan to deliver 11 additional units of temporary accommodation utilising modern methods of construction (MMC). However, Welsh Government have made a clear commitment to ensure that no one is returned to homelessness following the pandemic, which will continue to put pressure on the service to find innovative ways to address the housing needs of anyone affected by homelessness. The Vale of Glamorgan Housing Solutions Service has however embedded rapid rehousing into its ethos for many years and helps

anyone experiencing homelessness whether they fit into the traditional priority groups or not.

The Vale of Glamorgan Council has recognised that to meet the needs of vulnerable households with complex issues, supported housing needs to be utilised in the most effective way for clients experiencing or at risk of homelessness. To achieve this, a single point of access was introduced in 2018 for all Housing Support Grant funded services to ensure that the most vulnerable clients are prioritised.

In addition, the Supporting People Team assessed the needs of all households in emergency accommodation as part of its needs mapping for 2021-2022, and will continue to assess these needs as part of their annual needs mapping process going forward to ensure that the needs of the most vulnerable are included in future service provision and development.

ACTIONS

- Prevent and reduce homelessness
- Ensure the appropriate allocation of sensitive let properties
- Develop a Youth Homelessness Prevention Service
- Develop a hospital discharge process to include homelessness clients who do not meet the Discharge Solutions Service criteria
- Explore the need to develop a direct access hostel

3.3 Enable access to the right type of housing

It is important that people in the Vale of Glamorgan can access the right type of accommodation, that is affordable and suitable for their circumstances.

Households sometimes find it difficult to find and access suitable affordable housing in their preferred neighbourhoods, which meet their individual needs. At different points in people's lives, different types of housing might be needed as personal, work and family situations change.

Improving access to suitable housing for all households contributes to an effective housing system; creating more sustainable housing solutions and enabling people to live independently for longer in their own communities. The Council works closely with its partners to make the best use of the available housing stock and make it easier for people to find suitable housing solutions.

Homes4U

Through the Homes4U Scheme, the Council and RSL's in the Vale of Glamorgan advertise and allocate social rented housing. The Homes4U policy has been agreed between all social landlords operating in the county; the Council and Newydd, Wales & West, Hafod and United Welsh Housing Associations.

Operating one single allocations scheme provides benefits to residents as they only have to register once to be eligible for properties available from five landlords.

Homes4U was the first 'choice based' scheme in Wales, and aims to provide greater opportunity for applicants to decide where they wish to live by allowing them to bid for homes in areas, they prefer to live in.

Over 6000 households are registered with Homes4U and as there are on average 300 lets per year, many households have no realistic prospect of being housed. In these cases, it is more customer focused to provide advice about alternative housing and ensure people have a realistic understanding of their options. In addition, for those in higher bands and likely to be housed, 'choice' is limited due to the limited supply of housing:

- Most of the social housing is in Barry, outside of Barry the supply is limited.
- Demand for 1-bedroom properties significantly outweighs the number of properties available.
- Older persons housing stock is primarily flats in sheltered housing complexes. Very few bungalows are advertised for general lets.

The Homes4U scheme and allocations policy will be reviewed during 2021-2022 to ensure that it continues to be fit for purpose and fits within the wider housing solutions service.

Aspire2Own

Aspire2Own is a shared equity scheme run in partnership with registered social landlords, to help people who are financially stable but unable to buy a home without assistance at open market prices, usually first-time buyers. The scheme gives buyers an opportunity to purchase a property for a percentage of the open market value, and the housing association retains an equity share. The equity share does not attract interest and no rent is payable, thus making the property more affordable. Buyers can also staircase up to full ownership at any time.

Vale Assisted Tenancy Scheme

The Vale Assisted Tenancy Scheme (VATS) provides greater housing options for households at risk of homelessness or those who are financially unable to access private rented accommodation without financial assistance. Essentially it is a private rented sector access scheme, in which a dedicated team within the Council's Housing Solutions Service work with tenants and landlords to secure properties for households in need.

Financial support is provided, in the form of bonds and rent in advance. Landlords can receive direct payment of Housing Benefit if their property is let by the Council,

as well as ongoing advice and support for both the landlord and tenants for the life of the tenancy. The scheme continues to develop and grow, most recently with the commissioning of a dedicated support service for people accommodated through the VATS scheme and the introduction of a quarterly landlord forum, attended by the VATS Team and the Private Rented Support Team. This is open to all private rented sector landlords, whether they are working with the VATS scheme or not.

