

The Vale of Glamorgan Council

Audit Committee 19th November 2018

Report of the Managing Director

Corporate Risk Register Quarter 2 Update

Purpose of the Report

1. To update Audit Committee on the quarter 2 position (April 2018- September 2018) of risks contained within the Corporate Risk Register, as outlined in the Corporate Risk Summary Report.
2. To provide an overview of the emerging risk themes and issues as outlined in the Risk Register.

Recommendations

1. That Audit Committee note the quarter 2 position of corporate risks for the period April 2018-September 2018, the emerging risk themes and endorses the associated recommendations made by the Corporate Management Team, as contained in this report.
2. That Audit Committee refers this report to Cabinet for their consideration and endorsement including proposals to remove the risk associated with Welsh Housing Quality Standards (WHQS) as outlined in this report.

Reasons for the Recommendations

1. To identify the quarter 2 position of corporate risks across the Council and highlight any emerging risk themes and issues.
2. To ensure Cabinet receives a quarter 2 position on the Corporate Risk Register and endorses the recommendations contained within this report.

Background

3. During June 2017 the Insight Board reviewed our approach to Risk Management through developing a new approach to Risk Management.
4. As a result of this review, a new risk methodology has been adopted alongside a revised Risk Register template. The new Corporate Risk Register and its associated Reporting tool was endorsed by Audit Committee on 31st January 2018.

5. As a result of reviewing our Corporate Risk Management approach we also undertook a full refresh of the associated Risk Management Strategy. The Risk Management Strategy was developed in consultation with the Insight Board and Corporate Management Team and was endorsed by Audit Committee 1st May 2018.

Relevant Issues and Options

Corporate Risk Summary

6. There are currently 15 Corporate Risks on the Register, as outlined within the within Annex A of the Risk Summary Report. Since the last update, no further risks have been removed or added to the Register.
7. Of the 15 Corporate Risks, in terms of risk status, one risk scored high, one risk scored medium/high, 10 risks scored medium and three risks scored medium/low. The overall position of risks on the Register has remained largely unchanged, with the exception of the Housing Improvement Programme risk that has now reduced from a medium to a medium/low status. (See page 2 of Annex A).

Risk Exceptions

Deprivation of Liberty Safeguards (DOLs)

8. The Deprivation of Liberty Safeguards risk remains high status (12). This status reflects that Social Services continue to experience pressures in relation to their resources as a result of increased demand for Best Interest Assessments which continues to escalate this risk. We continue to anticipate that this risk is unlikely to diminish over time, but will maintain its high status for at least the short to medium term. In order to better manage demand, the Council is using the ADSS (Cymru) priority matrix tool to support the prioritisation of assessments; despite this the backlog continues to be significant. In response to recent internal audit findings, a business mapping process and review began during quarter 1 in order to find further appropriate mitigations to this risk. The mapping and review exercise led by the Business Improvement Team will look at current business functions of the team and ways in which processes can be better streamlined to enable a more efficient use of time and resources.

Welsh Community Care Information System (WCCIS)

9. The Welsh Community Care Information System risk has retained its medium/high (8) status from the previous quarter. Although the implementation of the new social care system continues to be progressing, it has not been without its challenges. During quarter 2, the commissioning of consultancy support for the development of its financial functionality was secured. The Legacy System licences have been extended enabling us to maintain a dual system in tandem until all issues relating with WCCIS are fully resolved. Care Works (the provider of WCCIS) is working closely with our IT department to find a resolution to the print issue that has previously been reported. It is anticipated that a Systems Administrator position will add further resilience and will be appointed during quarter 3. It has also been agreed that two further performance posts will be added to the Social Services establishment to enhance our capacity to produce the necessary performance reports. Alongside this Care Works will continue to work alongside the Directorate to develop specific reports for the Council. Despite these mitigations, business continuity and resilience

continue to be an issue and it is likely that this element of the risk will remain into quarter 3 of 2018/19. The fluctuating nature of this risk has necessitated the need for this risk to be defined as medium/high. It is forecast that this risk will continue to remain medium/high in at least the short term.

Safeguarding

10. The Safeguarding risk remains scored as medium/low (3) on the Register. Several robust controls are in place to effectively mitigate against this risk and all actions outlined in the Risk Management Plan for 2018/19 have been attributed a green status for their progress during quarter 2. For example, review work of our Adults at Risk processes is underway that takes into account the new Welsh Government guidance. We have in place a monthly reporting mechanism for information/data relating to child sexual exploitation with cases evaluated based on the critical enquiry framework which is then reported to the Regional Safeguarding Children's Board.
11. The Council continues to promote and embed the safer recruitment policy corporately and within schools. Our compliance during quarter 2 2018/19 was 80% for July, 100% for August and 98% for September. The service continually monitors compliance rates and has an escalation process in place to address any compliance breaches. Compliance continues to feature as a standing agenda item at each Corporate Safeguarding Group meeting, where their remit is to also review the effectiveness of the policy to identify any potential improvements.
12. Although this risk remains relatively low, it will continue to feature on the Risk Register due to the volatile nature of the risk.
13. Safeguarding is everybody's responsibility and is of the utmost importance, therefore our approach to safeguarding needs to be regularly reviewed and updated to ensure it is effectively being managed.

Contract Management

14. The Contract Management risk, remains medium/low (3) on the Register. The existing controls continue to be particularly effective and good progress has been made in delivering the actions outlined in the Risk Management Plan during the quarter. There are now only two actions remaining on the Risk Management Plan. The development of a central contracts register continues to progress well. A brief for the Register has now been agreed to progress the work. The Contracts Register will give us a corporate overview of all contracts.
15. The potential failure of externally commissioned providers in the delivery of services (particularly Adult Services) has been identified as an emerging issue in the previous quarterly update (quarter 4 report). Although this aspect of risk will always exist, it is currently being controlled through the 'Escalating Concerns' policy. In terms of further reinforcing and embedding this policy, quality assurances meetings are underway with the view of developing a more regional foot print.

Housing Improvement Programme (Wales Housing Quality Standards)

16. The Housing Improvement Programme risk has decreased from a medium to medium/low position on the Register during quarter 2 to reflect that we have formally completed the Welsh Housing Quality Standards (WHQS). The residual risk

remaining relates to the maintenance of the WHQS which presents a much lower risk to the authority. The Welsh Government has indicated that now that the authority has achieved the WHQS standards we will now not fail the Standard. Therefore, our focus will now be on maintaining these standards. We are working towards developing and delivering the life cycle renewals/ replacement programme which will ensure that all WHQS stock compliance is maintained during 2018/19. During quarter 2, target areas for the stock surveys were agreed and surveys to support programme delivery are currently being undertaken prior to the production of tender documentation for the year one delivery programme.

17. As the maintenance of the WHQS has been fully built into the Housing Revenue Account Business Plan, no factors have been identified to indicate that we will not be in a position to undertake the planned maintenance requirements in line with the Standards. Therefore, it is forecast that this risk will continue to reduce over time and warrants consideration as to whether it remains on the Risk Register. Any mitigating actions for service would continue to be addressed and monitored via Service Plan delivery.
18. **Annex A** contains the full Risk Register along with a Risk Summary Report outlining the position of all Corporate Risks.

Risk Heat Map Summary

19. The Corporate Risk Summary report (See pages 3 and 4 Annex A) has heat maps that plot on a matrix the residual risk scores for each corporate risk.
20. The heat map for quarter 2 shows that the majority of risks are concentrated at medium. Equally, the thematic heat map shows that the majority of corporate risks congregate around medium across all risk categories.
21. In relation to risks with an amber status (medium/high) there is a greater concentration of these in relation to reputation and service delivery & well-being based risks.
22. Deprivation of Liberty Safeguards continues to sit in the high category of the quadrant (with a residual score of 12) across three of the four risk categories with the exception of reputation where it scored medium/high (9).
23. There were no green status risks (medium/low or low) risks associated with the reputational risk category.

Risk Management Plan Summary

24. The majority of the actions in the Risk Management Plans are associated with Corporate Plan priorities and/or Service Plan delivery in order to further mitigate the effects of the corporate risks.
25. During quarter 2, good progress continues to be made in relation to the Risk Management Plans across all aspects of the Register. In total there are 136 mitigating actions currently being monitored via the Register most of which are linked to a corporate risk. During quarter 2 we have been able to assign a RAG status to 127 of these mitigating actions. (See page 5 Annex A).
26. During quarter 2, a total of five actions (4%) were completed and as a result will now be removed from the Risk Management Plan in the next quarterly update and

incorporated where appropriate as controls within the relevant section of the register. These completed actions were as follows:

- **CR3: School Reorganisation**

SL/A017: Implementation of the proposal to transform secondary education in Barry by creating two new mixed sex schools. This work has been completed and both schools successfully opened on 1st September 2018. (See page 63 of Annex A)

- **CR4: Housing Improvement Programme**

HS/A031: Implement a customer portal to enable tenants to access information on housing services. The customer portal has been implemented and is being used by tenants to enhance our digital service delivery. (See page 73 of Annex A)

- **CR10: Public Building Compliance**

Produce an inventory of Social Services premises including those used by commissioned Third Party providers. The inventory for Social Services has now been completed giving a full picture of the Directorate's compliance position. (See page 168 of Annex A)

27. In relation to the remaining risk actions in the Risk Management Plans, 88% (112) actions are on track and have been attributed a green status. Just one action (1%) was assigned an amber status to reflect there has been some minor slippage indicating work has commenced but progress has been hindered or delayed. This was in relation to CR8: Environmental Sustainability and the delivery of the Llanmaes Flood Alleviation Scheme (NS/A031 see page 146 Annex A). Although the construction of the attenuation pond as part of the Northern Access Road continues to progress well, a Cabinet report seeking appropriate delegations with regard to progressing the design and entering into land agreements for the next phase will not be progressed until quarter 3.
28. 7% (9) of actions were assigned a red status to indicate significant slippage in progress against actions. These red statuses were in relation to the following Risk areas:

- **CR3: School Reorganisation**

SL/A020: Complete the disposal of assets at Eagleswell school site. This work has slipped as negotiations remain ongoing. (See page 63 of Annex A)

- **CR4: Housing Improvement Programme**

HS/A057: Complete the Buttrills Environmental Improvement Project. Progress in relation to phase 2 of the project delivery has been very slow and has been impacted by site management issues associated with the principle contractor. (See page 78 of Annex A)

HS/AM034: Review the Council's Housing Stock and develop plans for remodelling certain stock types in specific areas. Some work has progressed in identifying works to remodel Buttrills Walk and North Walk, but with slippage reported. (See page 81 Annex A).

