Reasons for dual recommendation

1. The caravan, buildings and associated development and use of land represents unacceptable and unjustified development in the countryside that does not respond appropriately to the rural context and character of the immediate site and its countryside surroundings. The visual impact and the urbanising effect on the site are considered to be demonstrably harmful to the appearance and character of the immediate surroundings and the wider countryside setting. It is therefore contrary to policies MD1 (Location of New Development) and MD2 (Design of New Development) of the Vale of Glamorgan Adopted Local Development Plan 2011-2026 and the advice in the Council's approved Supplementary Planning Guidance on Design in the Landscape and National guidance contained in Planning Policy Wales (Edition 11) and Technical Advice Note 12-Design.

The decision to recommend refusal of permission has been taken in accordance with Section 38 of The Planning and Compulsory Purchase Act 2004, which requires that, in determining a planning application the determination must be in accordance with the Development Plan unless material considerations indicate otherwise. The Development Plan for the area comprises the Vale of Glamorgan Adopted Local Development Plan 2011-2026.

Having regard to policies MD1 (Location of New Development) and MD2 (Design of New Development) of the Vale of Glamorgan Adopted Local Development Plan 2011-2026 and the advice in the Council's approved Supplementary Planning Guidance on Design in the Landscape and National guidance contained in Planning Policy Wales (Edition 11) and Technical Advice Note 12-Design, the development does not respond appropriately to the rural context and character of the immediate site and its countryside surroundings. The visual impact and the urbanising effect on the countryside are considered to be demonstrably harmful to the appearance and character of the immediate surroundings and the wider countryside setting.

It is considered that the decision complies with the Council's well-being objectives and the sustainable development principle in accordance with the requirements of the Well-being of Future Generations (Wales) Act 2015.

The appropriate marine policy documents have been considered in the determination of this application in accordance with Section 59 of the Marine and Coastal Access Act 2009.
