Strategic Insight Board (SIB) Insight Tracker: Progress against External Regulatory Recommendations and Proposals for Improvement

- The report also outlines our progress at January 2023 (Q3) against all our existing external regulatory recommendations and proposals for improvement.
- In line with corporate performance management arrangements, consideration is given by relevant Council services to the findings contained within both local and national reports as they are published, and actions have been incorporated within the Council's SIB Insight Tracker throughout the year as appropriate. These actions are monitored by the Strategic Insight Board and reported to Scrutiny Committees, Cabinet and the Governance and Audit Committee as work to address them progresses. Progress is also monitored by Audit Wales colleagues throughout the year as part of the Annual Regulatory Plan.

- At Q3, positive progress has been made in responding to our regulatory improvement areas. Overall, there are currently 46 on-going actions in the SIB Insight Tracker. 35 have been attributed a Green performance (RAG) status, 4 an Amber status and 7, a Red status.
- Of the 24 actions relating to local regulatory recommendations, 17 have been attributed a Green RAG status, 4 actions an Amber status and the remaining 3 actions have been attributed a Red status. Actions attributed a Red status relate to the review of Third Sector Partnership Working.
- There are currently 22 actions in the Insight Tracker relating to national regulatory recommendations of which 18 have been attributed a Green RAG status and the remaining 4 actions, Red status. Upon review and consideration of Scrutiny Committees and Governance and Audit Committee's views/recommendations, Cabinet is being asked to approve the removal of completed actions from the SIB Insight Tracker.

Recommendations

1. That Cabinet considers the performance results and progress towards achieving the Annual Delivery Plan 2022/23 commitments as aligned to our Corporate Plan Well-being Objectives.
2. That Cabinet considers the views and recommendations of Scrutiny Committees in relation to Q3 performance and approve identified remedial actions as the basis to address areas of underperformance and to tackle the key challenges identified.
3. That Cabinet reviews the Council's progress to date in addressing existing recommendations and improvement proposals made by our external regulators.
4. That Cabinet approves the removal of completed actions from the Strategic Insight Board Insight Tracker informed by the views and recommendations of Scrutiny Committees and the Governance and Audit Committee.

Reasons for Recommendations

1. To ensure the Council clearly demonstrates the progress being made towards achieving its commitments in the Annual Delivery Plan 2022/23 aimed at making a positive difference to the lives of Vale of Glamorgan citizens.
2. To ensure the Council is effectively assessing its performance in line with the requirement to meet our performance requirements as outlined in the Local Government and Elections (Wales) Act 2021 and reflecting the requirement of the Well-being of Future Generations (Wales) Act 2015 that it maximises its contribution to achieving the well-being goals for Wales.
3. To ensure the Council implements its regulatory recommendations and improvement proposals and responds appropriately to the recommendations and proposals for improvement identified through the Audit Wales' programme of local and national Local Government Studies.
4. To ensure that the Council's Strategic Insight Board Insight Tracker reflects the most up to date position on our regulatory recommendations.

1. Background

Quarter 3 ADP Performance Monitoring

- 1.1 The Council's Performance Management Framework is the mechanism through which our key priorities and targets are monitored and realised in order to secure continuous improvement and meet our performance requirements.
- 1.2 As part of the review of its Performance Management Framework, the Council has adopted a Corporate Plan (2020-25) which reflects the requirements of the Well-being of Future Generations (Wales) Act 2015 and identifies 4 Well-being Objectives for the Council. We have also refined our performance reporting and monitoring approach to enable us to meet our new duties under the Local Government and Elections (Wales) Act which came into effect from 1st April, 2021.