HS/F041: Rebuild Hawksley Bungalows. Slippage has been reported. Tender process has now been completed. It is anticipated work will be brought back on track and will be completed by year end (quarter 4) (See page 81 of Annex A).

- **CR7: Information Security**

FIT/IT012: Continue working towards Payment Card Industry Compliance (PCI). This work has stalled because the Paris cash receipting system previously operated by Northgate has been sold to Civica. Discussions remain ongoing to source a compliant system. (See page 125 of Annex A).

- **CR8: Environmental Sustainability**

NS/A014: Identify funding to improve the National Cycling Network route 88. We continue to receive S106 contributions to enhance cycling provision, but staff capacity pressures have meant the service has not been able to progress developments. (See page 138 of Annex A).

NS/A001: Further the feasibility study to get buses across the Barrage and further consideration of the Cosmeston Park and Ride. Progress has slipped due to staff capacity. (See page 139 of Annex A)

NS/A003: Progress additional modelling to assist with feasibility study for bus, cycling and walking improvements at Cardiff and Barry Roads. Project has been delayed by a resource issue. Work is likely to move forward during quarter 3 to finalise the business case. (See page 141 of Annex A).

NS/A009: Seek opportunities to recruit volunteers for transportation initiatives. A lack of staff in the Passenger Transport Team has impacted on progress. (See page 142 of Annex A).

Across each of the Risk Management Plans, an overview of progress (RAG Status) in relation to the mitigating actions is provided in **Annex A**.

Emerging Issues & Risks

29. The implications associated with meeting our duties under the Additional Learning Needs and Education Tribunal (Wales) Act 2018 were previously raised by CMT as an emerging area of risk. CMT recommended that the implications of this Act, in terms of the risks it presents to the Council be assessed and incorporated as part of the Legislative Change and Local Government Reform Risk.
30. The Register has now been updated to reflect this aspect of risk in relation to legislative reform. The assessment has highlighted a number of implications. For example, our capacity and capability (in terms of knowledge and expertise) to meet the extended requirements of the Act. The Act could have significant training and development implications for both the local authority staff and school-based staff. The financial challenge that the extended requirements under the Act present have also been identified as a risk area at a time when there is a growing need for ALN services. The legislation will require a significant amount of additional provision to be created without sufficient additional financial resources. It is likely that only a finite amount of additional funding will be transferred from Welsh Government to in order for us to fulfil our new requirements. Another key area of concern is that the legislation could result in us not being able to provide a fully bilingual service in relation to Additional Learning Needs creating a lack of parity of provision across the service. Finally, the Act puts greater emphasis on collaborative working particularly in relation to Health Boards. The associated risk will be the inability to effectively engage with partners to meet their commitments as part of the Act.
31. These aspects of risk identified above are not insignificant and could have a potentially detrimental impact on the Council. There are already a number of controls that have been put in place to mitigate against this aspect of the legislative change

risk. For example, in preparation for the implications of the ALN Act, a review of the workforce has been undertaken which evaluated the expertise of staff and has helped to identify new ways of working and a readiness survey has supported us in identifying further areas of development. In addition, a training plan has been developed and is being delivered to both local authority and school-based staff to reflect the new requirements. A three year ALN Implementation Plan for the Central South Consortium Region has been agreed which will be monitored by a transformational lead for the Vale of Glamorgan with regular progress being reported back to the Director of Education.

32. On the basis that the existing controls in place are considered robust, it is deemed that this aspect of the risk does not fundamentally alter the score of the legislative change and local government reform risk. As a result it is recommended that the risk retains its medium risk status (4) on the Risk Register.

Feedback from Insight Board

33. The Insight Board considered the Risk Register update and the associated Risk Summary Report at its meeting on the 18th October 2018. Insight reviewed all the Corporate Risks, the heat maps and their interrelationship between the risk categories.
34. The Insight Board noted that:
 - The actions associated with the Contract Management Risk continue to progress well and felt that the nature of this risk has now moved away from it being focused on our governance arrangements associated with contract management. Instead they are in relation to risk of provider failure and how we best manage performance of these contracts, notably in Adult Services as described above.
 - Insight noted the achievement of the WHQS standard. On the basis of an update from the Head of Housing and Building Services on this risk's position, the Insight Board concurred with risk status being medium/low and felt that it no longer warranted a position on the Register.

Feedback from Corporate Management Team

35. CMT considered the Quarter 2 Risk Register update and the associated Risk Summary Report at its meeting on the 7th November 2018. CMT reviewed all the corporate risks, the heat maps and their interrelationship between the risk categories.
36. CMT recommended that:
 - The WHQS risk be removed from the Risk Register.
 - The contract management risk be retained on the Risk Register and that the emphasis of this risk should now reflect the focus being on the potential for provider failure.
 - The Risk Register should be referred to Audit Committee for consideration and endorsement including the proposal to remove the WHQS risk and referral to Cabinet for the same.

Resource Implications (Financial and Employment)

37. Managing and reducing risks effectively helps prevent unnecessary expenditure for the Council, reduces insurance claims and premiums and provides better protection for the Council and its staff and members.

Sustainability and Climate Change Implications

38. Corporate risks are considered in the context of the Wellbeing of Future Generations Act in terms of the impact they could potentially have on our contribution to the Wellbeing Goals. The five ways of working are also a key consideration in relation to our corporate risks to show how mitigating actions can be put in place as part of the risk management plans within the Risk Register.

Legal Implications (to Include Human Rights Implications)

39. Identifying, managing and reducing risk effectively mitigates against potential legal challenge.

Crime and Disorder Implications

40. None directly.

Equal Opportunities Implications (to include Welsh Language issues)

41. Mitigating actions and controls to counteract any equalities related risks are outlined in each risk template in the Risk Register and monitored by the Insight Board, CMT, Audit Committee and Cabinet.

Corporate/Service Objectives

42. Risk management is an intrinsic part of corporate governance and integrated business planning which underpins the delivery of the Council's Corporate Plan and wellbeing outcomes.

Policy Framework and Budget

43. The proposals are within the Council's Policy Framework.

Consultation (including Ward Member Consultation)

44. Consultation has taken place with nominated risk owners, the Insight Board and Corporate Management Team.

Risk Definitions

Inherent and Residual Risk Scoring

The Inherent Risk defines the risk score in a pre-control environment i.e. what the risk would look like (score) without any controls in place to manage the risk. The Residual Risk can be defined as the subsequent risk score as a consequence of applying controls to mitigate this risk.

Both inherent and residual risks are defined by two variables the Likelihood of the risk occurring and the Possible impact of that risk occurring. The higher the score allocated for the risk the higher the overall risk status.

See matrix below:

Possible Impact or Magnitude of Risk	Catastrophic	4 <i>MEDIUM</i>	8 MEDIUM/HIGH	12 HIGH	16 VERY HIGH
	High	3 <i>MEDIUM/LOW</i>	6 <i>MEDIUM</i>	9 MEDIUM/HIGH	12 HIGH
	Medium	2 LOW	4 <i>MEDIUM</i>	6 <i>MEDIUM</i>	8 MEDIUM/HIGH
	Low	1 VERY LOW	2 LOW	3 <i>MEDIUM/LOW</i>	4 <i>MEDIUM</i>
Low 1-2 Low/Medium 3 Medium 4-6 Medium/High 8-10 High 12-16		Very Unlikely	Possible	Probable	Almost Certain
Likelihood/Probability of Risk Occurring					

Effectiveness of Controls Score

Controls can be scored 0-4 in terms of their effectiveness at controlling risk in terms of likelihood and impact. Zero implies poor control of the risk whereas a four would suggest controls in place are highly effective. This is based on scoring how effective the controls are at reducing a) the likelihood of and b) the impact of the risk. See table below

Score	Effectiveness of control
0	Very Low control of the risk
1	Low control of the risk
2	Medium control of the risk
3	High control of the risk
4	Very high control of the risk

CORPORATE RISK SUMMARY

The table below provides a summary of the Corporate Risks broken down by their risk status in terms of their inherent (pre-control) risk score, the control risk score (how effectively the controls are managing the risk) and the residual risk score (post-control score). The table also gives an outline of each risk's direction travel, in terms of whether the risk is escalating or reducing as well as forecasting its future direction of travel.

Risk Ref	Risk	Inherent Risk Score	Effectiveness of Controls score	Residual Risk Score			Direction of Travel ¹	Forecast Direction of Travel ²
				Likelihood	Impact	Total		
1	Reshaping Services	9 (M/H)	4 (M)	2	2	4 (M)	↔	↔
2	Legislative Change and Local Government Reform	12 (H)	2 (M/L)	2	3	6 (M)	↔	↔
3	School Reorganisation & Investment	12 (H)	4 (M)	2	2	4 (M)	↔	↔
4	Housing Improvement Programme	9 (M/H)	6 (M)	1	3	3 (M/L)	↓	↓
5	Waste	12 (H)	4 (M)	2	2	4 (M)	↔	↑

1

Direction of travel compares residual risk score for the current quarter with the previous quarter to indicate whether the risk is increasing/ decreasing or staying static.

Forecast direction of travel anticipates the future direction of the risk by taking into account factors that are likely to impact on it

↑ Risk increasing, ↓ Risk is decreasing, ↔ Risk remaining static

OVERALL RISK HEAT MAP

The Heat Map below uses a risk matrix quadrant to plot the residual risk scores (based on likelihood and impact) of each Corporate Risk to provide an illustration of the groupings of risks within the heat map.

