

Meeting of:	Audit Committee
Date of Meeting:	Monday, 16 December 2019
Relevant Scrutiny Committee:	Corporate Performance and Resources
Report Title:	Corporate Risk Register Quarter 2 Update
Purpose of Report:	To update Audit Committee on the quarter 2 position of Corporate Risks for April 2019 - September 2019 of risks contained within the Corporate Risk Register as outlined in the Corporate Risk Summary Report
Report Owner:	Rob Thomas, Managing Director
Responsible Officer:	Rob Thomas, Managing Director
Elected Member and Officer Consultation:	Consultation has been undertaken with designated Corporate Risk Owners, the Insight Board and Corporate Management Team.
Policy Framework:	The proposals are within the Council's Policy Framework.
Executive Summary:	<p>• This report provides members with an overview of the Corporate Risk Register for Quarter 2 (April 2019-September 2019). Following feedback from the Audit Committee, the reporting format for corporate risks has been streamlined with risk analysis being incorporated within the Risk Summary Report (Annex A). This enables officers and Members to better identify and understand trends and the cross-cutting nature of risk with the ability to drill down to the detail of risks as and when required.</p> <p>The report recommends that Audit Committee:</p> <ul style="list-style-type: none"> • Note the quarter 2 position of corporate risks for the period April 2019- September 2019; and • Refer the Risk Register to Cabinet for their consideration and endorsement.

Recommendations

1. Note the Quarter 2 position of corporate risks for the period April 2019-September 2019 as outlined in Annex A;
2. Refer this report to Cabinet for their consideration and endorsement.

Reasons for Recommendations

1. To identify the quarter 2 position of corporate risks across the Council and highlight any emerging issues and actions to be taken as outlined in Annex A.
2. To ensure Cabinet receives a quarter 2 position on the Corporate Risk Register and endorses the recommendations contained within this report.

1. Background

- 1.1 In response to feedback from Audit committee in February 2019, the risk reporting format has been refreshed and the new report format has been substantially reduced in size and streamlined. Previously the covering risk report incorporated a detailed analysis of Corporate Risks in the cover report alongside a Risk Report and a detailed Risk Register.
- 1.2 The format of the new reporting incorporates the risk analysis in the body of the Risk Summary Report (Annex A) which provides a more concise way of flagging the headline issues and risk considerations. By separating this from the Corporate Risk Register itself, it enables officers and Members to be able to have a good overview of the status of risks across the Register as well as the emerging issues whilst giving them the ability to drill down to the detail if required.

2. Key Issues for Consideration

- 2.1 The Corporate Risk Summary Report is split into the following sections:
- 2.2 **Corporate Risk Executive Summary:** This provides an overview of the whole risk report that highlights the key issues to note in relation to the status of risks, direction of travel, forecast direction of travel and progress against the Risk Management Plans.
- 2.3 **Section 1 Risk Descriptions:** This section details each risk listed on the Register along with a brief description of the risk in terms of its scope. More detailed descriptions of the multiple facets of each risk relative to each of the risk categories (of Political & Legislative, Resources, Service Delivery & Well-being and Reputation) are provided in the Register itself. Within Section 1 of the report officers and members can drill down to the detail of individual risks in the Register quickly and easily by using the Document Link to the relevant Appendices in the report.
- 2.4 **Section 2 Corporate Risk Register Summary:** provides an overview of all the corporate risks in the Register in terms of their inherent score, effectiveness of

control score and residual score and provides an outline of the direction of travel for both current and forecast.

- 2.5 Section 3 Overall Risk Heat Map:** uses a risk matrix quadrant to plot the residual risk scores in terms of likelihood and impact for each corporate risk in order to illustrate the distribution of corporate risks on the heat map. This section flags any key trends or issues in relation to the distribution of risk on the matrix.
- 2.6 Section 4 Thematic Heat Map:** uses a similar risk matrix quadrant to plot the residual risk scores for each corporate risk by risk category. This provides a more holistic illustration of the distribution of risk by risk category enabling a better understanding of the inter-relationship between risk thematics. This also enables officers and members to view risk in a more cross-cutting/strategic light to identify if there is any need to address facets of risk through council-wide mitigating activity.
- 2.7 Section 5 Risk Management Plan:** Provides an overview of the progress made against the Risk Management Plans for each Corporate Risk. There is a Risk Management Plan aligned to each Corporate Risk that will contain a series of actions to help mitigate the risk. By monitoring the status of these Risk Management Plans and in particular the RAG status of the mitigating actions we are able to identify areas where progress against actions are having a positive effect on the risk or in some cases is having little effect. Equally the Risk Management Plan enables officers and members to flag risks where progress against actions has been slow/which may warrant further investigation.
- 2.8 Section 6 Risk Action Exceptions:** This section follows on from section 5 and provides reporting by exception (i.e. mitigating actions aligned to each corporate risk that have been assigned a red status for their progress). This enables officers and members to quickly identify and interrogate actions reporting a red status in relation to each risk. It lists each corporate risk and any corresponding actions that have a red RAG status and provides the corresponding commentary relating to that quarter.
- 2.9 Section 7 Risk Scoring Definitions:** This section explains the risk scoring definitions in terms of what is meant by a inherent, residual and effectiveness of control risk score. It also outlines the risk scoring matrix that is used to score residual risk and a risk scoring mechanism for scoring the effectiveness of our controls.
- 2.10** Attached at **Annex A** is the **Quarter 2 Risk Summary Report**.

3. How do proposals evidence the Five Ways of Working and contribute to our Well-being Objectives?

- 3.1** Risk Management is an intrinsic part of corporate governance and integrated business planning which underpins the delivery of the Council's Corporate Plan

and its Well-being Outcomes. Our Corporate Plan has been structured around the Well-being of Future Generations (Wales) Act 2015, through the development of four Well-being Outcomes and eight Well-being Objectives. By aligning our Well-being Outcomes in the Corporate Plan with the Well-being Goals of the Act, this will enable us to better evidence our contribution to the Goals.

- 3.2** Corporate Risks are considered in the context of the Well-being of Future Generations in terms of their potential impact on our ability to deliver /meet the Well-being Goals. The multi-faceted nature of risk means they have the potential to impact on how we deliver our priorities within the Corporate Plan and ultimately impact on our ability to meet/deliver on the Well-being Goals. A failure to identify the different facets of risk and mitigating actions using the five ways of working puts us in a more vulnerable position in terms of our ability to manage the risks and could significantly impact on our ability to evidence our contribution to meeting the Well-being Goals into the longer term. For example, the Welfare Reform risk cuts across five of the seven Well-being Goals in relation to a Prosperous Wales, A Resilient Wales, A Healthier Wales, A More Equal Wales and a Wales of Cohesive Communities with multiple aspects of risk associated with Welfare Reform that have the potential to impact on our ability to contribute to these Goals. For instance the social impact of welfare reform could impact on tenant's health and their ability to heat their homes, live in good quality housing and feed themselves which directly impacts on the Healthier Wales and Cohesive Communities Goals. Equally there is the risk that welfare reform could have a detrimental impact on citizen's finances and their ability to sustain tenancies, access employment opportunities and pay bills. Collectively these could have an impact on our ability contribute to developing a Resilient Wales, Prosperous Wales, a More Equal Wales and Cohesive Wales Goals.
- 3.3** The five ways of working are also a key consideration in relation to our corporate risks as a key part of managing the risk involves developing a Risk Management Plan that identifies the mitigating actions that have a focus on the long term, prevention, integration, collaboration and involvement.

4. Resources and Legal Considerations

Financial

- 4.1** Managing and reducing risks effectively helps to prevent unnecessary expenditure for the Council, reduces the potential for insurance claims and rising premiums.

Employment

- 4.2** There are no direct workforce related implications associated with this report. However, there are risks contained within the Register that if not effectively managed has the potential to impact on our staff establishment. By managing these risks effectively we are in a stronger position to offer better protection to our staff.

Legal (Including Equalities)

- 4.3** Identifying, managing and reducing any risk effectively mitigates against potential legal challenge

CORPORATE RISK SUMMARY REPORT

QUARTER 2 APRIL 2019- SEPTEMBER 2019

CORPORATE RISK EXECUTIVE SUMMARY:

Overview:

There are 14 corporate risks on the Register (**see Section 1**).

Risk Statuses:

- 3 risks scored medium/high, 10 risks scored medium and 1 risk scored medium/low.
- The position of risks on the Register has remained largely unchanged, with the exception of the Deprivation of Liberty Safeguards risk that has dropped from a high (12) position on the Register to a medium/high (8) status. (**See Section 2**)

Direction of Travel:

- The majority of risks on the Register have remained static. The Deprivation of Liberty Safeguards risk score has decreased from a score of 12 (High) to a score of 8, giving it a medium/high status.
- Although the resource pressures and demand for assessments continues to exist, we have made good progress in putting in place mitigations to reduce the risk from a high (12) to a medium/High (8) status. This risk status has been reviewed and considered in context of other risks contained within the Register which are equally high risk e.g. Brexit. (**See Section 2**)

Forecast Direction of Travel:

- The Reshaping Services risk is forecast to escalate over time.
- Reshaping Services is likely to escalate as the Council's funding position continues to be challenging. Given that (in real terms) there has been a reduction in funding from the Welsh Government, this places significant pressure on our key services at a time when managing demand for these services is equally as challenging. (**See Section 2**)

Risk Management Plans:

- Overall strong progress has been made during Quarter 2 in relation to the actions associated with the Risk Management Plans across all aspects of the Register.
- In total there are 162 mitigating actions currently being monitored via the Register, the majority of which are linked to a Corporate Plan activity. During quarter 2, we have been able to assign a RAG status to 159 of these mitigating actions. (**See Section 5**)
- During quarter 2, a total of 13% actions (20) were completed, 77% (123) were on track and allocated a Green status. 2% (3) of actions were allocated an amber status for minor slippage and 8% (13) slipped and were allocated a red status. A breakdown of these individual exceptions is provided in **Section 6**.