ACTIONS

- Support hospital discharges for those with complex needs
- Develop specialist housing e.g. homelessness hostels for street homeless, female only accommodation, hostels for women escaping DV, ex-offenders, people with LD/Physical disabilities, accessible supported housing
- Ensure better integration of housing, health and social care services
- Assist people downsizing to release larger properties

3.4 Provide support to enable people to develop and maintain their capacity to live independently.

The Housing Support Grant (HSG) is an amalgamation of three existing grants; the Supporting People Programme Grant, the Homelessness Prevention Grant and Rent Smart Wales Enforcement Grant. The HSG is an early intervention grant programme to support activity, which prevents people from becoming homeless, stabilises their housing situation, or helps potentially homeless people to find and keep accommodation. The HSG Programme is overseen by the Regional Housing Support Collaborative Group (RHSCG) and links closely with the Regional Partnership Board (RPB) through this mechanism, strengthening the links between Housing and Health to ensure the best possible outcomes for vulnerable residents.

Alongside the development of the HSG, Welsh Government established a Children and Communities Grant (CCG), encompassing Flying Start, Families First, the Legacy Fund, Promoting Positive Engagement for Young People, St David's Day Fund, Communities for Work Plus and Childcare and Play. Welsh Government has set clear expectations that the CCG and the HSG should work in a seamless fashion, providing integrated services where appropriate.

ACTIONS

- Develop an Older Persons Housing Strategy
- Meet the housing and support needs of an aging population
- Work with the Safer Vale Team to deliver services in accordance with the Violence Against Women, Domestic Abuse and Sexual Violence (VAWDASV) Strategy

- Establish a Medical/Accessible Panel, policy & procedure

DRAFT

Aim 4 – Equal access to housing and housing services

To provide equal access to housing and housing services; to recognise and respond to the diversity of housing needs of people in the Vale of Glamorgan.

Equality is about treating people according to their needs to ensure equal opportunity and equality of outcome. This Strategy aims to provide housing and housing services that respond to people's different needs.

The Equality Act 2010 aims to ensure that everyone has the right to be treated fairly at work and when using public services. The public sector equality duty requires public bodies to pay due regard to the need to:

- Eliminate discrimination, harassment and victimisation.
- Advance equality of opportunity.
- Foster good relations.

This forms the basis of the Vale of Glamorgan Council's aim to provide equal access to housing and housing services. This aim will be achieved by working towards the following key objectives:

Equal access to housing and housing services – key actions

4.1 Understand and recognise the needs of residents

To respond to the diverse housing needs of people in the Vale of Glamorgan it is necessary to understand the needs of residents, in particular the people falling within the eight strands of equality and who use the Welsh language. As far as possible, housing and housing related services should monitor the characteristics of people accessing their services to ensure access is equal and that certain groups of people are not disadvantaged or prevented from accessing services.

The Council ensures that organisations who are commissioned to provide services e.g. support providers, advice agencies and contractors also promote equal access to their services. Requirements are detailed in legal contracts and compliance is monitored.

Registered social landlords also have duties to promote and comply with equality duties and are monitored as part of the Welsh Government's Regulatory Framework for RSLs.

Equality monitoring should be a key tool used by providers of housing and housing related services to improve the service they provide. Any gaps in knowledge or understanding of the needs of people from minority groups should then be addressed.

Services are at their best when they are informed, or at best led, by those who use them. Services should reflect the needs of users; being aware of, and proactive about the diversity of customers to ensure that housing organisations are able to provide the right services to meet the identified needs.

Providers of housing and housing related services should actively promote the involvement of service users and potential service users, in particular with groups of people who may not traditionally engage with consultation and may be considered to be hard to reach.

ACTIONS

- Consider accessible homes for younger people, who do not meet the age requirements for traditional step down and care/supported housing options
- Promote the use of Welsh language when appropriate
- Analyse current equality data collected and fill gaps in collection
- Use the data collected to inform service improvement
- Ensure service delivery complies with the set standards

4.2 Eliminating discrimination, harassment and victimisation

Housing organisations play a key role in eliminating discrimination, harassment and victimisation. Working within communities, housing providers can promote a positive approach to diversity, promote understanding and good relations between people who have different backgrounds and experiences. In turn this contributes to enhancing and improving the quality of life in local areas.

ACTIONS

- Review Policies and Procedures in line with current equalities legislation.