- 1.3** Our performance framework is aligned to our Corporate Plan to enable us to track our progress on well-being objectives (keep our performance under review) and demonstrate how the steps we intend to take will contribute to achieving multiple well-being objectives and in turn the national goals.
- 1.4** In line with these performance arrangements, Cabinet and Scrutiny Members will consider a high-level overview of performance in a presentation report format. The report is aligned to the remit of the Committee and reports progress against all four Well-being Objectives enabling Members to look at the achievement of the Corporate Plan holistically. The report also highlights areas of improvement that may require greater scrutiny by Members and enables Cabinet and Scrutiny Committees to flex their work programme to reflect any emerging performance issues that may require more intensive consideration.
- 1.5** Work will continue to further develop and enhance our performance monitoring and reporting arrangements in line with our duties as outlined in the WCFG (Wales) Act and the LG&E (Wales) Act with reference to the wider local government agenda. These discussions will continue to consider the best way to present information to elected Members to facilitate scrutiny and identify and explore areas of interest.
- 1.6** [Appendix A](#) outlines our performance for the period 1st April to 31st December, 2022 against our Annual Delivery Plan commitments for 2022/23. The quarterly performance report presents the reader with a more accessible view of performance in relation to our annual commitments and demonstrates the progress we are making towards achieving our Corporate Plan Well-being Objectives.
- 1.7** The presentation structure provides Members with:
- An overall performance summary of the Annual Delivery Plan 2022/23.
 - An overview of achievements specific to each scrutiny committee's remit across all 4 Well-being Objectives.
 - A performance snapshot specific to each scrutiny committee's remit, including the overall status of actions and performance measures. Hyperlinks to detailed performance commentary for all actions and measures including performance exceptions are embedded within the presentation. These are the areas we need to improve in relation to our Annual Delivery Plan activities as aligned to the Corporate Plan Well-being Objective.
 - An overview of areas for improvement specific to each scrutiny committee's remit across all 4 well-being objectives.
- 1.8** The presentation report uses the traffic light system, that is, a Red, Amber or Green (RAG) status and a Direction of Travel (DOT) to aid performance analysis. Progress is reported for all key performance indicators and actions by allocating a RAG performance status.

- 1.9** For ease of scrutiny, performance exceptions (that is, all actions or PIs within the remit of the Committee that have been attributed a Red status) are presented at [Appendix B](#) including a direction of travel and commentary on the performance. The Performance exceptions highlight the current status of red performing actions identified in the previous quarter to show direction of travel, that is whether proposed remedial actions have been undertaken to progress these actions.
- 1.10** Detailed performance commentary for all actions and measures is provided at [Appendix C](#) which provides contextual information for Members' information should they wish to examine this level of detail.

Strategic Insight Board (SIB) Insight Tracker: Progress against External Regulatory Recommendations and Proposals for Improvement

- 1.11** As part of the on-going audit work by the Council's regulators, a series of recommendations and proposals for improvement are made as a result of audit studies (locally and nationally). The Council is required to ensure that these improvement areas are appropriately progressed, and the results reported.
- 1.12** The SIB Insight Tracker (appended to this report as Appendix D) contains the most up to date record of all our regulatory recommendations and improvement proposals and outlines progress to date against these. This is updated all year round to reflect the audit work programme work, including all local and national Local Government Studies to ensure actions are completed, reported and closed down in a timely manner.
- 1.13** This approach ensures progress remains under review enabling us to provide our regulators with an up to date position on all our regulatory recommendations and improvement proposals in line with our statutory duties.
- 1.14** The Governance and Audit Committee has a key role in maintaining oversight of the Council's response to issues raised by our external regulators and receive progress updates against all regulatory recommendations and improvement proposals via a half-year update report which is then supplemented with an annual review of progress in the Council's Annual Self-Assessment Report.

2. Key Issues for Consideration

Quarter 3 ADP Performance Monitoring

- 2.1** We have assessed progress in relation to our planned activities as outlined in our Annual Delivery Plan for 2022/23 using local performance and trend data where possible.
- 2.2** There is currently limited national benchmarking data available due the removal of our national data obligations by the Welsh Local Government Association (WLGA) and Welsh Government (WG). We are currently working with Data Cymru and Welsh local authority colleagues to develop a national self-assessment dataset, which will enable us to benchmark service performance across a range of service areas. Until a dataset is agreed, we will continue to use our local performance data to support performance reporting where possible.