Emerging risks and issues:

- **Additional Learning Needs Update**- We have continued to respond positively to the challenges associated with the Additional Learning Needs (ALN) risks. It is recognised that the challenges we face are similar to that experienced at the national level. The key driving forces associated with this facet of risk relate to growth in demand, our capacity and financial viability to meet the growing needs which have been further compounded by the impact of new responsibilities and duties arising from the Additional Learning Needs (Wales) Act.
- There has been a growth in numbers of children presenting with increasingly more complex additional learning needs. This impacts not only on the capacity of existing provision at Ysgol Y Deri (currently operating overcapacity) but also places a significant cost pressure on our budgets; with every pupil placement at Ysgol Y Deri costing an average of £25K. We are looking at ways to add further placement capacity within the existing Ysgol Y Deri site, with the view in the longer term of building a new Ysgol Y Deri Site 2 as part of the 21st Century Schools programme.
- We are increasingly faced with growing demand in relation to children and young people experiencing social, emotional and mental health difficulties. There is currently a lack of sufficient provision to meet this need at a local and national level. We are seeking to address this through our level through Social, Emotional and Mental Health action plan but it is a key challenge going forward.
- Many of the above issues have been compounded by the introduction of the ALN Act which has further expanded our duty of care to a wider age range of children and young people from 0-25 years old. The duty to support the early years and post 19 not only puts us under greater financial pressure but also impacts on our workforce capacity and the need for us to further expand to enable us to widen our services and bring in more specialist skills/support.

- However, adding further capacity to meet these growing pressures places our budgets under further financial pressure. Therefore, the focus of this risk becomes more about risk and cost avoidance rather than looking at cost savings.
- **Deprivation of Liberty Safeguards (DoLS) Update-** Nationally DoLS is recognised as an ongoing challenge across health and social care services and the issues we face locally are mirrored at the national level. The risk was previously scored high (12) due to the scale of the risk and its associated likelihood and impact. Unlike other areas within Social Services, there a greater likelihood of us defaulting on our statutory responsibilities in relation to DoLS. Due to the presence of assessments for the need for care and support the impact of this risk is predominately a financial one, with some reputational risks also. It is felt that given the additional mitigations we now have in place for example the additional legal resource that has given us added capacity to process applications and agree Deprivations of Liberty via the Courts in a timely way. Further, new legislative developments in relation to Mental Capacity (Amendment) Act and the associated Liberty Protection Safeguards (LiPS) will also go some way in providing us with greater resilience around this issue. It is hoped that the LiPS scheme will help to address the resource /capacity issues once this legislation comes into force. It is anticipated that the new legislation will run alongside the existing DoLS requirements from 2020 with the view of full implementation by 2021. In preparation for this, we will need to ensure our service complies with the new requirements. Over this coming year our focus will shift onto review our service to identify our readiness for these changes and to work with legal services to gain advice on the next steps of implementation. Further work on this will be progressed once the Code of Practice regarding this legislative change has been published. Although resource and capacity limitations will continue to impact on this risk, we recognise that the risk cannot be fully removed or mitigated against. Instead the focus is on how we can tolerate the risk using our existing capacity and resources effectively to mitigate the risk where possible.

That Audit Committee:

- Note the Quarter 2 position of Corporate Risks for the period April 2019-September 2019.
- Refer the Risk Register to Cabinet for consideration and endorsement.

SECTION 1: RISK DESCRIPTIONS

Risk Ref	Risk	Scope
CR1	Reshaping Services Appendix 1	Risk that the Council fails to deliver the Reshaping Services Programme and does not utilise alternative methods of service delivery and other approaches to mitigate the impact of budget reductions and demand for services which could result in further cuts to services impacting on their availability and quality.
CR2	Legislative Change & Local Government Reform Appendix 2	Inability to appropriately respond/adapt to new and emerging legislative change and reform developments across the breadth of Council services.
CR3	School Reorganisation & Investment Appendix 3	Inability to invest in improving and developing the quality of our school buildings. This could result in schools no longer being 'fit for purpose' and not meet the Welsh Government's '21 st Century Schools' agenda. Failure to effectively plan and provide sufficient school places to meet demand in relation to both English and Welsh Medium provision.
CR4	Waste Appendix 4	Failure to fund the national waste agenda and its associated targets.
CR5	Workforce Needs Appendix 5	Inability to anticipate and plan for workforce needs in the future in order to meet the changes in demand and provision of services. (Risk links to Reshaping risk and legislative reform risk)
CR6	Information Security Appendix 6	Failure to implement adequate information management controls and systems across the Council.
CR7	Environmental Sustainability Appendix 7	Failure to reduce our carbon foot print and mitigate against the impact/effects of climate change.
CR8	Welfare Reform Appendix 8	Roll out of Welfare Reform programme has a detrimental financial and social impact on residents.
CR9	Public Buildings Compliance Appendix 9	Failure to comply with our statutory responsibilities for ensuring the health, safety and welfare of both our staff and citizens when using Council owned and leased assets.
CR10	Safeguarding Appendix 10	Failure to meet our statutory responsibilities for responding effectively to situations where people are at risk of neglect or abuse.
CR11	Integrated Health & Social Care Appendix 11	Inability to develop, commission and implement alternative models of service delivery that fully integrate how we deliver health and social care services across organisational boundaries and on a regional footprint.
CR12	Unauthorised Deprivation of Liberty Safeguards Appendix 12	Failure to effectively safeguard adults who are at risk of deprivation of liberty.
CR13	Welsh Community Care Information System (WCCIS) Appendix 13	Failure to fully maximise and mobilise WCCIS functionality to ensure full implementation/development of the system across Social Services and over a regional footprint.
CR14	Brexit Appendix 14	Failure to effectively identify and respond to the changing policy and legislative landscape as a result of 'Brexit' and the impact this has on our ability to deliver services to our citizens.

SECTION 2: CORPORATE REGISTER SUMMARY

The table below provides a summary of the Corporate Risks broken down by their risk status in terms of their inherent (pre-control) risk score, the control risk score (how effectively the controls are managing the risk) and the residual risk score (post-control score). The table also gives an outline of each risk's direction travel, in terms of whether the risk is escalating or reducing as well as forecasting its future direction of travel. A definition of the risk matrix and effective of control scoring is outlined in **Section 7** of this report.

SECTION 3: OVERALL RISK HEAT MAP

The heat map below uses a risk matrix quadrant to plot the residual risk scores (based on likelihood and impact) of each Corporate Risk to provide an illustration of the groupings of risks within the heat map.

- The heat map for quarter 2 shows that the greatest number of risks congregate at medium status.
- Deprivation of Liberty Safeguards has reduced to a Medium/High (8) status.
- Safeguarding has maintained its Medium/Low (3) status.

SECTION 5: RISK MANAGEMENT PLAN- RAG STATUS OVERVIEW

The table below provides an overview of progress against the Risk Management Plans for each Corporate Risk.

- 90% (143) of actions were allocated a Green status (either completed or on track for completion), 2% (3) were given an Amber status and 8% (13) were allocated a red status at Quarter 2.
- 100% of risk actions contained in the Risk Management Plan for CR1: Reshaping, CR3: School Reorganisation and Investment, CR4: Waste, CR6: Information Security, CR9: Public Buildings Compliance, CR10: Safeguarding, CR13: WCCIS and CR14: Brexit have been completed or are on track for completion so have been allocated a green status.

SECTION 6: RISK ACTION EXCEPTIONS (RED STATUS)

Risk	Action Ref/Description	Commentary
CR2: Legislative Change & Local Government Reform	RM/A028: Review the effectiveness of the Information, Advice and Assistance Service and its associated pathways in relation to the provision of Family Information and Support.	Temporary Manager Vacancy within FACT has resulted in postponement of review to quarters 3 and 4. Recruitment process in place.
	CS/C040: Implementation/delivery of projects awarded Transformation funding.	A decision is still awaited from WG re the Directorate's second bid.
	AA/A034: Identify post-16 provision for ALN pupils and undertake preparatory work in readiness to progress the implementation of ALN & Education Tribunal (Wales) Act Regional Implementation Plan.	The post 16 work has not progressed as hoped in Q2. No further meetings have taken place, but these are scheduled for Q3. The Welsh Government have recently put back the implementation date for the ALN Act by a year to September 2021 in order to provide more time to prepare for the impact of the Act. This is a particularly complex area of change and the additional time provided by the delay in the implementation of the Act will be needed.
CR5: Workforce	AA/A035: Engage in discussions with the Welsh Government about roles, responsibilities and resources for post-16 ALN provision.	The post 16 work has not progressed as hoped in Q2. No further meetings have taken place, but these are scheduled for Q3. The Welsh Government have recently put back the implementation date for the ALN Act by a year to September 2021 in order to provide more time to prepare for the impact of the Act. This is a particularly complex area of change and the additional time provided by the delay in the implementation of the Act will be needed.
	HR/A009: Work with Department of Work and pensions to provide a range of work placement/work experience opportunities in the Council for volunteers in receipt of state benefits.	Two placements continue to be employed via agency in the Council. Further work is required to look at how we integrate this within our wider work experience offering. We will make contact with DWP and discuss how we further utilise this offering.
CR7: Environmental Sustainability	HR/W068: Refine how learning is delivered corporately by developing, implementing and supporting a self-directed approach.	The review was undertaken, and the findings have yet to be actioned. The intention is to step up this action into Q3 to enable the majority of work to be completed by Q4. This is in line with the aim of supporting every competency to have associated training by the end of Q4
CR7: Environmental Sustainability	FIT/A006: Implement the Re:fit (energy efficiency improvement) programme across the Council and work with services to ensure they benefit from the scheme.	There have been some delays in respect of the investment grade proposals (IGPs) received from the contractor which in some cases fail to meet the Salix loan criteria. We will be organising a project board meeting to discuss the options. It is likely that with the project board's approval we can move forward and deliver the majority of the projects in the IGP documents in a slightly different way.