Risk Reference Glossary			
1	Reshaping Services	9	Welfare Reform
2	Legislative Change and Local Government	10	Public Buildings Compliance

1 – Risk Overview

1.1 Risk Description

Failure to deliver the Reshaping Services Programme

There is a risk that the Council fails to deliver the Reshaping Services Programme and therefore does not utilise alternative methods of service delivery and other approaches to mitigate the impact of budget reductions and demand challenges, thereby resulting in further cuts to services significantly impacting their availability and quality.

There is the risk associated with pursuing the Reshaping Services agenda, namely the new skills and capacity required to manage significant change at a time of diminishing resources and using approaches that are relatively new concepts to the Council and its partners.

There is also the risk of a judicial review particularly in relation to Reshaping Services agenda where new models of service delivery are developed. This could have both financial and reputational consequences if a judicial review finds our actions to be unlawful.

1.2 Risk Owner

Head of Performance & Development (HI)

1.3 Impact on our contribution to the Wellbeing Goals

A Globally Responsible Wales	A Prosperous Wales	A Resilient Wales	A Healthier Wales	A More Equal Wales	A Wales of Cohesive Communities	A Wales of Vibrant Culture and Thriving Welsh Language
No	Yes	Yes	No	No	Yes	No

1.4 Risk Categories

Categories	Yes/No	Definition
Political & Legislative	Yes	Failure to continue to provide priority services. Failure to develop new approaches to service delivery which can be sustained in the long term and which are accessible and meet local needs, with clear and cohesive links made with the Wellbeing of Future Generations Act and the developing Local Government Reform agenda.
Resources	Yes	<p>Projects fail to develop and deliver business cases which meet the Reshaping Services financial savings targets as outlined in the Council's medium term financial plan.</p> <p>Fail to develop and mobilise sufficient skills and capacity to develop and deliver the Programme and manage new ways of working.</p> <p>Failure to maximise the use of our existing assets and technology to</p>

1.4 Risk Categories		
Categories	Yes/No	Definition
		deliver services in a cost effective and efficient way.
Service Delivery and Wellbeing	Yes	<p>Fail to maximise opportunities to improve service delivery and mitigate the impact of budget reductions via alternative methods of service delivery.</p> <p>Failure to safeguard the well-being of individuals and communities and provide services which meet the diverse needs of the local community. Failure to continue to provide priority services and engage with customers in the provision of services.</p> <p>The programme fails to communicate and engage effectively with service users and partners to identify and deliver the alternative ways of working.</p>
Reputation	Yes	Failure to deliver the programme's aim and objectives impact on its reputation with citizens and regulators for the delivery of priority services.

2 – Risk Evaluation			
2.1 Inherent Risk Scoring			
Category	Likelihood	Impact	Total Inherent Risk Score
Political & Legislative	3 (Probable)	3 (High)	9 (Medium/High)
Resources	3 (Probable)	3 (High)	9 (Medium/High)
Service Delivery & Well-being	3 (Probable)	3 (High)	9 (Medium/High)
Reputation	3 (Probable)	3 (High)	9 (Medium/High)
Overall Inherent Risk Score	3 (Probable)	3 (High)	9 (Medium/High)

2.2 Controlling Inherent Risk

Category	Current Controls	Effectiveness of controls		
		Likelihood Score	Impact score	Total Score
Political & Legislative	<ul style="list-style-type: none"> • Challenge process in place to identify projects. • Mixed economy model approach to Reshaping approved. • Tranche 3 projects of corporate nature to lessen impact on front line services. • Risk management processes embedded in project management to identify and mitigate impacts on service users. • Programme documentation makes linkages with Well-being of Future Generations Act. 	2	2	4
Resources	<ul style="list-style-type: none"> • Regular monitoring of savings by Cabinet, Programme Board and Scrutiny Committees. • Programme board and manager in place, with project team resources considered for each project. • Council's Financial Resilience considered good by WAO. • Business cases developed for projects and guidance in place for • Management development programme and competency framework aligned with the requirements of the programme and an organisational development work stream is in place to support the programme. • Tranche 3 projects have been identified, with savings included in the revenue proposals for the budgets of 2018/19 and 2019/20. Work is underway with the relevant project sponsors to put processes for delivery in place for 2018/19. • The Digital Strategy 2017-2020 was considered by Cabinet at the meeting of 31st July 2017. The Digital Strategy sets out the strategic direction for the development of service and outlines new ways of working for our staff and how we work with partners that embraces new digital technologies to improve our service to customers whilst reducing costs. • A project to implement bin collection reminder service has been initiated using existing technology. These services will be implemented in 2018/19. • A broader review to improve online processes from a customer view has been started. This involves hosting of dedicated digital days with services to identify 	3	2	6

													update.	

1 – Risk Overview

1.1 Risk Description

This risk focuses on how we respond to new and emerging legislative requirements, particularly where the nature of the legislation is cross-cutting in terms of the impact it has on a variety of service areas. There is the risk that there is a failure to be able to effectively co-ordinate the implementation of significant legislative change across the breadth of Council services/functions. This applies to key pieces of legislation such as the Well-being of Future Generations Act, the Social Services and Well-being Act and the emerging local government reform agenda.

The Well-being of Future Generations Act came into force in April 2016. The primary aim of the Act is to ensure public bodies improve the economic, social, environmental and cultural well-being of Wales in accordance with the sustainable development principle. Following our experience as an early adopter, we introduced a new Corporate Plan 2016-2020. The new Corporate Plan has been designed around a set of four well-being outcomes and eight well-being objectives which will ensure consistency, across all Directorates, with the seven Well-being goals specified by the Act. The risk can be defined as the failure to meet requirements of the Act and embed the sustainable development principles and therefore fail to contribute towards meeting the Wellbeing Goals (and the associated five ways of working) into all aspects of our service delivery.

The Social Services and Well-being Act also came into force in April 2016; it places an emphasis on:

- **Voice and control**-putting the individual and their needs at the centre of their care and giving them a voice and control to define their outcomes and achieve wellbeing.
- **Prevention and early intervention**-increasing preventative services within communities to reduce the need for more intensive intervention.
- **Wellbeing**-is about supporting people to identify outcomes and supporting them to achieve their own wellbeing.
- **Co-production**-involves encouraging people to become involved in the design and delivery of services with a focus on alternative delivery models and using social enterprises, co-operatives, user-led services and the voluntary sector.

This work is being undertaken at both a local and regional level, driven through the Cardiff and Vale Integrated Health and Social Care Partnership Board. The risk can be defined as the non-compliance with requirements of the Act by failing to improve the wellbeing of people and their carers who need care and support as well as the failure to effectively transform service delivery across social services in line with the Act.

There continues to be a risk in relation to the proposed new Local Government Bill

in terms of reforming Local Government. The emphasis has been on regional working/collaboration. The areas of regional working focus around economic development, strategic land use planning and strategic transport in relation to three larger regions; North Wales, Central and South West Wales and South East Wales with scope for sub-regional working. The key risk associated with this is the effectiveness of regional working arrangements and their ability to deliver localised services that best meet the needs of communities.

Whilst the Welsh Government has indicated that merger arrangements are not to be progressed for all local authorities, there is uncertainty relating to the reform agenda. A working group has been established by WG and are currently working on a number of key themes, including collaboration and shared services. This work is anticipated to be completed by the spring of 2019 and further information will be provided for consultation with councils thereafter.

The Additional Learning needs and Education Tribunal (Wales) Act 2018 looks to transform the system for supporting children and young people additional learning needs in Wales. Although the legislation and statutory guidance is just one part of the reforms that are being introduced it will have a fundamental impact on how ALN provision is delivered in the future. The Act encapsulates 11 main aims that is supported by a wider range of reforms, measures and sub-ordinate legislation as well as an Additional Learning Needs Code that will sit alongside this Act. The new legislation brings together a single legislative framework for children and young people from birth up to the age of 25 who have additional learning needs. This expands on our previous remit which was 3-19 years. The ALN Code will provide the detail of how assessments and decisions regarding provision are made. Section 9 sets out the same duty on governing bodies of both schools and Further Education Institutions (FEIs) to decide whether pupils/students have ALN 'where it is brought to [their] attention or otherwise appears to [them]' that they 'may have ALN'. Where a governing body of a school or FEI decides that a pupil/student does have ALN, section 10 of the Bill will require them to prepare and maintain an Individual Development Plan (IDP) for them (with statements, School Action and School Action Plus no longer existing). Therefore, all learners with ALN would have the same type of statutory plan irrespective of their age or whether they are in a school, a school sixth form or an FEI. The other significant change as part of the Act, is that it intends to improve transition by transferring the responsibility for post-16 provision from Welsh Ministers to Local Authorities. This will require local authorities to work with post-16 providers to work together to plan and provide services collaboratively. There is the concern that this legislation could lead to a dilution in support services for those who have the most severe and complex needs (i.e. those who previously had statements) especially if all learners will now require the same type of statutory plan. The Act also has a much greater focus on working collaboratively, particularly in relation to health bodies. The Act also allows for greater involvement and participation amongst children and young people and gives parents/carers and young people the right to appeal against decisions made regarding their ALN and/or IDP. Local Authorities will also be required to provide access to independent advocacy services. There is also the expectation that services will be available through the medium of Welsh to create parity of provision, which is likely to have an impact on our ability to meet Additional Learning Needs. To support the implementation of this transformation programme,

	<p>the Minister for Lifelong Learning and Welsh Language announced a £20million funding package .The overall risk associated with this new legislation, relates to our capacity and capability to effectively meet the Additional Learning Needs of our learners from birth to 25.This is against a backdrop of growing demand for ALN provision due to increasing numbers of children and young people presenting with increasingly more complex needs. This is likely to impact on our ability to meet those needs in line with requirements of the legislation at a time when our budgets are already under pressure.</p>

