

## The Vale of Glamorgan Council

Coastal Access Improvement Programme Background and Update

Local Access Forum Meeting – September 2018

## 1. CAIP Funding 2018-19

1.1	The CAIP programme for 2018-19 includes the following items

Project Name	Description	Total Cost	Grant Rate %	Grant Awarded
Maintenance	Maintenance of path (cutting, surface, repairs)	26,066	75	19,550
VG1503 East of Nash Point	Legal order to roll back path from cliff edge	2,000	100	2,000
VG1504 West of Tresilian	Legal order to roll back path from cliff edge	2,000	100	2,000
VG1506 Summerhouse	Legal order to roll back path from cliff edge	2,000	100	2,000
VG1507 Gileston	Legal order to complete missing link	2,000	100	2,000
VG1701 Monknash	Preliminaries for storm damage repairs (bridge, path surface)	2,500	100	2,500
TOTAL		36,566	==	30,050

- 1.2 Of the above items maintenance covers a range of projects allocated as they become apparent. This year's maintenance allocation has so far assisted in the following projects:
  - Works to re-open the path near Fontygary Caravan Park
  - o Annual clearance of vegetation along the coast path
  - Provision of steps at Cwm Bach

It had been anticipated that work would commence on improvements around Monknash. Natural Resources Wales have, however, advised that further consultation and amendments are required to scheme design before SSSI assent is able to be granted. We therefore now anticipate works happening in the next financial year.