- 2.3 All 4 Corporate Plan Well-being Objectives were attributed a Green performance status at Q3 to reflect the good progress made to date in meeting our Annual Delivery Plan commitments for 2022/23.
- 2.4 93% (353/380) of planned activities outlined in our Annual Delivery Plan have been attributed a Green performance reflecting the positive progress made during the quarter, 2% (7) of planned activities were attributed an Amber status and 5% (20) of planned activities were attributed a Red status.
- 2.5 Of the 128 performance measures aligned to our Corporate Plan Well-being Objectives, data was reported for 27 measures where a performance status was applicable. 59% (16) measures were attributed a Green performance Status, 11% (3), Amber status and 30% (8), Red status. A performance status was not applicable for 101 measures with 22 of these relating to measures establishing baseline performance for 2022/23, a further 67 relating to measures which are monitored annually and for 12 measures no update was provided.
- 2.6 An overview of overall progress made this quarter towards achieving our Annual Delivery Plan commitments is appended to this report as Appendix E.
- 2.7 [Appendix B](#) provides a summary of the key achievements and challenges as aligned to the remit of the Scrutiny Committees.
- 2.8 For ease of scrutiny, performance exceptions, that is, all actions or PIs that have been attributed a Red status are presented at [Appendix C](#) including a direction of travel and commentary on the performance. The performance exceptions have been recently revised to reflect the changes requested by elected Members following a workshop in July 2022 on performance monitoring of the Annual Delivery Plan. The Performance exceptions now highlight the current status of red performing actions identified in the previous quarter to show direction of travel, that is whether proposed remedial actions have been undertaken to progress these actions.

3. How do proposals evidence the Five Ways of Working and contribute to our Well-being Objectives?

- 3.1** Performance Management is an intrinsic part of corporate governance and integrated business planning which underpins the delivery of the Council's Corporate Plan and its Well-being Objectives and associated annual commitments in its Annual Delivery Plan 2022/23. The Council's Annual Performance Calendar is our key means of demonstrating how we are meeting the new performance requirements whilst contributing to the national well-being goals.
- 3.2** The five ways of working are a key consideration in our corporate Performance Management Framework ensuring that we continue to focus on working differently and in an inclusive way to challenge why, what and how we respond to our key performance challenges.
- 3.3** External Regulation is an important vehicle for driving continuous improvement across our services. Progressing the improvement areas identified by our regulators not only enables us to demonstrate our commitment to continuous service improvement, but also contributes to further strengthening our impact on the national well-being goals through the achievement of our well-being objectives.
- 3.4** The areas of improvement identified by our external regulators and the associated action plans produced by officers have been developed with the five ways of working in mind. The focus of these is on developing innovative ways of working that better integrate services, whilst enabling us to work more collaboratively with our partners and citizens to involve them in improving service delivery. These improvement actions also focus on preventative actions that will enable us to sustain and future proof our services into the longer term.
- 3.5** All external regulatory recommendations are reflected in the Council's SIB Insight tracker and progress monitored regularly to ensure they are addressed.

4. Climate Change and Nature implications

- 4.1** There are no direct climate change and nature related implications associated with this report. The Corporate Plan and Annual Delivery Plan incorporate our key commitments which aim to have a positive impact on climate change and nature overall. However, failure to deliver on these commitments could impact negatively on achievement of our Well-being Objectives and in turn our contribution to the national goals and on any external regulatory assessments of the Council.
- 4.2** The climate change and nature implications related to the Council's activities are outlined in Project Zero (our Climate Change/carbon reduction and nature programme) and identifies the mitigating actions we intend to take to minimise the adverse consequences of our activities. It also includes key measures and targets that are monitored and regularly reported to all stakeholders to enable us to demonstrate and track progress towards achieving our key climate change and nature related commitments enroute to achieving net zero carbon status by 2030.
- 4.3** Failure to progress the relevant improvement areas outlined in the report could have a negative impact on any future external regulatory assessments and could result in a special inspection by the Auditor General for Wales if deemed that the Council is not meeting the performance requirements as a result.