1.4 Risk Categories

Categories	Yes/No	Definition
<i>Political & Legislative</i>	Yes	<p>Political and legislative repercussions of failing to meet the requirements of the Social Services Wellbeing Act, Wellbeing of Future Generations Act and the proposed new Local Government Bill and Additional Learning Needs and Education Tribunal Act could lead to litigation, fines and/or political instability.</p> <p>Failure to fully embrace and participate in discussions/collaborative opportunities as a result of the proposed new Local Government Bill could have detrimental impact on political leadership of the Council.</p> <p>Failure to represent the Vale of Glamorgan Council’s position in relation to the Local Government Reform agenda, as a local authority in its own right providing services to our residents.</p>
<i>Resources</i>	Yes	<p>Insufficient funding to ensure that we can meet our legislative requirements associated with the Social Services Wellbeing Act, Wellbeing of Future Generations Act, and the proposed new Local Government Bill.</p> <p>The financial management of responding to and resourcing legislative changes/Local Government Reform across a breadth of services and the impact of any reform will be a major undertaking, and developing</p>

1.4 Risk Categories		
Categories	Yes/No	Definition
		<p>adequate arrangements for managing these aspects will be key.</p> <p>Insufficient knowledge and expertise to fully meet the new requirements of the Additional Learning Needs Education Tribunal Act. This could have significant training and development implications for the local authority staff as well as school-based staff.</p> <p>Lack of capacity to meet extended requirements of ALN provision (from birth to 25 years) The legislation will require a significant amount of additional provision to be created without sufficient additional financial resources.</p> <p>Insufficient funding to deliver our additional duties under the Additional Learning Needs Educational Tribunal Act. The discharge of new responsibilities/duties under the Act (in relation ALN provision from birth to 25) could present a significant financial risk to the Council where there is already a growing need for ALN provision. Only a finite amount of funding will be transferred from the Welsh Government to fulfil the duties, which is likely to be insufficient to fully meet needs.</p>
Service Delivery and Wellbeing	Yes	<p>There is a risk that in failing to deliver the requirements of the Wellbeing of Future Generations Act, the Additional Learning Needs Education Tribunal Act and the Social Services Wellbeing Act, that the wellbeing of our residents/service users will be negatively impacted and that our services do not meet the basic needs of our communities.</p> <p>Given the duty placed on the Local Authority for increased citizen engagement within the Well-being of Future Generations Act and the Social Services and Well-being Act, there is a risk if this work is not joined up then citizens will be repeatedly surveyed and consultation exercises may lose their value through survey/consultation fatigue.</p> <p>Risk in delivering major change associated with legislative change/Local Government Reform, service delivery as 'business as usual' is not prioritised, negatively impacting on our residents.</p> <p>Inability to deliver a fully bilingual service in terms of Additional Learning Needs creating a lack of parity of provision across the service and a failure to meet both the requirements of the legislation and the needs of our learners.</p> <p>Risk that this legislation could lead to a dilution in support services for those who have the most severe and complex needs (i.e. those who previously had statements) especially if all learners will now require the same type of statutory plan.</p> <p>Failure to engage partners to meet their commitments/requirements as part of the Additional Learning Needs Education Tribunal Act. There is the risk that the expectations of partners are at odds with each other in</p>

	<p>portal.</p> <ul style="list-style-type: none"> Budget setting process includes considerations of cost pressures arising from legislative change. Worked with the Regional Partnership board to produce a Population Needs Assessment. In response to the Needs Assessment an Area Plan has been developed and consulted on The Vale of Glamorgan has successfully implemented transition services underpinned by a Transition Protocol, which supports best practice across agencies. This protocol is being updated to reflect the changes required as part of the Additional Learning Needs Act. Reflecting on the positive overview of the Vale approach, Cardiff has developed a CS 'CHAD transition team' which aligns with transition arrangements for children in the Vale, which is moving us towards a more equitable and regional approach to supporting young people through transition. Research work in relation to the Accommodation with Care Strategy has been completed and a housing survey and consultation with service users has also been undertaken. Agreement for a pooled budget for older person's care home placements across the three statutory partners has been put in place and is operational. In preparation for the implications of the ALN Act a review of the workforce has been undertaken. This review evaluated the expertise of staff and has helped to identify new ways of working to better meet requirements of the Act. A readiness survey has supported us in identifying further areas of development. A Training Plan and a programme of training has been delivered to staff and school-based staff to reflect the new requirements in relation to the ALN Act.

Meeting set up with disability futures to map out joint action plan with Cardiff.

Corporate Risk 3: School Reorganisation and Investment

1 – Risk Overview	
1.1 Risk Description	<p>This risk encompasses funding key priorities set out in the 21st Century Schools Investment Programme as well as smaller scale asset renewal schemes. It also includes school reorganisation as the reduction of surplus places and condition of school buildings are the primary criteria for securing 21st Century Schools grant funding. We anticipate further demand for school places emerging as a result of new and expanding housing developments. Whilst the requirement for increased capacity in certain areas has been identified, in many cases there will be insufficient s106 funding to cover costs placing increased pressure on available funding.</p> <p>There is a risk associated with securing the necessary capital required to fund major investment projects as well as addressing building conditions across all Vale schools. The lack of available funding to address all requirements will result in buildings deteriorating further giving rise to risks associated with health and safety, DDA, business continuity and sustainability.</p> <p>Failure to implement an appropriate school re-organisation programme could result in the Vale not achieving its surplus place targets of 10.19% in the primary sector and 12.9% in the secondary sector by 2016 as agreed with the Minister for Education and Skills. Failure to establish sufficient Welsh medium places in both the primary and secondary sector would impact on the Vale's ability in contributing to the Welsh Governments plan of one million Welsh speakers by 2050, and commitments required as part of the Council's Welsh in Education Strategic Plan, and could directly impact on the Vale's ability to secure 21st century schools funding in the future.</p>

1.2 Risk Owner		Head of Strategy, Community Learning and Resources (TB)				
1.3 Impact on our contribution to the Wellbeing Goals						
A Globally Responsible Wales	A Prosperous Wales	A Resilient Wales	A Healthier Wales	A More Equal Wales	A Wales of Cohesive Communities	A Wales of Vibrant Culture and Thriving Welsh Language
No	Yes	No	No	Yes	No	Yes

1.4 Risk Categories		
Categories	Yes/No	Definition
Political & Legislative	Yes	<p>Inability to meet Welsh Government guidance by failing to retain no more than 10% surplus places. Failure to improve the quality of buildings to make them safer and more accessible, resulting in a breach of our duties under the Health and Safety Act Disability Discrimination Act.</p> <p>The Council could fail to meet the statutory requirement to meet the demand for Welsh medium school places and the need to meet the Welsh Government commitment for one million Welsh speakers by 2050.</p>

1.4 Risk Categories		
Categories	Yes/No	Definition
Resources	Yes	<p>Failure to deliver the programme in line with plans approved by Welsh Government could impact on the Council's success in securing grant funding in future bands of the 21st Century Schools Programme. There is the risk that insufficient s106 money will impact on our ability to secure sufficient places in schools where there is the highest demand for places.</p> <p>The Council's success in securing capital receipts is critical to the delivery of the programme. Failure to generate capital receipts would result in increased prudential borrowing, the cost of which would fall to be met from the education revenue account at a time when services will be required to identify substantial savings as a result of reductions to the Council's aggregate external financing.</p> <p>Failing to reduce surplus places through investment impacts on effective resource management in schools. Insufficient funds to carry out prioritised asset renewal schemes impacts on health and safety.</p> <p>A requirement of 21st Century Schools is that all grant funded schemes should meet BREEAM Excellent which addresses wide-ranging environmental and sustainability issues. Failure to deliver schemes would impact adversely on a range of factors including energy efficiency, carbon emissions, minimising waste and improvements to community involvement and social inclusion.</p>
Service Delivery and Wellbeing	Yes	<p>Failure to implement an appropriate school reorganisation programme as a result of not achieving our surplus place target. Impact of new housing developments is likely to place a significant pressure on school place planning. Insufficient capital funding for building works could lead to further deterioration resulting in implications for health and safety. Funding for adaptations to schools under Disability Discrimination Act is limited and could result in a pupil not being able to attend the school of choice or not being able to access facilities used by other pupils. Failure to meet demand for Welsh medium education.</p> <p>Impact of a poor learning environment on a pupil's learning experience if we fail to meet the 21st Century Schools standards.</p>
Reputation	Yes	<p>Failing to provide the right type and number of school places in the right areas could result in the Council being in breach of statutory requirements which would impact on its reputation. Similarly, closure of schools as a result of building failure would attract negative publicity and criticism from the community and regulators.</p>

Corporate Risk 4: Home Improvement Programme

1 – Risk Overview

1.1 Risk Description

The Welsh Housing Quality Standard requires all social landlords to improve their housing stock to an acceptable level by 2020, as outlined in the Wales Housing Act 2014.

The focus is on ensuring that all people have the opportunity to live in a good quality home in a safe and secure community. To help achieve this, the Welsh Government has published the Welsh Housing Quality Standard (WHQS) for us to abide by.

The Council commenced its Housing Improvement Programme to meet WHQS in September 2012 and has agreed with the Welsh Government that compliance will be achieved by March 2018 (5½ year programme). External contractors were appointed at that time to deliver the programme via a framework contract. The Council's internal contractor also delivered a proportion of the works. All qualifying works have now been completed and the Council has entered the Maintenance phase of the standard.

The Welsh Government has advised that now that the WHQS standards have been met by the local authority, the risk of failing the standard has been removed. The focus going forward is our ability to maintain the quality of our housing stock in line with the WHQS requirements.

The overarching risk is failure to meet the requirements of the Housing Act and maintain WHQS standards. The primary consequence of this could result in the withdrawal of Welsh Government funds, but there are also political, legislative and reputational consequences for the Council.

Delays in maintaining the Wales Housing Quality Standard works could be the result of:

- Having a number of “Hard to Treat” properties across the Vale that require over and above the normal refurbishment requirements leading to additional expenditure;
- Poor performance and contractual compliance by external contractors impacting on the quality of work undertaken or the availability of suitably experienced contracting staff to undertake aspects of the improvement work needed;
- Tenants refusing the works/access to their properties; and
- Insufficient budget available in year to pay for work for properties requiring work which could impact on priorities in future years.