Risk	Action Ref/Description	Commentary
CR8: Welfare Reform	HS/A076: Develop a co-ordinated approach to tackling fuel poverty recognising the expertise and contribution of Registered Social Landlords towards achieving this goal.	Adopting a fabric first approach to new build development at Mas y Ffynnon and continuing to identify a suitable zero carbon development at the former colcot Clinic. Attendance at Welsh Government seminars to explore new standards for WHQS. Renewable technology solutions being assessed at Longmeadow Court.
CR11: Integrated Health and Social Care	AS/A042: Implement a 'Team around an individual' approach to Dementia Services.	The service model has been reviewed and clinical leadership will change as a consequence of pending retirement. Challenges in getting the model and staffing correct. Ongoing discussions to remedy this and ensure that the planned project outcomes are delivered accordingly.
	AS/A043: Work with partners to develop a Vale Locality Model in response to the recommendations of the Parliamentary Review.	Funding only confirmed at end of September through Transformation monies. Research into other models of Alliancing being explored and set up visits for early in Quarter 3, plans to then recruit Project Management/Consultancy resource to progress this work under Transformation scheme for the next 12 - 15 months.
	AS/A044: Explore the development of an integrated model for Long Term Care Service and Nurse Assessor Team at Ty Jenner.	Health partners are not in a position to jointly fund the Integrated Team Manager post, so this is on hold. Meeting planned with UHB Organisational Development, HR and the Leadership Team to endeavour to provide assurance and move forward in Qtr 3 and 4.
	AS/IT053: Explore the use of technology to further enhance integration and communication with our partners.	The Vale locality is trying to minimise its travelling time to meetings by using video conferencing to 'attend' meetings. However, the two systems are not compatible at present and we are awaiting further information re workarounds. There has been no further progression during quarter 2.
	<p>RM/A041: Undertake a formal review of existing pooled arrangements and where necessary put in place formal agreements.</p> <p>AS/AM044: Consider our assets in partnership with other partners to make best use of our pooled resources.</p> <p>AS/AM041: Review the quality of our existing assets to ensure they are 'fit for purpose' both now and in the future, which includes identifying options for the way forward the delivery of integrated health and social care services.</p>	<p>Existing pooled arrangements are monitored as part of the Regional Commissioning Board.</p> <p>Given the integrated nature of our Division through the Vale Locality we continue to use our buildings flexibly across Health and Council. We explore the opportunities for joint ventures through the Reshaping Asset Board which the Head of Adults Service is a member for the Directorate. The 'shared properties' meeting for the quarter was cancelled, and hence progress has stilted in regards to getting formal arrangements written and signed, but we continue to work in partnership with Health colleagues re our assets and identify opportunities for investment and renewal.</p>

SECTION 7: Risk Scoring Definitions

Inherent and Residual Risk Scoring

The Inherent Risk defines the risk score in a pre-control environment i.e. what the risk would look like (score) without any controls in place to manage the risk. The Residual Risk can be defined as the subsequent risk score as a consequence of applying controls to mitigate this risk.

Both inherent and residual risks are defined by two variables the Likelihood of the risk occurring and the Possible impact of that risk occurring. The higher the score allocated for the risk the higher the overall risk status.

See matrix below:

Possible Impact or Magnitude of Risk	Catastrophic	4 <i>MEDIUM</i>	8 MEDIUM/HIGH	12 HIGH	16 VERY HIGH
	High	3 <i>MEDIUM/LOW</i>	6 <i>MEDIUM</i>	9 MEDIUM/HIGH	12 HIGH
	Medium	2 LOW	4 <i>MEDIUM</i>	6 <i>MEDIUM</i>	8 MEDIUM/HIGH
	Low	1 VERY LOW	2 LOW	3 <i>MEDIUM/LOW</i>	4 <i>MEDIUM</i>
Low 1-2 Low/Medium 3 Medium 4-6 Medium/High 8-10 High 12-16		Very Unlikely	Possible	Probable	Almost Certain
Likelihood/Probability of Risk Occurring					

Effectiveness of Controls Score

Controls can be scored 0-4 in terms of their effectiveness at controlling risk in terms of likelihood and impact. Zero implies poor control of the risk whereas a four would suggest controls in place are highly effective. This is based on scoring how effective the controls are at reducing a) the likelihood of and b) the impact of the risk. See table below

Score	Effectiveness of control
0	Very Low control of the risk
1	Low control of the risk
2	Medium control of the risk
3	High control of the risk
4	Very high control of the risk

1.1 Risk Description

Failure to deliver the Reshaping Services Programme

There is a risk that the Council fails to deliver the Reshaping Services Programme and therefore does not utilise alternative methods of service delivery and other approaches to mitigate the impact of budget reductions and demand challenges, thereby resulting in further cuts to services significantly impacting their availability and quality.

There is the risk associated with pursuing the Reshaping Services agenda, namely the new skills and capacity required to manage significant change at a time of diminishing resources and using approaches that are relatively new concepts to the Council and its partners.

There is also the risk of a judicial review particularly in relation to Reshaping Services agenda where new models of service delivery are developed. This could have both financial and reputational consequences if a judicial review finds our actions to be unlawful.

Outlined below is a summary of the progression of some of these proposals.</p> <p>In relation to Neighbourhood Services, meetings have been arranged to progress procurement of a camera car to support parking enforcement with a viewing of purchasing during quarter 3. The enforcement team now in place for environmental (waste) aspects of work cameras are currently being purchased and associated software is being implemented. In the meantime, paper tickets are being issued. CPE TUPE is in process for Parking Enforcement. Good progress has been made in relation to CAT of Bowling Clubs. Bowling clubs are taking over the responsibility of own clubs. Parking Charges associated with the Parking Strategy are due to be reconsidered in Quarter 3 and School Transport provision remains under review.</p> <p>The Catering project team continues to prepare for the launch of The Big Fresh Catering Company. The team are on track to take a report to Cabinet to present the updated Business Plan in the coming months. The company has now been incorporated and the purchase and delivery of the Airstream trailer for the company's commercial mobile arm has taken place. A TUPE timeline has been created to begin this process, subject to Cabinet approval.</p>

ACTION UPDATE:	<p>Good progress has been made during quarter 2 in relation to delivery of Tranche 4 projects associated with the Reshaping Services programme. Outlined below is a summary of the progression of some of these proposals.</p> <p>In relation to Social Services, Ongoing monitoring is in place for the Resource Management and Safeguarding division and progress continues to be made. Within the Adults Division, the identified savings are on track for this financial year in relation to the value. However, some projects that we identified have been delayed due to the need to engage and consult and seek cabinet approval - these areas will not deliver savings in this financial year as we complete the consultation exercise in September and will need to present findings to Cabinet. Programmes relating to the Reshaping Services and Social Services Budget Programme have been achieved in relation to the Children and Young People's Service division.</p> <p>Within Regeneration and Planning, the service continues to work with the reshaping board to identify efficiencies and possible savings. Examples of proposals include streamlining and improving the process around filming agreement, improving sponsorship opportunities including the use of Building Control vehicles, and planning publications. Other site-specific opportunities continue to be progressed including the production of a new brochure for 2020/21. The planning department has continued to offer further commercialisation with inter-departmental consultancy work and Planning Performance Agreements bringing in further income. This work is an ongoing process and will be undertaken throughout 19/20.</p>