5. Resources and Legal Considerations

Financial

- 5.1** There are no additional budgetary implications arising from this report, although underperformance and failure to progress the improvement areas outlined in the report could have a negative impact on any future external regulatory assessments of the Council which could in turn put funding opportunities at risk.
- 5.2** Our Corporate Plan and associated enabling strategies all have regard to the effects of climate change and nature implications and inform decisions around resource use that help to mitigate climate change and nature implications in the use of those resources.

Employment

- 5.3** There are no direct workforce related implications associated with this report. However, there are a number of issues contained within the performance report that if not effectively managed have the potential to impact on our staff establishment and performance overall. This may in turn impact adversely on progressing our improvement areas and achievement of our well-being Objectives.

Legal (Including Equalities)

- 5.4** The Well-being of Future Generations (Wales) Act 2015 (WCFG) and the Local Government and Elections (Wales) Act 2021 (LG&E) require the Council to

publish annual Well-being Objectives, keep performance under review and consult and report on our performance through an annual self-assessment relating to the previous financial year.

- 5.5** The Auditor General for Wales is statutorily required under the WBFG, to examine public bodies to assess the extent to which they have acted in accordance with the sustainable development principle when setting their well-being objectives and taking steps to meet them.
- 5.6** Under the LG&E, a special inspection of the Council may be undertaken if the Auditor General for Wales considers that the Council is not, or may not be meeting, the performance requirements. This inspection is to assess the extent to which the Council is meeting the performance requirements, in exercising its functions effectively; using its resources economically, efficiently and effectively; and in ensuring its governance is effective for securing the above.

CPM/001: Average daily reach of Vale of Glamorgan Life Facebook page	7,190	2,507	8,000	↓	In order to ensure higher engagement levels the Council is publishing fewer posts to Facebook. This has had the impact of increasing reach of individual posts but as a consequence also reducing the average daily reach.
CPM/002: Average daily impressions achieved by @VOGCouncil Twitter account	9,600	4,000	10,000	↓	The Council is publishing fewer Tweets as part of a strategy to more tightly curate its social media feeds. Average tweet impressions remain consistently strong but average daily impressions are reducing as a natural consequence.
CPM/029: (PAM/001) The number of working days/shifts per fulltime equivalent (FTE) local authority employee lost due to sickness absence.	8.33	9.40	6.68	↓	Q3 Sickness absence stands at 9.407 days lost per FTE which is higher than the Q3 target of 6.68 days per FTE. The total days/shifts lost per FTE for the period April 2022 to December 2022 indicate an increase in absence levels compared to same period in 2021. In addition, this is higher than performance in 2020. Discussions are ongoing with SLT to look into the reasons for the higher absence levels.
CPM/016: Percentage of Corporate complaints dealt with within target timescales.	61%	55%	75%	↓	In August 2022 complaints processing moved from Oracle CRM to Granicus GovService. Although the new platform offers improved functionality for both complainants and staff, there has been a significant drop in performance in this area as staff members have adjusted to administering complaints on the new platform. Performance is expected to recover in Q4.

CPM/092: Average number of working days to let an empty property (standard condition). (Housemark)	20 days	22 days	20 days	↓	<p>Performance has improved in Q3 but the lower number of voids around Christmas has meant that overall performance remains behind target. A higher than anticipated turnover at the start of the year put pressure on resources and the extent of works required in voids has also resulted in longer times with maintenance (from 13.5 days in the same period in 21/22 to 14.5 days in 22/23). There has also been a deterioration in time with Housing after works complete (from 5.5 days in 21/22 to 7 days in 22/23). This performance has been affected by a larger proportion of lettings of sheltered homes and properties with over 55 age designations, as well as a small number of smaller, first floor sheltered homes which were refused by a number of applicants. It tends to take longer to arrange viewings and signs ups for older persons.</p> <p>This year there has been a significant increase in the number of poor-quality properties returned from the tenant, resulting in far more significant works required. In the year to date, over 20 properties have been returned that require works costing more than £3,000 which obviously impacts on the length of time to complete to complete.</p> <p>In an attempt to return properties to housing as soon as possible after completion the voids team may return a property on a Tuesday or Wednesday (rather than a Friday), and this has contributed to the 'time with housing' increase.</p> <p>There is scope to sustain Q3 improvements and achieve the end of year target. Early advertising of properties and focussed monitoring of individual properties, post repair works, will help reduce 'time with Housing'. In addition, some lets will need to be reclassified as 'major works' voids, in line with the Housemark definition, when more extensive works and works of adaptation are carried out.</p> <p>In terms of the repairs stage, keys are collected quickly however void repair turnaround remains dependant on extent of works required and availability of sub-contractors to deal with busier periods.</p>