1.3 Risk Categories		
Categories	Yes/No	Definition
<i>Political & Legislative</i>	Yes	<p>Failure to comply with requirements of the Wales Housing Act 2014 to maintain WHQS standards within Welsh Government requirements could result in litigation.</p> <p>Failure to improve the quality of housing to make them safer could result in a breach of duties under the Housing Health and Safety ratings system.</p>
<i>Resources</i>	Yes	<p>Failure to maintain WHQS could result a withdrawal of the Capital Grant.</p> <p>Failure to effectively project manage the delivery of this maintenance programme through our existing resources resulting in overall delays to the programme.</p> <p>Failure to adopt a strategic approach to the asset management of the Council's housing management stock.</p> <p>Insufficient current budget available in year to pay for work on additional properties that require work, could result in the re-profiling of our budget priorities in future years.</p> <p>Risk of financial dispute with the contractors regarding the work they have undertaken leading to our inability to meet the final settlement figure. Such disputes could lead to delays in notifying leaseholders of their costs of contribution.</p>
<i>Service Delivery and Wellbeing</i>	Yes	<p>Failure to effectively communicate and engage with service users/tenants regarding the improvement works required and the timescales involved, resulting in poor buy in and support from local communities.</p> <p>The programme fails to safeguard the wellbeing of its tenants and provide good quality housing that meets the diverse needs of the community.</p> <p>Poor quality completion of works jeopardising the safety of tenants in properties.</p> <p>Not improving the Council's housing stock to create modern, energy efficient homes for the Vale's tenants Inability to maximise the supply of Council Housing from new build developments.</p>
<i>Reputation</i>	Yes	<p>Reputational damage of poor performance by contractors and requiring leaseholders to contribute to improvement works. Failure to deliver the programme of works to the standards required could attract negative publicity and criticism from tenants and regulators.</p>

	<ul style="list-style-type: none"> Ongoing stock condition surveys. Asset management database, Keystone, in place to map investment levels/ compliance on a property by property basis. Produced a Housing Business Plan that outlines the a detailed financial forecast in the form of a 30year model that takes into account all assets within the Council's Housing Revenue Account (HRA). Appointment of additional staff such as a Housing Improvement Supervisor. A £15million programme of work has been budgeted. 			
Service Delivery & Well-being	<ul style="list-style-type: none"> WHQS Improvement Programme completed by the end of March 2018. Focus going forward will be on maintenance of properties to WHQS standards. Asset management database, Keystone, in place to map investment levels/ compliance on a property by property basis. Robust approach to performance management in place. Housing estate grading methodology has been finalised, testing has been completed, staff have been trained and the new grading system has gone live. Effectively embedded principles and procedures within the service to minimise the length of time it takes to let empty properties. Estate action plans are now in place for all main Council estates. These Plans identify key issues and actions which will drive improvements in the individual housing estates. Over the next 12 months each of the plans will be reviewed and improved to ensure efficiency. Tenancy Management Policy which sets out in detail how the Council is to manage tenancy related matters has been adopted, which describes how the Council creates, changes and ends tenancy agreements. The Policy ensures the Council follows current legislation and enables tenants to exercise their rights, as set out in the tenancy agreement. It also provides a reference point for housing staff to make their decisions. 	2	1	2

2.2 Controlling Inherent Risk				
Category	Current Controls	Effectiveness of controls		
		Likelihood Score	Impact score	Total Score
	<ul style="list-style-type: none"> All 'housing owned' land has been identified and a number of options are being considered for various sites. Some areas are being subject to viability assessments to see if they can be developed for new housing, some smaller parcels of land have been disposed of after they have been deemed surplus to requirements and other plots are being considered for community use. A good example of this is the community garden at Treharne. All WHQS work have been completed to achieve the Welsh Governments Welsh Housing Quality Standard and the evidence had been updated in Keystone (asset management software), which substantiates this position. The Council has adopted a Tenant Engagement Strategy which includes agreement on the key aims for tenant involvement and the supporting priority actions. The document will remain in place for the next three years and sets out how tenants will be engaged in order to improve services provided. Progress with implementing the Strategy will be measured via the completion of individual actions contained within the Operational Delivery Plan. 			
Reputation	<ul style="list-style-type: none"> Project governance structure in place including the Housing Improvement Group, the Quality and Design Forum, the Hard to Treat Working Group that produces regular reports to the Homes and Safe Communities Committee and Cabinet. Corporate Risk 5: Waste

1 – Risk Overview

1.1 Risk Description	This risk relates to the effectiveness of diversionary activities and initiatives in place to meet the requirements of the European Landfill Directive. There is a Statutory Target for Recycling based on the Welsh Government’s ‘Towards Zero Waste’ Waste Strategy. Aligned to this are national statutory landfill reduction/ diversionary targets. Failure to meet the national waste agenda and meet its associated targets increases the likelihood of incurring significant fines and could have detrimental impact on the Council’s reputation.

Political & Legislative	Yes	Failure of contract agreements associated with our waste collaborations. Failure to comply with statutory waste targets and the associated Welsh Government guidance.
Resources	Yes	<p>Inability to streamline our approach to optimise productivity as consequence of budgetary cuts and/or staff shortages that will impact on our performance against waste reduction targets.</p> <p>Inability to effectively monitor and manage our contract agreements resulting in poor contractual compliance and performance. Council incurs fines as a result of failing to meet statutory waste reduction targets.</p> <p>National Welsh Government grants are withdrawn as a result of failing to meet statutory waste reduction targets.</p>
Service Delivery and Wellbeing	Yes	<p>Failure to increase recycling rates and reduce landfill waste to an acceptable level (zero waste by 2050). This risk has multiple potential environmental impacts including:</p> <ul style="list-style-type: none"> i.e. climate change implications (waste currently contributes around 4.7% of direct greenhouse gas emissions in Wales); ii. pollution of the local environment (e.g. contamination of groundwater; soil contamination). <p>Failure to effectively communicate and engage with residents regarding the importance of recycling and composting resulting in poor buy in and reduction in recycling rates.</p> <p>Poor engagement with the hard to reach section of our community resulting in lower recycling and composting take up rates.</p>

1.4 Risk Categories		
Categories	Yes/No	Definition
		Poor communication following any change in collection methodology resulting in poor take up of recycling and composting services. Increasing waste budget pressures as a result of new developments and an inability to deliver savings in waste management services.
Reputation	Yes	Failure to meet the statutory waste targets and comply with the Welsh Government's waste strategy would have a detrimental impact on the resident's perception of Council services and would attract criticism from our external regulators and Welsh Government.

Corporate Risk 6: Workforce Needs

1 – Risk Overview						
1.1 Risk Description		As the Council continues to go through significant change over the next few years it is imperative that we are able to anticipate the human resources implications of such change and ensure that we have a number of people with the right skills and experience to deliver the services of the future. In managing the risk it is important to consider the particular challenges presented by the current financial pressures within the public sector, the need to ensure the engagement of staff throughout the change process and the need to plan for and respond to issues of anticipated skills shortages. The risk needs to be considered alongside the Council's reshaping services agenda and the potential impact the proposed model of local government reform could have on our workforce. Therefore, the innate risk is the inability to anticipate and plan for the workforce needs of the future in order to meet the changing service requirements.				
1.2 Risk Owner		TBC				
1.3 Impact on our contribution to the Wellbeing Goals						
A Globally Responsible Wales	A Prosperous Wales	A Resilient Wales	A Healthier Wales	A More Equal Wales	A Wales of Cohesive Communities	A Wales of Vibrant Culture and Thriving Welsh Language
No	Yes	Yes	Yes	Yes	Yes	Yes

1.4 Risk Categories		
Categories	Yes/No	Definition
Political & Legislative	Yes	Political and legislative repercussions of failing to implement the agreed actions set out in the Council's Workforce Plan would impact adversely on the Council's ability to ensure the workforce needs of the future are met.
Resources	Yes	<p>A failure to implement the agreed actions set out in the Council's Workforce Plan would impact adversely on a range of factors including the commitments to increase the number of apprenticeships within the Council (and wider community), the increase of younger employees (as a percentage of the wider workforce) and the aims within the Council's Equalities Strategy.</p> <p>A failure to implement the agreed actions set out in the Council's Workforce Plan would impact adversely on the Council's ability to ensure the workforce needs of the future are met.</p> <p>A failure to implement the agreed actions set out in the Council's Workforce Plan (and specifically in relation to change management) would impact adversely on the Council's ability to respond to financial challenges over the next four years.</p> <p>The realisation of the risk would lead to an inability to recruit and retain suitably qualified staff with appropriate skills in the right areas to deliver services effectively. E.g. Inability to recruit and retain staff in business critical posts due to the impact of market forces and/or skill shortages. It would also lead to an inability of leadership to respond to the changing policy landscape and the challenges this presents, impacting</p>

1.4 Risk Categories		
Categories	Yes/No	Definition
		<p>on our ability to deliver good quality services to meet the needs of our citizens. Loss of leadership impacting on our ability to continue to drive forward organisational change.</p> <p>There would be a potential failure to effectively engage and mobilise our resources to deliver our workforce priorities and have the appropriate skills in place, in the right areas to deliver services effectively. Failure to maintain momentum regarding staff engagement.</p>
Service Delivery and Wellbeing	Yes	<p>Failure to properly anticipate and respond to future workforce needs could pose a threat to the effectiveness and viability of sustainable service delivery and its ability to meet achieve the outcomes and priorities set out in our Corporate Plan.</p> <p>There would be a potential inability to anticipate and plan for workforce needs of the future in order to meet changing service requirements. There would also be an inability to manage and support organisational change impacting on our ability to deliver sustainable services both now and in the future.</p>
Reputation	Yes	<p>Negative perception of the Council amongst citizens as an employer impacting on recruitment and retention rates across the organisation.</p> <p>Failure to put in place succession pathways in place to address our ageing workforce in specific service areas.</p> <p>A key aspect of the workforce plan (section 6/theme viii) is the need to ensure the Council have a workforce that reflects the wider community. Within this are specific aspects to ensure that measures are taken to ensure representation from protected groups under the Equalities Act 2010. A particular feature of this includes strategies to deal with occupational segregation and address the gender pay gap that exists nationally and locally. A failure to implement actions within the workforce plan would impact adversely on such equalities commitments and our reputation as an employer.</p>