	<p>In relation to Housing and Building Services, now that the Customer Portal is now 'live' and tenants have registered to use the service our work has focused on the promotion of the Portal and this has taken place with an email bulletin shared with all tenants who hold a valid email address. This has proved to be effective and resulted in over 50 new requests for access to the Portal. Work has been undertaken to explore potential for online repairs reporting to be offered, however discussions with our ICT software provider has identified that the work required would cost in the region of £50k. Given the high costs, this work will not be progressed at this time and will be put on hold pending the replacement the OHMS system. In relation to progressing a Digital Transformation Strategy for Housing and Building Services, an IT Consultant appointed in September following discussions with Corporate IT and Business Improvement team. A number of client workshops have been held to identify IT needs. An interim report is due in December. The Strategy will follow in Q4.</p> <p>Developing an options paper on the future use of the Records Management Unit that focuses on maximising the use of digital technology is on hold pending the review as to whether the Records Management Unit accommodation is required for alternative use. The draft proposals are due to be considered by the Telecare Group during quarter 3.</p> <p>Third Party Spend/Procurement:</p> <p>In addition to the Programme Management activity underway, monitoring arrangements have been put in place to progress the 3rd Party Spend project and accountants are supporting services to realise these savings. Within Finance, ICT & Property, savings have been identified in Finance and the service is currently on track to make the required reductions. In relation to the roll out of digital procurement and invoicing across the Council, despite some slippage in the previous quarter, a review of ICT systems commenced in quarter 2.</p> <p>In relation to procuring and implementing a Hybrid Mail solution, work is progressing to deliver the proof of concept on the basis of the initial project plan. 	<p>Income Generation:</p> <p>Work on the Income Generations and Commercial Opportunities programme continues, monitoring those in-year projects associated with income generation and in developing further schemes for consideration to contribute to future tranches of Reshaping activity. During the quarter we have explored and implemented new ways of generating income. Work on the Income Generations and Commercial Opportunities programme continues, monitoring those in-year projects associated with income generation and in developing further schemes for consideration to contribute to future tranches of Reshaping activity. For example, work is ongoing to implement a new income management system which will improve the Council's ability to collect income at the point of purchase. There is also ongoing discussion with officers regarding the licensing of future approved premises for wedding ceremonies.</p> <p>Project group meetings continue to be held in relation to implementing a single user full cost recovery policy for clubs / organisations that do not take on transfer responsibilities. Discussions are on-going in relation to tranche 2 sites with licences rather than leases likely to be the outcome. In relation to the review current fees and charges for Neighbourhood Services and Transport a report is due to be presented to Cabinet in Quarter 3. Within Regeneration and Planning, the service continues to work with the reshaping board to identify efficiencies and possible savings. Examples of proposals include streamlining and improving the process around filming agreement, improving sponsorship opportunities including the use of Building Control vehicles, and planning publications. This has now culminated in the update to the Charter with town and community councils and an approach for Cabinet's consideration in Q3 of how to progress these discussions. The work with the voluntary sector is being led by a review of funding arrangements, in accordance with guidance from the WAO. This was discussed at the Voluntary Sector Joint Liaison Committee in July, where proposals to focus activity around an area of Reshaping Services (for example, volunteering) were explored. 	<p>Demand Management</p> <p>Work is continuing to review integration opportunities with cloud and on-premise systems / applications. Certain blockers have been identified and a project team has been convened to look at how these integration barriers (Oracle) can be overcome. Oracle have been in to meet with a wider project team to discuss their cloud services and how one would migrate the current on-premise system to the cloud. Other cloud systems are being reviewed in Visible Services, Housing and Council Tax & Benefits Services, with a consultant being commissioned to carry out the pre-procurement work on the Housing project. We have continued to focus on develop provision to address the increasing demand for placements in relation to pupils with Autistic Spectrum Disorders (ASD) and complex social, emotional and behavioural difficulties within the Vale. For example, Additional provision has been established for foundation phase and KS2 pupils and these are now operational. Consideration is still being given to the provision required at KS3 and 4. Good progress has been made with developing a new dashboard application for the monitoring of care packages. A service request form has been produced for development using the Welsh Community Care Information System (WCCIS). The new functionality will fulfil a number of tasks currently undertaken via email including requests for care packages. It is anticipated that the move to completing, authorising and brokering care packages via WCCIS will be fully implemented by quarter 3. In relation to Adult Services, we continue to increase provision and take up of Direct Payments. It continues to be offered as the first option for all care and support at home arrangements. The transition to CHS for people receiving Direct Payments remains problematic and a significant barrier to update for people with complex needs.</p> <p>Voluntary & Third Sector</p> <p>The library service is currently refreshing the Service Level agreements with all 5 Community libraries and will continue to support them with peripatetic staff. The Friends of the Arts Central gallery Group have increased their numbers in the past year and the friends of Library Groups have continued their programme of fundraising and awareness events across the Vale including attending School Fetes. In relation to extending our work with voluntary, private and public sector bodies to further enhance Education Other Than at School (EOTAS) provision for Vale pupils, the EOTAS provision endorsed by the Council has been compiled into a directory for schools detailing the relevant information. The new Social Emotional Mental Health Panels (SEMHP) will deliver this more widely to schools and services and will ensure the best fit for clients faced with needing EOTAS support. A new Bi-Weekly meeting with the EOTAS leads and Martin Dacey has been put in place to monitor young people's progress.</p>

1 – Risk Overview	
1.1 Risk Description	<p>This risk focuses on how we respond to new and emerging legislative requirements, particularly where the nature of the legislation is cross-cutting in terms of the impact it has on a variety of service areas. There is the risk that there is a failure to be able to effectively co-ordinate the implementation of significant legislative change across the breadth of Council services/functions. This applies to key pieces of legislation such as the Well-being of Future Generations Act, the Social Services and Well-being Act and the emerging local government reform agenda.</p> <p>The Well-being of Future Generations Act came into force in April 2016. The primary aim of the Act is to ensure public bodies improve the economic, social, environmental and cultural well-being of Wales in accordance with the sustainable development principle. Following our experience as an early adopter, we introduced a new Corporate Plan 2016-2020. The new Corporate Plan has been designed around a set of four well-being outcomes and eight well-being objectives which will ensure consistency, across all Directorates, with the seven Well-being goals specified by the Act. The risk can be defined as the failure to meet requirements of the Act and embed the sustainable development principles and therefore fail to contribute towards meeting the Wellbeing Goals (and the associated five ways of working) into all aspects of our service delivery.</p> <p>The Social Services and Well-being Act also came into force in April 2016; it places an emphasis on:</p> <ul style="list-style-type: none"> • Voice and control-putting the individual and their needs at the centre of their care and giving them a voice and control to define their outcomes and achieve wellbeing. • Prevention and early intervention-increasing preventative services within communities to reduce the need for more intensive intervention. • Wellbeing-is about supporting people to identify outcomes and supporting them to achieve their own wellbeing. • Co-production-involves encouraging people to become involved in the design and delivery of services with a focus on alternative delivery models and using social enterprises, co-operatives, user-led services and the voluntary sector. <p>This work is being undertaken at both a local and regional level, driven through the Cardiff and Vale Integrated Health and Social Care Partnership Board. The risk can be defined as the non-compliance with requirements of the Act by failing to improve the wellbeing of people and their carers who</p>

need care and support as well as the failure to effectively transform service delivery across social services in line with the Act.

There continues to be a risk in relation to the proposed new Local Government Bill in terms of reforming Local Government. The emphasis has been on regional working/collaboration. The areas of regional working focus around economic development, strategic land use planning and strategic transport in relation to three larger regions; North Wales, Central and South West Wales and South East Wales with scope for sub-regional working. The key risk associated with this is the effectiveness of regional working arrangements and their ability to deliver localised services that best meet the needs of communities.

Whilst the Welsh Government has indicated that merger arrangements are not to be progressed for all local authorities, there is uncertainty relating to the reform agenda. A working group has been established by WG and are currently working on a number of key themes, including collaboration and shared services as part of delivering the Local Government Bill, which is due to be introduced to the National Assembly for Wales in November 2019 for consideration.

The Additional Learning needs and Education Tribunal (Wales) Act 2018 looks to transform the system for supporting children and young people additional learning needs in Wales. Although the legislation and statutory guidance is just one part of the reforms that are being introduced it will have a fundamental impact on how ALN provision is delivered in the future. The encapsulates 11 main aims that is supported by a wider range of reforms, measures and sub-ordinate legislation as well as an Additional Learning Needs Code that will sit alongside this Act. The new legislation brings together a single legislative framework for children and young people from birth up to the age of 25 who have additional learning needs. This expands on our previous remit which was 3-19 years. The ALN Code will provide the detail of how assessments and decisions regarding provision are made. Section 9 sets out the same duty on governing bodies of both schools and Further Education Institutions (FEIs) to decide whether pupils/students have ALN 'where it is brought to [their] attention or otherwise appears to [them]' that they 'may have ALN'. Where a governing body of a school or FEI decides that a pupil/student does have ALN, section 10 of the Bill will require them to prepare and maintain an Individual Development Plan (IDP) for them (with statements, School Action and School Action Plus no longer existing). Therefore, all learners with ALN would have the same type of statutory plan irrespective of their age or whether they are in a school, a school sixth form or an FEI. The other significant change as part of the Act, is that it intends to improve transition by transferring the responsibility for post-16 provision from Welsh Ministers to Local Authorities. This will require local authorities to work with post-16 providers to work together to plan and provide services collaboratively. There is the concern that this legislation could lead to a dilution in support services for those who have the most severe and complex needs (i.e. those who previously had statements) especially if all learners will now require the same type of statutory plan. The

	<p>Act also has a much greater focus on working collaboratively, particularly in relation to health bodies. The Act also allows for greater involvement and participation amongst children and young people and gives parents/carers and young people the right to appeal against decisions made regarding their ALN and/or IDP. Local Authorities will also be required to provide access to independent advocacy services. There is also the expectation that services will be available through the medium of Welsh to create parity of provision, which is likely to have an impact on our ability to meet Additional Learning Needs. To support the implementation of this transformation programme, the Minister for Lifelong Learning and Welsh Language announced a £20million funding package. The overall risk associated with this new legislation, relates to our capacity and capability to effectively meet the Additional Learning Needs of our learners from birth to 25. This is against a backdrop of growing demand for ALN provision due to increasing numbers of children and young people presenting with increasingly more complex needs. This is likely to impact on our ability to meet those needs in line with requirements of the legislation at a time when our budgets are already under pressure.</p>

		Failure to represent the Vale of Glamorgan Council's position in relation to the Local Government Reform agenda, as a local authority in its own right providing services to our residents.
Resources	Yes	<p>Insufficient funding to ensure that we can meet our legislative requirements associated with the Social Services Wellbeing Act, Wellbeing of Future Generations Act, and the proposed new Local Government Bill.</p> <p>The financial management of responding to and resourcing legislative changes/Local Government Reform across a breadth of services and the impact of any reform will be a major undertaking, and developing adequate arrangements for managing these aspects will be key.</p> <p>Insufficient knowledge and expertise to fully meet the new requirements of the Additional Learning Needs Education Tribunal Act. This could have significant training and development implications for the local authority staff as well as school-based staff.</p> <p>Lack of capacity to meet extended requirements of ALN provision (from birth to 25 years) The legislation will require a significant amount of additional provision to be created without sufficient additional financial resources.</p> <p>Insufficient funding to deliver our additional duties under the Additional Learning Needs Educational Tribunal Act. The discharge of new responsibilities/duties under the Act (in relation ALN provision from birth to 25) could present a significant financial risk to the Council where there is already a growing need for ALN provision. Only a finite amount of funding will be transferred from the Welsh Government to fulfil the duties, which is likely to be insufficient to fully meet needs.</p> <p>Loss of EU funding impacting on our ability to sustain delivery of these programmes.</p> <p>Inability to access vital supplies (e.g. food, water fuel, medicines, materials, goods etc) from EU countries and increased costs associated with imported goods due to the potential imposition of tariffs.</p> <p>Loss of EU staff from business critical/hard to recruit positions. 1 – Risk Overview						
1.1 Risk Description		<p>This risk encompasses funding key priorities set out in the 21st Century Schools Investment Programme as well as smaller scale asset renewal schemes. It also includes school reorganisation as the reduction of surplus places and condition of school buildings are the primary criteria for securing 21st Century Schools grant funding. We anticipate further demand for school places emerging as a result of new and expanding housing developments. Whilst the requirement for increased capacity in certain areas has been identified, in many cases there will be insufficient s106 funding to cover costs placing increased pressure on available funding.</p> <p>There is a risk associated with securing the necessary capital required to fund major investment projects as well as addressing building conditions across all Vale schools. The lack of available funding to address all requirements will result in buildings deteriorating further giving rise to risks associated with health and safety, DDA, business continuity and sustainability.</p> <p>Failure to establish sufficient Welsh medium places in both the primary and secondary sector would impact on the Vale’s ability in contributing to the Welsh Governments plan of one million Welsh speakers by 2050, and commitments required as part of the Council’s Welsh in Education Strategic Plan, and could directly impact on the Vale’s ability to secure 21st century schools funding in the future.</p>				
1.2 Risk Owner		Head of Strategy, Community Learning and Resources (TB)				
1.3 Impact on our contribution to the Wellbeing Goals						
A Globally Responsible Wales	A Prosperous Wales	A Resilient Wales	A Healthier Wales	A More Equal Wales	A Wales of Cohesive Communities	A Wales of Vibrant Culture and Thriving Welsh Language
No	Yes	No	No	Yes	No	Yes