PAM/012: Percentage of households successfully prevented from becoming homeless.	42.59%	46.7%	70%	↑	Prevention success percentage is improving despite the pressures on the services and increase in number of households presenting as being at risk of homelessness. The challenges with accessing the private rented sector remain the same although it continues to be considered.

Most teams will agree working patters where everyone is in the office on one day which works well for the management team as meetings and other meetings can be arranged around this. AS/A019: Consider wider employee wellbeing offering and wider staff engagement. Identify themes and consider implementation of findings.	31/03/2023	75%	The actions are progressing through the OM's working with Comms and Lifecycle colleagues regarding recruitment strategies. We have tried to recruit again to the LTCS vacancies but without success, so Qtr 4 will now actively pursue the o/sea recruitment options as well as converting positions to SCO where appropriate to do so. Our limiting factor in Qtr 3 has been the absence of social workers well established in the team who have had long term absence, as felt that it is required that we have resilient and stable social workers to support the learning and supervision of our unqualified positions. In addition, our issues have been further compounded because several SCO successfully completed their social work training following sponsorship by the Vale - this is to be celebrated, and we have advertised those SCO posts and been able to fill those vacancies, now meaning we can concentrate further on skill mix in LTCS. Our other teams have been successful in filling vacancies with only a small number of vacancies in other teams continuing to exist. The LD CST have been developing a peer forum to support people with practice, wellbeing and continuing development - this was initially for the LD team whilst they were building their team following high numbers of vacant posts, this has now expanded to other teams to be invited to join. This work is being progressed as part of the response to the Audit Wales work on the Council's relationship with the Third Sector. Notable examples include work with GVS and Age Connects on social isolation and loneliness, with GVS and a range of community groups on food insecurity and the emerging work with the community sector around climate change and Project Zero. In Q3 the Llantwit Major More than Food project launched, the second round of funding for community organisations will also be launched to tackle loneliness and social isolation and calls for grant funding applications to support warm spaces and tackle food poverty were processed, with A Warm Welcome launched on the Council's website to provide advice, support and information to residents, including by signposting to third sector organisations.	Green	Mar-22	Jan 2023	CP&R

Green	Apr-19	Jan 2023	H&SC

LR24/LR25	Review of Outsourced Leisure Services	David Knevett	PFI 2 The Council should strengthen its arrangements to gain assurance that the contract is providing value for money. This could be by ensuring better involvement of committee members in selecting agenda items and proper and proactive engagement with local people; and - exploring the availability of comparative and benchmarking data to further support its assessment of value of money.	Works on the refurbishment of the Leisure Centre gyms is presently being completed as part of the contract extension arrangements. NR5	Local Government Services to Rural Communities	Tom Bowring	R2 - The role of Public Service Boards is evolving but there are opportunities to articulate a clearer and more ambitious shared vision for rural Wales. We recommend that PSB public services partners respond more effectively to the challenges faced by rural communities by: - assessing the strengths and weaknesses of their different rural communities using the Welsh Governments Rural Proofing Tool and identify and agree the local and strategic actions needed to support community sustainability; and - ensuring the Local Well-Being Plan sets out a more optimistic and ambitious vision for 'place' with joint Page 24 of 36 - Vale of Glamorgan Council Date of report Title of review Recommendation priorities co-produced by partners and with citizens to address agreed challenges. NR7	Local Government Services to Rural Communities	Tom Bowring	<p>R4- To help sustain rural communities, public services need to act differently in the future. In addition, we recommend that local authorities monitor and publish CAT numbers and measure the social impact of CATs.</p>	<p>The revised Corporate Asset Management Plan has been developed during the quarter and will be reported in Q4 to Cabinet.