Category	Current Controls	Effectiveness of controls		
		Likelihood Score	Impact score	Total Score
	<ul style="list-style-type: none"> The Staff Engagement Strategy has now been embedded with mechanisms to evaluate ongoing engagement. The Vale Induction Programme contributes to our ability to build a resilient workforce, strengthen staff knowledge and understanding of the Council's vision, values and contribution to the achievement of our corporate priorities. HR Business Partners and Assistant Business partners continue to support managers in Change Management Reviews. Support was successfully provided in relation to the Barry Co-educational schools project and the Visible and Transportation change management exercise. Chief Officer briefing sessions and management development sessions were held support reshaping and discuss the staff results. Apprenticeship pathway is in place to enable direct recruitment of apprentices and enables us to better support succession planning. 			
Service Delivery & Well-being	<ul style="list-style-type: none"> Workforce Planning process delivered with a focus on alternative service delivery and workforce implications. The HR team continue to monitor and report performance against corporate health indicators including labour turnover and attendance data. A new Training and Development Strategy has been launched The HR team has been restructured with an emphasis on a 'business partner' approach to support and a move towards a HR Self-Service model. Organisational Development support provided to the Reshaping Services Programme continues to influence how we deliver alternative models of service delivery. #itsaboutme staff appraisal process has been reviewed to ensure it remains relevant year on year to staff to connect staff activity to corporate priorities and ensures it continues to contribute to the Staff Charter and Reshaping Services Agenda. 	2	2	4

2.2 Controlling Inherent Risk				
Category	Current Controls	Effectiveness of controls		
		Likelihood Score	Impact score	Total Score
	<ul style="list-style-type: none"> • The Council is a Stonewall Champion committed to ensuring we have an inclusive work place for all lesbian, gay, bi and trans-sexual staff. We have developed an action plan to further evidence that we have an inclusive work place. The Council has contributed to the Stonewall 2018/19 Employment Index Survey and the feedback will provide the opportunity to refresh our action plan. • The NJC Single Status 2019 pay award has been assimilated into a new pay and grading structure which is currently being consulted on with the trade unions. Once agreed, this will meet our national and local reward strategy obligations and place the council lowest pay rate for employees above the Foundation Living Wage rate. • The new Management Competency Framework was launched in April 2017. Several management development sessions have been held with managers focusing on managing the future, the Digital Strategy and commercialisation. Chief Officer briefing sessions and a management development sessions have been held in accordance with the new Management Competency Framework. This work has helped ensure managers are up skilled to fulfil their roles effectively to meet the challenges facing the Council and the new ways of working as part of the Reshaping Service programme. • We have procured an E Bulk solution to provide a significant reduction administration and the time in accessing Disclosure and Barring Services (DBS) certificates. The E Bulk system service is scheduled to go live in November 2018. • The new HR Structure has been launched and all posts within the Business Partnership, Organisational Development and Employee Services teams have now been filled. Transition arrangements are ongoing as is the programme of streamlining processes and exploring digitalisation

	contribute to change.													encourage attendance at the Leadership Café. Within Achievement for All, a service development day was undertaken that set out how the roles and responsibilities of teams contributed to the overall work of the Council. This has helped to reinforce and employees understanding for their role and contribution to change.

Corporate Risk 7: Information Security

1 – Risk Overview	
1.1 Risk Description	<p>Information Security involves the practise of preventing the unauthorised use, access, disclosure, disruption, modification, inspection, recording or destruction of information. This definition applies regardless of the form data/information may take i.e. electronic or physical.</p> <p>Local authorities have a duty to safeguard the data/information in line with requirements of legislation such as Data Protection Act 1998 and Computer Misuse Act 1990. In addition to legislative requirements there are also identified standards that public bodies can work towards to further enhance and strengthen their approach to information security such as compliance with the Public Services Network, Payment Card Industry and IS027001 that governs information security management.</p> <p>The General Data Protection Regulation is a regulation that has been made by the European Parliament, The Council of the European Union and European Commission which is intended to strengthen and further unify the approach to data protection across the EU. Despite the Brexit decision, the UK Government confirmed its intent to still adopt this as a legislative framework. This new regulation has applied in the UK since 25th May 2018. The principles of the GDPR are similar to the those set out in the Data Protection Act, but with additional details regarding accountability and governance requirements and specifically requires organisations to show how they comply with the principles by documenting decisions the organisation takes in relation to processing activities. The Regulations have been designed to further minimise the risk of data breaches and uphold the protection of personal data, which is likely to result ensuring robust policies and procedures to ensure good governance measures are in place. The key risk associated with this is that we fail to meet the requirements of this regulation and safeguard our information and data.</p> <p>The key risk associated with this is the failure to implement adequate information security management systems across the Council.</p>

														provided to elected members.

Corporate Risk 8: Environmental Sustainability

1 – Risk Overview						
1.1 Risk Description		<p>Action on climate change covers two areas: mitigation and adaptation. Mitigation relates to action taken to tackle the causes of climate change i.e. by reducing greenhouse gas emissions. Adaptation relates to action taken to adapt to the unavoidable effects of climate change caused by increased concentrations of greenhouse gases from human activities. Locally the immediate impact of climate change include hotter temperatures, warmer, wetter winters, hotter, drier summers, increased summer time thunder storms and intense rainfall and the reduction of some animal and plant species, more severe flooding of coastal and river areas and also flash flooding throughout the authority.</p> <p>The Vale of Glamorgan must act as a responsible authority and in 2006 signed the “Welsh Commitment to Address Climate Change”. The commitment outlines the council’s contribution to the delivery of the national climate change programme, working with the local community to address the causes and effects of climate change, reduce the council’s own emissions, encourage all sectors of the local community to reduce their own emissions, work with key providers to adapt to changes, and provide opportunities for renewable energy generation within the area.</p> <p>The key risk relates to our failure to mitigate against the impact of climate change.</p>				
1.2 Risk Owner		Head of Neighbourhood Services and Transport (ER)				
1.3 Impact on our contribution to the Wellbeing Goals						
A Globally Responsible Wales	A Prosperous Wales	A Resilient Wales	A Healthier Wales	A More Equal Wales	A Wales of Cohesive Communities	A Wales of Vibrant Culture and Thriving Welsh Language
Yes	Yes	Yes	Yes	No	Yes	No

1.4 Risk Categories		
Categories	Yes/No	Definition
<i>Political & Legislative</i>	Yes	<p>Failure to meet legal duties in relation to the Flood and Water Management Act.</p> <p>Inability to meet Welsh Government requirements for Statutory Transport Guidance as it relates the Active Travel and Learner Travel Wales.</p> <p>Failure to define our vision, ownership and responsibility for addressing climate change issues.</p> <p>Inability and capacity of key partners to work effectively together to commit and contribute to the climate change agenda locally.</p> <p>Failure to fully utilise our land use planning framework and other policy levers to become more resilient to climate change and its effects.</p>
<i>Resources</i>	Yes	<p>Limited asset renewal funding could result in the Council not being able to meet its CO₂ reduction target set out in the Carbon Management Strategy and Implementation Plan.</p> <p>Increased pressure on limited resources as a consequence of increased areas of maintenance.</p> <p>Insufficient funding availability to fully implement programmes/initiatives to reduce our carbon footprint.</p> <p>Annually shrinking budgets will impact negatively on consistently achieving high standards of cleanliness of the local environment.</p> <p>Impact of our failure to meet our commitments under the CRC Energy Efficiency Scheme and its associated financial benefits.</p> <p>Council incurs fines as a result of failing to meet statutory waste reduction targets.</p>
<i>Service Delivery and Wellbeing</i>	Yes	<p>Failure to deliver key flood alleviation schemes across the Vale and exposing flood prone areas to a greater risk of flooding.</p> <p>Failure to implement the Shoreline Management Plan impacting on our ability to monitor and manage coastal erosion.</p> <p>Failure to reduce our carbon foot print by not reducing our CO₂ emissions and improving our energy efficiency.</p> <p>Disruption and financial cost of flooding to homes and businesses.</p> <p>Failure to engage and encourage to residents to participate in Active Travel (use alternative forms of transport to the car).</p> <p>Failure to effectively communicate and engage with residents regarding the importance of recycling and composting resulting in poor buy in and reduction in recycling rates.</p>

1.4 Risk Categories		
Categories	Yes/No	Definition
		<p>The impact new developments places on putting in place a sufficient public transport infrastructure.</p> <p>Failure to fully deliver the Carbon Management Plan.</p> <p>Failure to increase recycling rates and reduce landfill waste to an acceptable level (zero waste by 2050). This risk has multiple potential environmental impacts including: i.e. climate change implications (waste currently contributes around 4.7% of direct greenhouse gas emissions in Wales) and pollution of the local environment (e.g. contamination of groundwater; soil contamination).</p>
Reputation	Yes	Failure comply with the legal duties and it associated targets would have a detrimental impact on resident's perception of Council ability to tackle climate change and would attract criticism from our external regulators and Welsh Government.

														the environmental programme. The first claim for works undertaken will be submitted by mid-October.