1.4 Risk Categories		
Categories	Yes/No	Definition
Political & Legislative	Yes	<p>Inability to meet Welsh Government guidance by failing to retain no more than 10% surplus places. Failure to improve the quality of buildings to make them safer and more accessible, resulting in a breach of our duties under the Health and Safety Act Disability Discrimination Act.</p> <p>The Council could fail to meet the statutory requirement to meet the demand for Welsh medium school places and the need to meet the Welsh Government commitment for one million Welsh speakers by 2050.</p>

1.4 Risk Categories		
Categories	Yes/No	Definition
Resources	Yes	<p>Failure to deliver the programme in line with plans approved by Welsh Government could impact on the Council's success in securing grant funding in future bands of the 21st Century Schools Programme.</p> <p>There is the risk that insufficient s106 money will impact on our ability to secure sufficient places in schools where there is the highest demand for places.</p> <p>The Council's success in securing capital receipts is critical to the delivery of the programme. Failure to generate capital receipts would result in increased prudential borrowing, the cost of which would fall to be met from the education revenue account at a time when services will be required to identify substantial savings as a result of reductions to the Council's aggregate external financing.</p> <p>Failing to reduce surplus places through investment impacts on effective resource management in schools.</p> <p>Insufficient funds to carry out prioritised asset renewal schemes impacts on health and safety.</p> <p>A requirement of 21st Century Schools is that all grant funded schemes should meet BREEAM Excellent which addresses wide-ranging environmental and sustainability issues. Failure to deliver schemes would impact adversely on a range of factors including energy efficiency, carbon emissions, minimising waste and improvements to community involvement and social inclusion.</p>
Service Delivery and Wellbeing	Yes	<p>Failure to implement an appropriate school reorganisation programme as a result of not achieving our surplus place target. Impact of new housing developments is likely to place a significant pressure on school place planning. Insufficient capital funding for building works could lead to further deterioration resulting in implications for health and safety. Funding for adaptations to schools under Disability Discrimination Act is limited and could result in a pupil not being able to attend the school of choice or not being able to access facilities used by other pupils.</p> <p>Failure to meet demand for Welsh medium education.</p> <p>Impact of a poor learning environment on a pupil's learning experience if we fail to meet the 21st Century Schools standards.</p>
Reputation	Yes	<p>Failing to provide the right type and number of school places in the right areas could result in the Council being in breach of statutory requirements which would impact on its reputation. Similarly, closure of schools as a result of building failure would attract negative publicity and criticism from the community and regulators.</p>

1 – Risk Overview

1.1 Risk Description

This risk relates to the effectiveness of diversionary activities and initiatives in place to meet the requirements of the European Landfill Directive. There is a Statutory Target for Recycling based on the Welsh Government's 'Towards Zero Waste' Waste Strategy. Aligned to this are national statutory landfill reduction/ diversionary targets. Failure to meet the national waste agenda and meet its associated targets increases the likelihood of incurring significant fines and could have detrimental impact on the Council's reputation.

The biggest shift change has been in relation to reducing the volume of residual waste. During 2018/19 the Council secured capital funding from the Welsh Government's Collaborative Change programme as part of the Waste Strategy to implement a restriction of residual waste. As of the 3rd September 2018, all households across the Vale of Glamorgan were restricted to putting out two bags per fortnight (with exemptions for those with six or more residents, pet waste/bedding, ash from household fires/log burners and adult hygiene products). To oversee this roll out and enforcement, waste wardens have been appointed. Early indications show that this service changes have resulted in over a 30% reduction in residual waste.

In progressing our Waste Strategy, we continue to look at ways of further increasing our recycling rates across the Vale of Glamorgan. Although the Vale of Glamorgan Council continues to be one of the top performing authorities for meeting its recycling targets, more recently we have experienced a growing problem with contamination. This has been due to non-recyclable items such as soiled nappies, food waste and cat litter being mixed with recycling. To combat this problem and to reduce our use of single use plastic, the use of single use plastic bags for placing out recycling has been removed. Recyclable waste will only be collected if it is placed in Council-issued bags/boxes.

The roll out of the Waste Blue Print has commenced. This is seeing us make the transition from the collection of co-mingled recyclables to source-segregation of recycled materials. As this is a significant shift change for how we operate our services and our residents, this change is being introduced as a phased roll out that started in the rural Vale on the 14th October 2019, with the remaining areas to follow in 2020/21.

Categories	Yes/No	Definition
Political & Legislative	Yes	Failure of contract agreements associated with our waste collaborations. Failure to comply with statutory waste targets and the associated Welsh Government guidance.
Resources	Yes	<p>Inability to streamline our approach to optimise productivity as consequence of budgetary cuts and/or staff shortages that will impact on our performance against waste reduction targets.</p> <p>Inability to effectively monitor and manage our contract agreements resulting in poor contractual compliance and performance.</p> <p>Council incurs fines as a result of failing to meet statutory waste reduction targets.</p> <p>National Welsh Government grants are withdrawn as a result of failing to meet statutory waste reduction targets.</p>
Service Delivery and Wellbeing	Yes	<p>Failure to increase recycling rates and reduce landfill waste to an acceptable level (zero waste by 2050). This risk has multiple potential environmental impacts including:</p> <p>i.e. climate change implications (waste currently contributes around 4.7% of direct greenhouse gas emissions in Wales);</p> <p>ii. pollution of the local environment (e.g. contamination of groundwater; soil contamination).</p> <p>Failure to effectively communicate and engage with residents regarding the importance of recycling and composting resulting in poor buy in and reduction in recycling rates.</p> <p>Poor engagement with the hard to reach section of our community resulting in lower recycling and composting take up rates.</p> <p>Poor communication following any change in collection methodology resulting in poor take up of recycling and composting services.</p> <p>Increasing waste budget pressures as a result of new developments and an inability to deliver savings in waste management services.</p>
Reputation	Yes	Failure to meet the statutory waste targets and comply with the Welsh Government's waste strategy would have a detrimental impact on the resident's perception of Council services and would attract criticism from our external regulators and Welsh Government.

1 – Risk Overview	
1.1 Risk Description	<p>As the Council continues to go through significant change over the next few years it is imperative that we are able to anticipate the human resources implications of such change and ensure that we have a number of people with the right skills and experience to deliver the services of the future. In managing the risk it is important to consider the particular challenges presented by the current financial pressures within the public sector, the need to ensure the engagement of staff throughout the change process and the need to plan for and respond to issues of anticipated skills shortages. We continue to experience difficulties in recruiting and retaining staff in some key service areas across the Council e.g. namely health and social care (residential care, domiciliary care). Skill shortages exist in some areas like Legal, accountancy Planning, ICT where market forces have impacted on our ability to recruit and retain skilled/qualified staff.</p> <p>This risk needs to be considered alongside the Council's reshaping services agenda and the potential impact the proposed model of local government reform could have on our workforce. Therefore, the innate risk is the inability to anticipate and plan for the workforce needs of the future in order to meet the changing service requirements.</p>

E.g. Inability to recruit and retain staff in business critical posts due to the impact of market forces and/or skill shortages.</p> <p>It would also lead to an inability of leadership to respond to the changing policy landscape and the challenges this presents, impacting on our ability to deliver good quality services to meet the needs of our citizens. Loss of leadership impacting on our ability to continue to drive forward organisational change.</p> <p>There would be a potential failure to effectively engage and mobilise our resources to deliver our workforce priorities and have the appropriate skills in place, in the right areas to deliver services effectively.</p> <p>Failure to maintain momentum regarding staff engagement.</p>
Service Delivery and Wellbeing	Yes	<p>Failure to properly anticipate and respond to future workforce needs could pose a threat to the effectiveness and viability of sustainable service delivery and its ability to meet achieve the outcomes and priorities set out in our Corporate Plan.</p> <p>There would be a potential inability to anticipate and plan for workforce needs of the future in order to meet changing service requirements.</p> <p>There would also be an inability to manage and support organisational change impacting on our ability to deliver sustainable services both now and in the future.</p>
Reputation	Yes	<p>Negative perception of the Council amongst citizens as an employer impacting on recruitment and retention rates across the organisation.</p> <p>Failure to put in place succession pathways in place to address our ageing workforce in specific service areas.</p> <p>A key aspect of the workforce plan (section 6/theme viii) is the need to ensure the Council have a workforce that reflects the wider community. Within this are specific aspects to ensure that measures are taken to ensure representation from protected groups under the Equalities Act 2010. A particular feature of this includes strategies to deal with occupational segregation and address the gender pay gap that exists nationally and locally. A failure to implement actions within the workforce plan would impact adversely on such equalities commitments and our reputation as an employer.</p>