4.3 Respond to the diverse needs of people in the Vale of Glamorgan

All residents in the Vale of Glamorgan should have equal access to housing and housing services. In promoting this aim, it is acknowledged that some groups of people within the population require particular attention. The Council will actively seek to plan and meet the need for housing and housing related services for:

- The Black and Minority Ethnic Populations
- People who use the Welsh language
- Gypsy and Travellers

- Refugees and Asylum Seekers
- Migrant Workers
- Households with disabilities
- LGBT service users

Regarding Gypsies and Travellers, the Housing (Wales) Act 2014 requires local authorities to undertake Gypsy and Traveller Accommodation Assessments and includes a duty on local authorities to provide sites for Gypsies and Travellers where a need has been identified in those Assessments. Where the need for sites has been identified, but not met, there is a power which enables Welsh Ministers to compel local authorities to provide sites for Gypsy and Traveller communities. Sites will need planning permission in the same way as any other development.

The most recent GTAA for the Vale of Glamorgan Council was undertaken in 2016 which estimated additional pitch provision needed for Gypsies and Travellers in the Vale of Glamorgan for the 5 years of the GTAA and for the next 5 years of the Development Plan period is for 2 additional pitches, and for the remainder of the Development Plan period to 2026 is for a further 18 additional pitches. This gives a total need for the whole Development Plan period of 20 additional pitches. These figures should be seen as the projected amount of provision which is necessary to meet the statutory obligations towards identifiable needs of the population arising in the area. Regarding transit sites the GTAA recommended that there is not a need for the Council to provide a transit site in the Vale of Glamorgan. However, recent discussions within the South East Wales Region have highlighted that the transit need should be addressed on a regional basis, with the relevant Local Authorities collaborating to identify a regional site.

The Council's next GTAA is required to be produced by 2021 in line with the requirements of 'Undertaking Gypsy and Traveller Accommodation Assessments (May 2015).

A Strategic Housing Board was established in 2019 which is responsible for working to meet the needs of gypsies and travellers in the Vale. This supersedes the Gypsy and Traveller Accommodation Board established in 2016. It was decided in May 2019, by the Strategic Housing Board that a new site selection process would be undertaken. A 'call' for gypsy and traveller sites was undertaken between 17th February and 30th March 2020, however no sites were submitted. Work is ongoing to identify a site to address the long term need for gypsy and traveller accommodation in the Vale of Glamorgan.

ACTIONS

- Identify a suitable site for gypsies and travellers in the Vale to meet the accommodation needs identified in the Gypsy & Traveller Accommodation Assessment 2016 (GTAA)

DRAFT

5. CONSULTATION AND FEEDBACK

The Local Housing Strategy has been developed in partnership with a wide range of public, private and third sector partners.

- A consultation event was held on 14th February 2020 where evidence was gathered.
- Consultation has taken place with the many housing and landlord forums as well as the cell meetings set up during the Covid Pandemic.

Local Housing Strategy Consultation Event

A consultation event was organised for partners to inform the development of the Local Housing Strategy. The event saw presentations and workshops, with feedback collated on four areas at the forefront of housing these were delivering more:

- Low Carbon Housing
- Affordable Housing
- Sustainable Communities
- Specialist Housing

A wide range of partners attended the event and a full list is available in the Appendices, with detailed feedback available on request.

Ongoing Consultation

Following the event on which the Local Housing Strategy was developed, ongoing consultation has taken place throughout 2020 because of the Covid 19 Global Pandemic. The Pandemic changed the way everyone lives their lives on a day to day basis and has affected the way people live and work, with priority now being given to public health matters and with new legislation implemented to ensure safety. This has led to new ways of working and new and improved priorities as well as additional funding sources to deal with Homelessness and Housing Support Services.

6. IMPLEMENTATION, MONITORING and REVIEW

Implementation

The implementation and delivery of the aims and objectives within this strategy rely strongly on the strong working relationships with partners and stakeholders that already exist. The strategy will build on these partnerships and existing links, ensuring all partners understand the aims of the strategy and the part they play in achieving the strategic objectives.

The aims and objectives in this strategy will form the basis of a five year action plan, to be developed with partners. The action plan will provide details of the key activities to be carried out and identify clear outcomes, along with the lead responsible officers and/or organisations. Implementation will be closely monitored by the Council's Overarching Housing Forum and reviewed and updated as necessary. The Council cannot deliver the strategy in isolation and partnership working will be essential to ensure that the best outcomes and solutions can be achieved.

Monitoring and Review

In its role as strategic housing enabler, the Council will monitor, review and report on the progress made against the action plan. The following arrangements and an up to date copy of the action plan will be provided and reported on annually to the relevant Scrutiny Committee.