Corporate Risk 9: Welfare Reform

1 – Risk Overview						
1.1 Risk Description		<p>The UK Government’s Welfare Reform will introduce the greatest change in the administration of welfare benefits for a generation. In addition to significant change in the way in which the council will run the housing and council tax benefits service, the changes will affect Social Services and Housing Services and will have an impact on the overall finances of the authority.</p> <p>Significant changes have been implemented, including changes to the Housing Benefit scheme and the introduction of the Council Tax Reduction Scheme to replace Council Tax Benefit. The Welsh Government implemented the Discretionary Assistance Fund from April 2013 and the DWP started the roll out of the Personal Independence Payment in Wales from July 2013.</p> <p>Universal Credit which will replace Housing Benefit, Job Seeker's Allowance (Income Based), Employment and Support Allowance (Income Related), Income Support, Working Tax Credit and Child Tax Credit was introduced in the Vale of Glamorgan in February 2016. However, this was originally limited to new claimants within specific geographical areas in the UK. Full roll out of the Universal Credit programme and its full impact has not yet been full realised in the Vale of Glamorgan. Full implementation is now to commence in the Vale of Glamorgan from October 2018.</p> <p>Universal Support Delivered Locally has been implemented since February 2016 in line with the introduction of Universal Credit in the Vale of Glamorgan. The risk associated with Welfare Reform can be defined as the roll out of the Welfare Reform programme has a detrimental financial and social impact on residents.</p>				
1.2 Risk Owner		Head of Finance (CL)				
1.3 Impact on our contribution to the Wellbeing Goals						
A Globally Responsible Wales	A Prosperous Wales	A Resilient Wales	A Healthier Wales	A More Equal Wales	A Wales of Cohesive Communities	A Wales of Vibrant Culture and Thriving Welsh Language
No	Yes	Yes	Yes	Yes	Yes	No

1.4 Risk Categories		
Categories	Yes/No	Definition
Political & Legislative	Yes	Failure to ensure service continuity during the transitional period due to poor project planning resulting in political and legislative repercussions.
Resources	Yes	<p>Failure to mobilise our resources effectively and work collaboratively across Council departments and organisational boundaries in order to implement welfare reform in a seamless manner.</p> <p>Changes in welfare reform are likely to impact on the resourcing and workforce needs/requirements for delivery of the programme. Failure to implement information management systems effectively or the systems are not fit for purpose impacting on the ability to process and accurately administer timely benefits to clients.</p> <p>Failure to effectively administer welfare benefits resulting in inaccurate payments.</p>
Service Delivery and Wellbeing	Yes	<p>Failure to safeguard principles of social inclusion as a result of welfare reform.</p> <p>Welfare reform could have a detrimental impact on service user's finances and affect their ability to sustain tenancies and pay bills. Social impact of welfare reform could impact on tenant's health, their ability to heat their homes, live in good quality housing and feed themselves.</p> <p>Poor communication of the welfare reform changes to clients could result in them getting into debt.</p>
Reputation	Yes	<p>Poor implementation of welfare reform measures having an adverse impact on equalities commitments and our reputation as a Council.</p> <p>Failure to effectively communicate and manage delivery of welfare reform changes could damage the client's relationship and trust of the Council and ultimately its reputation.</p>

2.2 Controlling Inherent Risk				
Category	Current Controls	Effectiveness of controls		
		Likelihood Score	Impact score	
Political & Legislative	<ul style="list-style-type: none"> • Identification and prioritisation of key risks associated with welfare reform. • Progress reports are monitored by Scrutiny Corporate Performance and Resources. • Public Services Board has oversight of the issues/developments in relation to Welfare Reform as it is linked to the Well-being Plan Objective to reduce poverty and tackle inequalities linked to deprivation. 	2	2	4
Resources	<ul style="list-style-type: none"> • Budgets have been allocated to deal with expected impact of homelessness and rent arrears. • Budgets are reviewed annually and monitored monthly as part of the council's standard budgetary control processes. • Impact of Welsh Government reforms of the Discretionary Assistance Fund reviewed. • Impact of the Council Tax Reduction Scheme and future WG funding reviewed. Strengthened how welfare-reform risks are managed by developing a more corporate-level approach that co-ordinates activity across the council (where one report is now presented to Corporate Performance and Resources Scrutiny Committee) • Impact of the introduction of the benefits cap reviewed and reported 	2	2	4
Service Delivery & Well-being	<ul style="list-style-type: none"> • Improved the management and access to and use of Discretionary Housing Payments. • Improved engagement with tenants affected by the removal of the spare-room subsidy through: the provision of regular advice and information on the options open to them to address the financial impact of the change in their circumstances; the promotion of the 'Your benefits are changing' helpline; and the provision of support to tenants specifically affected by the removal of the spare-room subsidy to participate in regional/national employment schemes. • Continue to support the effective roll out of Universal Credit across the Vale of Glamorgan. Benefit Section within Financial Services continues to liaise with the Department of Work and Pensions (DWP) and the Jobcentre using Universal Support Delivered Locally (USDL) to support roll out 	3	2	6

2.2 Controlling Inherent Risk				
Category	Current Controls	Effectiveness of controls		
		Likelihood Score	Impact score	
	<p>of Universal Credit (UC) across the Vale of Glamorgan. USDL is a partnership approach between the Council and the Job Centre Plus to provide local support for universal credit claimants. This support provided by the Council includes providing support to UC Service Centre Staff, providing personal budgeting support (PBS) and providing digital support for claimants to get online and stay online.</p> <ul style="list-style-type: none"> • There are various initiatives/support mechanisms in place families who are experiencing financial hardships such as the Sofa scheme, provision of advice and sustaining our partnership with the Food Bank. • The Multi-Agency Landlord group meets regularly to discuss and identify how we mitigate the adverse impacts of welfare reform on tenants. For example working on a joint communication campaign to raise awareness of welfare reform. • Support tenants to access employment and ran our first Vale Home's employment boot camp in partnership with Forces Fitness. This is funded through the community investment contribution. We have established a Time Banking Scheme to give individuals access to opportunities provided by the Community Investment Team and support them in gaining new skills. Community Investment has supported tenants to complete work experience placements to gain essential experience to aid them in seeking employment. We have continued to develop our digital inclusion programme by establishing computer suites within our 5 sheltered housing schemes and family hostel. This has enabled tenants who may otherwise not have access to computers to engage in digital activities. Established relationships with adult learning who are now running training sessions within our Sheltered Schemes. 			
Reputation	<ul style="list-style-type: none"> • Council's website is updated with information guides on Welfare Reform for Vale residents. 	2	2	4

														provide assistance to ensure they pay their housing costs in a timely way. Universal Credit goes 'live' in the Vale from 14th October 2018- so the impact will be monitored closely to minimise any negative impact.
ER2 HR/A009	Work with the Department of Work and Pensions to provide a range of work placement/work experience opportunities in the Council for volunteers in receipt of state benefits.	✓	✓	✓	✓	✓	✓	✓	✓	✓	AU	March 2019	Green (On track)	The scheme remains in place and we continue to receive details of potential candidates and placement opportunities. One of the DWP candidates has recently been engaged in HR under a temporary part-time agency contract in HR to undertake data input.

Corporate Risk 10: Public Buildings Compliance

1 – Risk Overview

1.1 Risk Description

Public Buildings Compliance relates to our responsibilities and duties as a public organisation for ensuring that all our assets are satisfactorily compliant with all current legislative building requirements. The primary risk associated with public buildings compliance is that we fail to comply with our statutory responsibilities for ensuring the health, safety and welfare of both staff and the public when using our premises.

The Health and Safety at Work Act 1974 places specific duties on managers in the control of buildings to ensure; employees, building users and other members of the general public do not come into harm whilst using the building. Over the years, this act has been supplemented by a number of supporting regulations to ensure the safe management of; electricity, gas, asbestos, legionella, fire, lifts, etc. These duties cannot be discharged to third parties and it is the premises manager/duty-holder that is ultimately responsible for managing the risks and discharging the requirements of all the regulations associated with the building.

Whilst the legal duty to manage a building's compliance does not in all cases sit directly with the Council, for example: for Schools where the duty holder would be the Head teacher, the Council has a vicarious responsibility to ensure the protection of all users of its corporate buildings. There will also be cases where as a Council we externally commission out services to be delivered by a Third Party. And although we are not the responsible Premises Manager/Owner of these sites, we do hold a reputational stake in ensuring that our reputation is protected. Therefore, we need to assure that there are suitable processes and procedures in place to both establish the extent of the risks that the Council is exposed to and how those risks are being effectively managed. Equally issues around leasehold and service agreements also need to be considered in terms of any potential risk implications this has the Council where we have a vested interest in the building where services are being operated from. E.g. Community Libraries.

In order to better understand the extent of the corporate buildings' compliance risks posed, MSS Consultancy was engaged in July 2016 to undertake a GAP analysis of the current position. The final report concluded that there were significant gaps in the compliance data available and related operational issues such as out of date certificates etc. As a consequence, this has meant the Council could not be satisfied that its corporate buildings' compliance risks were being effectively managed. This report was tabled at the Council's Corporate Management Team in September 2017 and it was agreed that a major review would be undertaken of the Council's current management of compliance arrangements, led by the Director of Environment and Housing.

At present the current controls for the management of compliance and specifically the 'compliance data' for the Council's Corporate Building Stock needs to be improved. Data on compliance of our corporate buildings was not previously held centrally, and this has been a matter of concern raised by the Wales Audit Office in a recent review and was subsequently identified as a proposal for

CR10: Public Buildings Compliance

	improvement in the Council's Corporate Assessment. As part of the follow up work any recommendations for improvement identified will be incorporated as part of the Risk Management Plan associated with this risk.

Corporate Risk 11: Safeguarding

1 – Risk Overview						
1.1 Risk Description		<p>The Council has produced Corporate Safeguarding procedures including the Safer Recruitment Policy, the Staff Supervision Policy and the Referral of Safeguarding Concerns procedure. These policies and procedures are in place to ensure the Council meets its safeguarding responsibilities in relation to the protection of children, young people and adults at risk by ensuring that recruiting managers comply with pre-employment DBS and reference checks and once in post, employees are supervised in terms of their practice with people considered to be ‘at risk’. The Council also has a responsibility to comply with the All-Wales Child Protection procedures and the All Wales Protection of Vulnerable Adults Procedures and their associated protocols.</p> <p>The Provider Performance Protocol provides a framework for escalating concerns about safeguarding issues and the impact on vulnerable people arising within care homes and other relevant commissioned services.</p> <p>Should these procedures not be followed there could a risk of injury or harm to individuals. Injury or harm could lead to financial loss to the council in terms of compensation claims and reputational damage to the council, leading to a loss of public confidence in key services. The likelihood of this risk occurring increases if policies and procedures are not frequently reviewed and updated, or if compliance with these policies is not fully mainstreamed across the council. Therefore, the overarching risk is that corporate safeguarding procedures are insufficient, not followed or are ineffective.</p>

	Recruitment Policy.													recruitment policy. Compliance is as follows for July 80%, Aug 100%, Sept 98%. There has been an increase in compliance especially for the busiest period of September. Regular monitoring will continue.