During quarter 2, we have attended Careers Fairs to discuss apprenticeship opportunities and we continue to challenge managers on opportunities to use apprenticeships, graduate and trainee opportunities in recruitment to develop our 16 - 24 age bracket. Also, during the quarter 2 period there has been a greater focus on the use of digital technology to enhance our reach to the 16-24-year-old age group to attract them to roles within the local authority. We have attempted to progress this through the launch of e-recruit portal and the development of a mobile enabled web page that assists candidates to apply for positions more easily via their mobile devices. During quarter 3, our focus will be working with our recruitment colleagues to discuss ways of further promoting</p>

1 – Risk Overview	
1.1 Risk Description	<p>Information Security involves the practise of preventing the unauthorised use, access, disclosure, disruption, modification, inspection, recording or destruction of information. This definition applies regardless of the form data/information may take i.e. electronic or physical.</p> <p>Local authorities have a duty to safeguard the data/information in line with requirements of legislation such as Data Protection Act 1998 and Computer Misuse Act 1990. In addition to legislative requirements there are also identified standards that public bodies can work towards to further enhance and strengthen their approach to information security such as compliance with the Public Services Network, Payment Card Industry and IS027001 that governs information security management.</p> <p>The General Data Protection Regulation is a regulation that has been made by the European Parliament, The Council of the European Union and European Commission which is intended to strengthen and further unify the approach to data protection across the EU. This new regulation has applied in the UK since 25th May 2018. The principles of the GDPR are similar to the those set out in the Data Protection Act, but with additional details regarding accountability and governance requirements and specifically requires organisations to show how they comply with the principles by documenting decisions the organisation takes in relation to processing activities. The Regulations have been designed to further minimise the risk of data breaches and uphold the protection of personal data, which is likely to result ensuring robust policies and procedures to ensure good governance measures are in place. The key risk associated with this is that we fail to meet the requirements of this regulation and safeguard our information and data.</p> <p>The key risk associated with this is the failure to implement adequate information security management systems across the Council.</p>

1 – Risk Overview

1.1 Risk Description

Action on climate change covers two areas: mitigation and adaptation. Mitigation relates to action taken to tackle the causes of climate change i.e. by reducing greenhouse gas emissions. Adaptation relates to action taken to adapt to the unavoidable effects of climate change caused by increased concentrations of greenhouse gases from human activities. Locally the immediate impact of climate change include hotter temperatures, warmer, wetter winters, hotter, drier summers, increased summer time thunder storms and intense rainfall and the reduction of some animal and plant species, more severe flooding of coastal and river areas and also flash flooding throughout the authority. The key risk relates to our failure to mitigate against the impact of climate change.

The Vale of Glamorgan must act as a responsible authority and in 2006 signed the “Welsh Commitment to Address Climate Change”. The commitment outlines the council’s contribution to the delivery of the national climate change programme, working with the local community to address the causes and effects of climate change, reduce the council’s own emissions, encourage all sectors of the local community to reduce their own emissions, work with key providers to adapt to changes, and provide opportunities for renewable energy generation within the area.

Following the publication of the Inter-governmental Panel on Climate Change’s (IPCC) Special Report on Global Warming of 1.5 C, the Welsh Government declared a Climate Emergency in Wales in April 2019. In response to this, the Leader and Deputy Leader submitted a motion to full Cabinet stating that the Council should also seek to declare a climate emergency in the Vale of Glamorgan. This motion was upheld by Full Council on 29th July 2019 with 29 votes in favour of the motion, 1 vote against and 14 abstained.

As part of this commitment the Council resolved it will:

- Reduce its own carbon emission to net zero before the Welsh Government’s target of 2030 and will support the implementation of the Welsh Government’s new Low Carbon Delivery Plan, to help achieve the Welsh Government’s ambition for the public sector in Wales to be carbon neutral.
- Make representations to the Welsh and UK Government’s, as appropriate, to provide the necessary powers, resources and technical support to local authorities in Wales to help them successfully meet the 2030 target.
- Continue to work with partners across the region to develop and implement best practice methods that can deliver carbon reductions and help limit global warming.

	<ul style="list-style-type: none"> Work with local stakeholders including Councillors, residents, young people, businesses and other relevant parties to develop a strategy in line with a target of net zero emissions by 2030 and explore ways to maximise local benefits of these actions in other sectors such as employment, health, agriculture, transport and the economy. <p>In response to the is Climate Change Emergency Declaration, the Insight Board has undertaken some initial work to identify key areas of activity across the Council that are contributing to this declaration.</p>

1.4 Risk Categories		
----------------------------	--	--

Categories	Yes/No	Definition
<i>Political & Legislative</i>	Yes	<p>Failure to meet legal duties in relation to the Flood and Water Management Act.</p> <p>Inability to meet Welsh Government requirements for Statutory Transport Guidance as it relates the Active Travel and Learner Travel Wales.</p> <p>Failure to define our vision, ownership and responsibility for addressing climate change issues.</p> <p>Inability and capacity of the Council and its key partners to work effectively together to meet its climate change commitment by 2030 and contribute to the climate change agenda locally.</p> <p>Failure to fully utilise our land use planning framework and other policy levers to become more resilient to climate change and its effects.</p>
<i>Resources</i>	Yes	Limited asset renewal funding could result in the Council not being able to meet its CO ₂ reduction target set out in the Carbon Management Strategy and Implementation Plan.

1.4 Risk Categories		
Categories	Yes/No	Definition
		<p>Increased pressure on limited resources as a consequence of increased areas of maintenance.</p> <p>Insufficient funding availability to fully implement programmes/initiatives to reduce our carbon footprint.</p> <p>Annually shrinking budgets will impact negatively on consistently achieving high standards of cleanliness of the local environment.</p> <p>Impact of our failure to meet our commitments under the CRC Energy Efficiency Scheme and its associated financial benefits.</p> <p>Council incurs fines as a result of failing to meet statutory waste reduction targets.</p>
Service Delivery and Wellbeing	Yes	<p>Failure to deliver key flood alleviation schemes across the Vale and exposing flood prone areas to a greater risk of flooding.</p> <p>Failure to implement the Shoreline Management Plan impacting on our ability to monitor and manage coastal erosion.</p> <p>Failure to reduce our carbon foot print by not reducing our CO₂ emissions and improving our energy efficiency.</p> <p>Disruption and financial cost of flooding to homes and businesses.</p> <p>Failure to engage and encourage to residents to participate in Active Travel (use alternative forms of transport to the car).</p> <p>Failure to effectively communicate and engage with residents regarding the importance of recycling and composting resulting in poor buy in and reduction in recycling rates.</p> <p>The impact new developments places on putting in place a sufficient public transport infrastructure.</p> <p>Failure to fully deliver the Carbon Management Plan.</p> <p>Failure to increase recycling rates and reduce landfill waste to an acceptable level (zero waste by 2050). This risk has multiple potential environmental impacts including: i.e. climate change implications (waste currently contributes around 4.7% of direct greenhouse gas emissions in Wales) and pollution of the local environment (e.g. contamination of groundwater; soil contamination).</p>
Reputation	Yes	<p>Failure comply with the legal duties and it associated targets would have a detrimental impact on resident's perception of Council ability to tackle climate change and would attract criticism from our external regulators and Welsh Government.</p>

1 – Risk Overview						
1.1 Risk Description		<p>The UK Government's Welfare Reform will introduce the greatest change in the administration of welfare benefits for a generation. In addition to significant change in the way in which the council will run the housing and council tax benefits service, the changes will affect Social Services and Housing Services and will have an impact on the overall finances of the authority.</p> <p>Significant changes have been implemented, including changes to the Housing Benefit scheme and the introduction of the Council Tax Reduction Scheme to replace Council Tax Benefit. The Welsh Government implemented the Discretionary Assistance Fund from April 2013 and the DWP started the roll out of the Personal Independence Payment in Wales from July 2013.</p> <p>Universal Credit which will replace Housing Benefit, Job Seeker's Allowance (Income Based), Employment and Support Allowance (Income Related), Income Support, Working Tax Credit and Child Tax Credit was introduced in the Vale of Glamorgan in February 2016. Full implementation commenced in the Vale of Glamorgan from October 2018, however the full impact has not yet been fully realised in this area.</p> <p>Universal Support Delivered Locally has been implemented since February 2016 in line with the introduction of Universal Credit in the Vale of Glamorgan. The risk associated with Welfare Reform can be defined as the roll out of the Welfare Reform programme has a detrimental financial and social impact on residents.</p>

1 – Risk Overview

1.1 Risk Description

Public Buildings Compliance relates to our responsibilities and duties as a public organisation for ensuring that all our assets are satisfactorily compliant with all current legislative building requirements. The primary risk associated with public buildings compliance is that we fail to comply with our statutory responsibilities for ensuring the health, safety and welfare of both staff and the public when using our premises.

The Health and Safety at Work Act 1974 places specific duties on managers in the control of buildings to ensure; employees, building users and other members of the general public do not come into harm whilst using the building. Over the years, this act has been supplemented by a number of supporting regulations to ensure the safe management of; electricity, gas, asbestos, legionella, fire, lifts, etc. These duties cannot be discharged to third parties and it is the premises manager/duty-holder that is ultimately responsible for managing the risks and discharging the requirements of all the regulations associated with the building.

Whilst the legal duty to manage a building’s compliance does not in all cases sit directly with the Council, for example: for Schools where the duty holder would be the Head teacher, the Council has a vicarious responsibility to ensure the protection of all users of its corporate buildings. There will also be cases where as a Council we externally commission out services to be delivered by a Third Party. Although we are not the responsible Premises Manager/Owner of these sites, we do hold a reputational stake in ensuring that our reputation is protected. Therefore, we need to assure that there are suitable processes and procedures in place to both establish the extent of the risks that the Council is exposed to and how those risks are being effectively managed. Equally issues around leasehold and service agreements also need to be considered in terms of any potential risk implications this has the Council where we have a vested interest in the building where services are being operated from. E.g. Community Libraries.

During September 2017 a report was tabled at the Council’s Corporate Management Team and it was agreed a major review would be undertaken of the Council’s current management of compliance arrangements, led by the Director of Environment and Housing.

The arrangements for the management of compliance and specifically the ‘compliance data’ for the Council’s Corporate Building Stock has significantly improved and work continues to control identified gaps in compliance. Data on compliance of our corporate buildings was not previously held centrally, and this has been a matter of concern raised by the Wales Audit Office in a recent review and was subsequently identified as a proposal for improvement in the Council’s Corporate Assessment. In response to these concerns it was agreed to manage corporate compliance through a central team.

1 – Risk Overview						
1.1 Risk Description		<p>The Council has produced Corporate Safeguarding procedures including the Safer Recruitment Policy, the Staff Supervision Policy and the Referral of Safeguarding Concerns procedure. These policies and procedures are in place to ensure the Council meets its safeguarding responsibilities in relation to the protection of children, young people and adults at risk by ensuring that recruiting managers comply with pre-employment DBS and reference checks and once in post, employees are supervised in terms of their practice with people considered to be 'at risk'. The Council will also have a responsibility to comply with the Wales Safeguarding procedures when they are launched in November 2019.</p> <p>The Provider Performance Protocol provides a framework for escalating concerns about safeguarding issues and the impact on vulnerable people arising within care homes and other relevant commissioned services.</p> <p>Should these procedures not be followed there could a risk of injury or harm to individuals. Injury or harm could lead to financial loss to the council in terms of compensation claims and reputational damage to the council, leading to a loss of public confidence in key services. The likelihood of this risk occurring increases if policies and procedures are not frequently reviewed and updated, or if compliance with these policies is not fully mainstreamed across the council. Therefore, the overarching risk is that corporate safeguarding procedures are insufficient, not followed or are ineffective.</p>

[Return to Risk Summary Report](#)

1 – Risk Overview	
1.1 Risk Description	<p>Adult Services are becoming increasingly integrated with health services in order to provide service users and patients with seamless care arrangements. There is also an emphasis as part of the Social Services Wellbeing Act to focus on looking at integrated ways of working through collaboration. The recommendations arising from the recent Parliamentary Review of Health and Social Care has further cemented the need for further developing our approach to integrating health and social care services. The Parliamentary review identified that the focus needs to be on ‘empowering individuals to take decisions, tailoring care to the individual’s expressed needs, whilst being more proactive and preventative. The review also emphasised the need for care provision to be ‘seamless’, of high quality and as close to home as possible.</p> <p>Although, significant strides have been made by the Vale of Glamorgan in relation to integrated health and social care services, there continue to be risks and challenges associated with its delivery. For example, developing a more integrated approach to service provision is likely to propose further challenges with technology, information sharing, staffing structures and governance re policies and financial management. Financial scrutiny will be required to ensure that any risks associated with mandated pooled funding are properly considered. There are also risks associated with the overall sustainability of these new ways of working, given that a significant amount of investment in new ways of working is via Grant funding and therefore short term and finite.</p> <p>Existing HR and IT arrangements may need to be reviewed as organisations work more closely together. The extent and success of the integrated arrangements remain dependent upon partner organisations. The Vale of Glamorgan works predominantly with one health board (C&V UHB) but many service users from the Western Vale receive hospital services outside of the county provided by Swansea Bay University Health Board. Integration with C&V UHB will be influenced by the extent to which integration is also achieved with Cardiff social care services. The focus continues to be on accessing funding such as Integrated Care Fund and Transformation Fund in order to further expand and develop our integrated service models. For example, Regional Partners recently submitted a bid to access Transformation Funding to support implementation of the Parliamentary Review. As a result, the region was awarded £7million to deliver 7 projects across the Cardiff and Vale region with the vision of developing more ‘seamless care’ for our citizens. .This first bid focussed primarily on older persons. £1.3million of this Transformation funding was secured by the Vale of Glamorgan in partnership with the Health Board to lead on piloting a new GP triaging scheme using the Council’s Customer Contact Centre (C1V). Additionally, we have been able to secure continued funding for ICF projects and develop some new under slippage/new monies.</p>

Appendix 12 Corporate Risk 12: Unauthorised Deprivation of Liberty Safeguards

[Return to Risk Summary Report](#)

1 – Risk Overview	
1.1 Risk Description	<p>Deprivation of Liberty Safeguards</p> <p>The Deprivation of Liberty Safeguards (DoLS) (2009) introduced a legal mechanism to protect people who do not have the mental capacity to consent to their care and support in registered care homes and hospital wards. Specifically, the DoLS safeguards aim to prevent breaches of Article 5 of European Convention of Human Rights – <i>The Right to Liberty and Security</i>. They acknowledge that care and support arrangements sometimes are required to deprive a person of their liberty to ensure the person’s best interests and safety, but that any deprivation of liberty must be in accordance with a prescribed legal procedure (Art 5(1)) and shall entitle the deprived person to take legal proceedings to determine lawfulness of the deprivation ((Art 5 (4)).</p> <p>The Safeguards place a duty on the local authority to perform to a prescribed legal procedure when informed by a Care Home (described as Managing Authorities under the Safeguards) that a resident may be being deprived of their liberty in the care home. The local authority (known in the Safeguards as the Supervisory Body) has 7 days for Urgent Authorisation requests and 21 days for Standard Authorisation requests to coordinate a suite of 8 assessments to determine if the care arrangement is in the persons best interest and to legally ‘Authorise’ the deprivation of liberty. In March 2014, the Supreme Court (P v Cheshire West and Chester Council and P & Q v Surrey County Council) made a ruling, effectively setting a new and much lower threshold for determining a deprivation of liberty which has led to a substantial increase in the number of requests for DoLS Authorisations. In the Vale of Glamorgan, this has meant an increase from 6 requests in 2013/14 to an average of over 500 in each of the last three years.</p> <p>Adult Services have invested into the DoLS team to go some way to meet this increased demand, but the team is not able to coordinate DoLS assessments and Authorisation within the statutory timescales which places the local authority at risk of legal challenge in the Court of Protection.</p> <p>Deprivation of Liberty in ‘Domestic Settings’</p> <p>The Cheshire West Supreme Court ruling in March 2014 made it clear that the local authority must seek Authorisation from the Court of Protection whenever it knows or ought to know that a person who does not have mental capacity to consent is living with care and support that deprives them of their liberty within their own home. It is difficult to be certain but current estimates would indicate that between 50 and 100 people living in the Vale of Glamorgan potentially fall into this category which includes people with learning disabilities or mental health problems and older people with mental health problems.</p> <p>Without Court of Protection Authorisation, the local authority is at risk of legal challenge for care and support that potentially breaches a person Article 5 right to liberty and security.</p>

Resources	Yes	<p>Inability and capacity of key partners to effectively work together to safeguard adults who are at risk of deprivation of liberty.</p> <p>Financial repercussions as a result of court proceedings where there has been a failure to safeguard clients and there has been an unauthorised deprivation of liberty.</p> <p>Lack of suitably qualified staff to undertake best interest assessments within designated timescales.</p> <p>Increased demand for best interest assessments as a result of changes in law impacting on staff capacity and putting pressure on budget thresholds.</p>
Service Delivery and Wellbeing	Yes	<p>Failure to undertake assessments resulting in unauthorised deprivation of liberty that could have detrimental impact on the health and wellbeing of the individual.</p> <p>The Council is unable to meet statutory responsibilities for responding effectively to situations where people are at risk of neglect or abuse.</p> <p>Implications arising from the Court of Protection associated with Deprivation of Liberty of people living in domestic settings.</p> <p>Failure to appropriately identify individuals living in domestic settings where authorisation from the Court of Protection should be sought.</p> <p>Excessive waiting times for an assessment impacting on unlawful deprivation of liberty.</p>

1.4 Risk Categories		
Categories	Yes/No	Definition
Reputation	Yes	A failure to adhere to the Deprivation of Liberty Safeguards for relevant people living in a care home or to seek authorisation from the Court of Protection for relevant people living in their own homes is unlawful and unequal. This would have a detrimental impact on reputation of the Council and would draw criticism by our regulators.

[Return to Risk Summary Report](#)

1 – Risk Overview	
1.1 Risk Description	<p>The Social Services & Wellbeing (Wales) Act 2014 has integration of health and social care at its core. The effective sharing of information is a fundamental foundation of integrated working and should be applied on a “once for Wales” basis. Welsh Government has significantly invested in the capital programme to support the development and implementation of an integrated information system across health and social care services. This system is known as Welsh Community Care Information System (WCCIS) and is the replacement to the social care information system known as SWIFT.</p> <p>The new system will provide an integrated electronic record system for social care, primary and community health services, mental health services across both adult and children and young people services. This will be a national system intended to be used across all Welsh local authorities and Health Boards. It is essential that we implement a fully integrated electronic record system to ensure information is shared appropriately and that residents of the Cardiff and Vale are safeguarded.</p> <p>The WCCIS procurement process ended in 2015. All 22 local authorities and health boards are enabled to procure WCCIS, as a replacement for their existing information system.</p> <p>The Cardiff and Vale region have agreed in principle to collectively contract with WCCIS to enable integrated working to become a reality. However, to date Vale of Glamorgan Council is the only partner to have signed a deployment order with the supplier, Careworks. Cardiff and Vale UHB and Cardiff Council are currently going through processes to determine the scale of their adoption of WCCIS. However, the overall aim remains that all three partners will utilise WCCIS over the coming years.</p> <p>Initially there were some delays with the implementation of the system, which have since been addressed. And although WCCIS went live during November 2017, there were a series of obstacles to overcome in order to ensure full transition to the new system so that all aspects of the system are fully utilised and embedded. The risk previously was in relation to the inability to interface with the legacy system (SWIFT), and to fully embed and utilise the system to its full potential in integrated health and social care, which has since been resolved. There were previously issues problems associated with performance reporting, but this has since been resolved as a significant amount of data cleansing work has been undertaken to verify the accuracy of the data. We have also upskilled our staff to create and design data and dashboard style reporting. The emphasis of the risk has now shifted onto a more regional focus where the risk is the ‘Inability to safeguard our citizens across Cardiff and the Vale as result of not implementing an integrated case recording system over a regional foot print which will impact on our ability to share information effectively across organisational boundaries’.</p>

	The next phase of development will focus on exploring the financial functionality of WCCIS to ensure all our social care charging and invoicing is one place, but this requires further work and additional consultancy costs to explore and implement.