Corporate Risk 12: Integrated Health and Social Care

1 – Risk Overview						
1.1 Risk Description		<p>Adult Services are becoming increasingly integrated with health services in order to provide service users and patients with seamless care arrangements. There is also an emphasis as part of the Social Services Wellbeing Act to focus on looking at integrated ways of working through collaboration. The recommendations arising from the recent Parliamentary Review of Health and Social Care has further cemented the need for further developing our approach to integrating health and social care services. The Parliamentary review identified that the focus needs to be on ‘empowering individuals to take decisions, tailoring care to the individual’s expressed needs, whilst being more proactive and preventative. The review also emphasised the need for care provision to be ‘seamless’, of high quality and as close to home as possible.</p> <p>Although, significant strides have been made by the Vale of Glamorgan in relation to integrated health and social care services, there continue to be risks and challenges associated with its delivery. For example, developing a more integrated approach to service provision is likely to propose further challenges with technology, information sharing, staffing structures and governance re policies and financial management. Financial scrutiny will be required to ensure that any risks associated with mandated pooled funding are properly considered. There are also risks associated with the overall sustainability of these new ways of working, given that a significant amount of investment in new ways of working is via Grant funding and therefore short term and finite.</p> <p>Existing HR and IT arrangements may need to be reviewed as organisations work more closely together. The extent and success of the integrated arrangements remain dependent upon partner organisations. The Vale of Glamorgan works predominantly with one health board (C&V UHB) but many service users from the Western Vale receive hospital services outside of the county provided by ABMU. Integration with C&V UHB will be influenced by the extent to which integration is also achieved with Cardiff social care services. The focus continues to be on accessing funding such as Integrated Care Fund and Transformation Fund in order to further expand and develop our integrated service models. For example, Regional Partners recently submitted a bid to access Transformation Funding to support implementation of the Parliamentary Review. As a result, the region was awarded £7million to deliver 7 projects across the Cardiff and Vale region with the vision of developing more ‘seamless care’ for our citizens. £1.3million of this Transformation funding was secured by the Vale of Glamorgan in partnership with the Health Board to lead on piloting a new GP triaging scheme using the Council’s Customer Contact Centre (C1V).</p>

Corporate Risk 13: Unauthorised Deprivation of Liberty Safeguards

1 – Risk Overview						
1.1 Risk Description	<p>Deprivation of Liberty Safeguards</p> <p>The Deprivation of Liberty Safeguards (DoLS) (2009) introduced a legal mechanism to protect people who do not have the mental capacity to consent to their care and support in registered care homes and hospital wards. Specifically, the DoLS safeguards aim to prevent breaches of Article 5 of European Convention of Human Rights – <i>The Right to Liberty and Security</i>. They acknowledge that care and support arrangements sometimes are required to deprive a person of their liberty to ensure the person’s best interests and safety, but that any deprivation of liberty must be in accordance with a prescribed legal procedure (Art 5(1)) and shall entitle the deprived person to take legal proceedings to determine lawfulness of the deprivation ((Art 5 (4)).</p> <p>The Safeguards place a duty on the local authority to perform to a prescribed legal procedure when informed by a Care Home (described as Managing Authorities under the Safeguards) that a resident may be being deprived of their liberty in the care home. The local authority (known in the Safeguards as the Supervisory Body) has 7 days for Urgent Authorisation requests and 21 days for Standard Authorisation requests to coordinate a suite of 8 assessments to determine if the care arrangement is in the persons best interest and to legally ‘Authorise’ the deprivation of liberty.</p> <p>In March 2014, the Supreme Court (P v Cheshire West and Chester Council and P & Q v Surrey County Council) made a ruling, effectively setting a new and much lower threshold for determining a deprivation of liberty which has led to a substantial increase in the number of requests for DoLS Authorisations. In the Vale of Glamorgan, this has meant an increase from 6 requests in 2013/14 to an average of over 500 in each of the last three years.</p> <p>Adult Services have invested into the DoLS team to go some way to meet this increased demand, but the team is not able to coordinate DoLS assessments and Authorisation within the statutory timescales which places the local authority at risk of legal challenge in the Court of Protection.</p> <p>Deprivation of Liberty in ‘Domestic Settings’</p> <p>The Cheshire West Supreme Court ruling in March 2014 made it clear that the local authority must seek Authorisation from the Court of Protection whenever it knows or ought to know that a person who does not have mental capacity to consent is living with care and support that deprives them of their liberty within their own home. It is difficult to be certain but current estimates would indicate that between 50 and 100 people living in the Vale of Glamorgan potentially fall into this category which includes people with learning disabilities or mental health problems and older people with mental health problems.</p> <p>Without Court of Protection Authorisation, the local authority is at risk of legal challenge for care and support that potentially breaches a person Article 5 right to liberty and security.</p>

Corporate Risk 14: Contract Management

1 – Risk Overview	
1.1 Risk Description	<p>Work undertaken by the Internal Audit service during 2016 highlighted significant shortcomings in the way in which large scale services were procured. The issues highlighted :</p> <ul style="list-style-type: none"> • Poor planning with regard to the completion of tendering processes so that a full procurement exercise could not be completed before an existing contract came to an end ; • Services starting without final contracts having being agreed and signed by the Council and the supplying organisation. <p>The audit work highlighted that these shortcomings were evident in a number of instances and across different service areas. The shortcomings exposed the Council to the following risk :</p> <ul style="list-style-type: none"> • Break in crucial services if the current supplier was unable to continue to provide a service whilst a tendering process was completed ; • Additional cost as current suppliers increased their costs during the interim period ; • Risk of legal challenge if any issues arose when services were provided when there was no formal contract in place ; and • Reduced ability to address poor performance if no formal contract in place. <p>A recent review of the contracting practices in the Vale, undertaken by South Wales audit Partnership, has concluded that our systems are robust and our policies and procedures are effective. There are now a good range of controls in place that have addressed the majority of the issues that were originally highlighted in the Internal Audit during 2016. As a result the focus of this risk has now shifted towards the risks associated with managing the quality of services, contractual performance and preventing the failure of commissioned services in order to secure service sustainability.</p>

Corporate Risk 15: Transition to the Welsh Community Care Information System (WCCIS)

1 – Risk Overview	
<p>1.1 Risk Description</p>	<p>The Social Services & Wellbeing (Wales) Act 2014 has integration of health and social care at its core. The effective sharing of information is a fundamental foundation of integrated working and should be applied on a “once for Wales” basis. Welsh Government has significantly invested in the capital programme to support the development and implementation of an integrated information system across health and social care services. This system is known as Welsh Community Care Information System (WCCIS) and is the replacement to the social care information system known as SWIFT.</p> <p>The new system will provide an integrated electronic record system for social care, primary and community health services, mental health services across both adult and children and young people services. This will be a national system intended to be used across all Welsh local authorities and Health Boards.</p> <p>The WCCIS procurement process ended in 2015. All 22 local authorities and health boards are enabled to procure WCCIS, as a replacement for their existing information system.</p> <p>The Cardiff and Vale region have agreed in principle to collectively contract with WCCIS to enable integrated working to become a reality. However, to date Vale of Glamorgan Council is the only partner to have signed a deployment order with the supplier, Careworks. Cardiff and Vale UHB and Cardiff Council are currently going through processes to seek approval for business cases to allow them to proceed with signing a deployment order although this is now unlikely to happen until at least 2019/20. The aim is that all three partners will be utilising the WCCIS over the coming years with a staged implementation.</p> <p>Initially there were some delays with the implementation of the system, which have since been addressed. And although WCCIS went live during November 2017, there were a series of obstacles to overcome in order to ensure full transition to the new system so that all aspects of the system are fully utilised and embedded. The risk previously was in relation to the inability to interface with the legacy system (SWIFT), and to fully embed and utilise the system to its full potential in integrated health and social care teams, which has since been resolved. The focus now is in relation problems associated with performance reporting, as we need to build data reports which requires new skills and time to create. Finally, we would wish to explore the financial functionality of WCCIS to ensure all our social care charging and invoicing is one place, but this requires further work and additional consultancy costs to explore and implement.</p>
<p>1.2 Risk Owner</p>	<p>Head of Resource Management and Safeguarding (AP)</p>

No	No	Yes	Yes	Yes	Yes	No

1.3 Risk Categories		
Categories	Yes/No	Definition
Political & Legislative	Yes	<p>Political and legislative repercussions of failing to fully implement WCCIS across the Directorate fully within required timescales.</p> <p>Failure to put effective information security safeguards in place resulting in personal/sensitive and confidential information being leaked/revealed in the public domain could cause political instability and loss of credibility.</p> <p>Failure of other regional partners to implement the system, thus not maximising the benefits of the systems particularly in relation to integrated teams.</p>
Resources	Yes	<p>Failure to fully maximise and mobilise our existing resources to ensure full implementation/development of WCCIS across the Directorate.</p> <p>Minimal resilience within the team to support the ongoing transition to the new system. Arising from the lack of staff capacity to support the transitional period as a result of disbanding the regional consortium providing SWIFT support. However, there is a regional team which is upskilling and Vale of Glamorgan will be able to access both regional and national support over time.</p> <p>Increased risk of data protection breaches following transition to new WCCIS system due to the large volume of users and the financial impact of these breaches.</p> <p>ICT issues impacting on our ability to print newly developed forms post implementation of WCCIS.</p> <p>Limited skill resilience to extract and report relevant data from the system.</p> <p>Financial impact of contract renewal for sustaining a legacy system in line with the Council's retention policy.</p>
Service Delivery and Wellbeing	Yes	<p>Failure to fully develop WCCIS and its potential could impact the ability of service users to access services readily.</p> <p>Loss of data could impact of the delivery of key services as well as the impact this has on service users.</p>

1.3 Risk Categories		
Categories	Yes/No	Definition
Reputation	Yes	<p>Reputational impact of not being able to retrieve performance information from WCCIS and the archive system (SWIFT) in a timely way could have a detrimental impact on how we are perceived by our external regulator CIW, Welsh Government returns and by Internal Audit.</p> <p>Loss of confidence and trust by the public as a consequence of a data breach and the associated negative publicity. Lack of credibility and potential criticism from our external regulators and the Information Commissioner.</p>