1.3 Risk Categories		
Categories	Yes/No	Definition
<i>Political & Legislative</i>	Yes	<p>Political and legislative repercussions of failing to fully implement WCCIS across the Directorate fully within required timescales.</p> <p>Failure to put effective information security safeguards in place resulting in personal/sensitive and confidential information being leaked/revealed in the public domain could cause political instability and loss of credibility.</p> <p>Failure of other regional partners to implement the system, thus not maximising the benefits of the systems particularly in relation to integrated teams.</p>
<i>Resources</i>	Yes	<p>Failure to fully maximise and mobilise our existing resources to ensure full implementation/development of WCCIS across the Directorate.</p> <p>Increased risk of data protection breaches following transition to new WCCIS system due to the large volume of users and the financial impact of these breaches.</p> <p>Limited skill resilience to extract and report relevant data from the system.</p> <p>Financial impact of contract renewal for sustaining a legacy system in line with the Council's retention policy.</p>
<i>Service Delivery and Wellbeing</i>	Yes	<p>Failure to fully develop WCCIS and its potential could impact the ability of service users to access services readily.</p> <p>Loss of data could impact of the delivery of key services as well as the impact this has on service users.</p>

1.3 Risk Categories		
Categories	Yes/No	Definition
		Failure to safeguard our citizens across Cardiff and the Vale as result of not implementing an integrated case recording system over a regional foot print which will impact on our ability to share information effectively across organisational boundaries.
Reputation	Yes	Reputational impact arising from findings from Adult Practice and Child Practice Reviews as a result of failing to record/share information effectively using WCCIS. This could result in a loss of confidence and trust in our ability to safeguard our citizens resulting in negative publicity. And ultimately have a detrimental impact on our credibility and leaves us open to potential criticism from our external regulator CIW, the Welsh Government and the Ombudsman.

1 – Risk Overview	
<p>1.1 Risk Description</p>	<p>This risk focuses on how we respond to uncertainty and emerging issues surrounding Brexit that has the potential to impact on how we deliver services to our citizens. There is a risk that we fail to effectively identify and respond to the changing policy and legislative landscape as a result of the 'Brexit' process. This could also impact significantly on our ability to deliver our Well-being Outcomes and strategic objectives of our Corporate Plan. By developing a better understanding of the potential pressures Brexit places on specific services this will enable us to better prepare and respond to the changing climate and minimise disruption to service delivery.</p> <p>The uncertainty and implications associated with Brexit have been the subject of much discussion across the Council. The Council has maintained a watching brief as the process has continued and this has been documented to date as part of the legislative Change risk on the Register. However, at Audit Committee in February 2019 a suggestion was made that Brexit should now be identified as a risk in its own right on the Register.</p> <p>CMT have adopted a proportionate approach for planning for Brexit and service areas have undertaken an impact assessment in the context of overall business continuity planning.</p> <p>The WLGA have provided grant funding to all Local Authorities to support the preparatory work associated with Brexit. The Local Resilience Forum have also committed resources to support coordination and communications across the region.</p> <p>A response was submitted to the Wales Audit Office in terms of our readiness work, which included a series of discussions at Insight to formulate an Impact Assessment and a presentation to CMT/Cabinet by the WLGA. It is this preparatory work that has helped to inform how we define and understand this risk. As a result of this impact assessment work, an Action Plan has been developed to mitigate against the potential risks associated with Brexit (and in particular a no-deal scenario). Progress against this action plan is monitored regularly by CMT and feeds into regional reporting we provide to the WLGA as part of EU Preparedness Advisory Panel.</p> <p>We recognise too that residents and businesses will look to us a community leader for advice, support and assistance whilst the negotiations remain ongoing. Therefore, since the referendum, our focus has been on ensuring that we participate in opportunities to feed into discussions at both the national and local level regarding the potential impact of Brexit on Council services. For example, the Council is represented by the Director of Environment and Housing Services on the Local Resilience Forum, a regional emergency planning group Brexit remains a regular agenda item at both CMT and Insight Board which prompts our wider mitigating activity as an authority.</p> <p>A General Election has been called that will take place on the 12th December. In agreement with the EU, a Brexit extension up until January 2020 has been granted, pending the result of the General Election.</p>

1.4 Risk Categories		
Categories	Yes/No	Definition
Political & Legislative	Yes	<p>Significant political uncertainty associated with Brexit and the impact this has on our ability to forward plan.</p> <p>Failure to comply with any legislative changes arising from the UK leaving the EU and impact this has at the local level.</p> <p>Failure to fully embrace and participate in discussions/collaborative opportunities associated with Brexit could be detrimental to the profile and status of the Council.</p> <p>Failure to represent the Council's position in relation to the policy developments/changes associated with Brexit, which could impact on our ability to maximise opportunities for future investment and to deliver our strategic objectives outlined in the Corporate Plan.</p> <p>Failure to effectively lobby for and secure access to funding previously sourced from the EU programmes post-Brexit (including any successor programmes).</p> <p>Changes to consumer protection requirements across the EU affecting residents and local businesses.</p> <p>Potential changes to the regulatory procurement regime/framework that we operate by could have a negative impact on how we tender for and access products/services from EU markets.</p>
Resources	Yes	<p>Financial impact of leaving the European Union on the Council's European funded projects/initiatives (regeneration). Leaving the EU could impact our ability to secure funding to further progress the development/investment in regeneration projects e.g. Creative Rural Communities.</p> <p>Uncertainty post-Brexit impacts on our ability to attract private sector investment to improve our connectivity (transport/infrastructure and technology), skills investment, innovation, regeneration, housing investment and energy related projects) and in particular projects/programmes associated with the City Deal.</p> <p>Rising costs associated with importing supplies and services e.g. Fuel, Food products from EU countries due to higher trade tariffs and payment of customs duties which places further pressure on our budgets.</p>

1.4 Risk Categories		
Categories	Yes/No	Definition
		<p>Loss of staff from EU countries impacting not just on the council's operational capacity but also on the wider business community e.g. health and social care, construction, tourism etc. A reduction in labour supply could have a detrimental impact on the local economy.</p> <p>Difficulties in recruiting staff (or commissioning from the market) in 'hard to recruit' areas and where skill shortages exist and the impact this has on our capacity to deliver services/projects/schemes.</p> <p>Inability to put in place effective civil contingency plans (emergency planning) to take account of the potential impact of Brexit.</p> <p>Market volatility, inflation and financial uncertainty could impact on council revenue budgets and borrowing costs for capital schemes.</p> <p>Inability to effectively manage demand and sustain service delivery post Brexit.</p>
Service Delivery and Wellbeing	Yes	<p>Uncertainty in the economic/financial climate as a result of the Brexit process impacts on our ability to attract inward private investment and lever fewer jobs in the area.</p> <p>Impact of Brexit on the supply chain, disrupting access supplies and services from EU. This has the potential to significantly disrupt service delivery particularly in relation to vulnerable groups.</p> <p>Disruption in food supply could impact on our ability to provide cooked meals to children in schools, adults in residential care settings and our Tourist attractions/Country Parks. Increased risk of food contamination due to changes in food inspection regimes at ports.</p> <p>Disruption to fuel supply could impact on our ability to deliver services such as waste collections and the ability of staff to get to work.</p> <p>Shortages in medical supplies/specialist equipment could have a detrimental impact on discharge from hospital and ultimately on the health and well-being of our citizens.</p> <p>Increased risk of counterfeit/fraud of goods/supplies such as pharmaceutical products, materials (building materials, electronic parts, vehicle parts), food and supplies such as cleaning products, sanitary products impacts not only on quality but also on overall service provision.</p>

1.4 Risk Categories		
Categories	Yes/No	Definition
		<p>Failure to appropriately support children in the local authority care who are EU nationals through applying on their behalf for the right to remain through the EU Settled Status Scheme.</p> <p>Inability to support citizens who are impacted by the changes resulting from Brexit and its uncertainty. Increased demand for support / advice services due to an economic downturn as a result of withdrawal from the EU. Any loss of jobs to the area will impact on the local communities and could result in a greater number of citizens and families living in poverty with higher rent arrears and a potential increase in homelessness presentations.</p> <p>Delays/disruption to distribution of goods/supplies through the supply chain due to increased regulation at ports/airports. Increased pressure on the capacity of the SRS Service (Environmental Health Officers) for the inspection of food at ports/airports.</p> <p>Contract/provider failure by delivery partners/contractors to deliver services on our behalf due to pressures from Brexit on their operational capacity.</p> <p>Lack of resilience amongst our partner organisations and the Third Sector in terms of their preparedness for Brexit and issues arising from it.</p> <p>Risk that the needs of vulnerable people are not met due to the uncertainty regarding our statutory responsibilities in relation to EU nationals for homelessness, housing and social care services.</p>
Reputation	Yes	<p>Reputational repercussions and loss of credibility as a result of failing in our Community Leader role to effectively communicate clear messages associated with the Brexit process.</p> <p>Reputational damage associated with failing to effectively support vulnerable groups/individuals through applying for EU Settled Status.</p> <p>Risk of civil unrest associated with Brexit as a result of poor communication, preparation, planning and liaison with key partners e.g. health, Police, Welsh Government impacts on the reputation of the Council.</p> <p>Loss of public confidence in our ability to deliver services effectively and sustainably post-Brexit.</p> <p>Loss of credibility as a result of handing back any unspent funding due to a lack of capacity to deliver EU grant funded schemes up until Brexit.</p>
