VALE of GLAMORGAN COUNCIL SERVICE PLAN

2018-2022

Service Area	Finance and ICT
Head of Service	Carys Lord
Director	Rob Thomas
Cabinet Member	Cllr: John Thomas Leader and Cabinet Member for Performance and Resources
Scrutiny Committee	Corporate Performance & Resources

1. Introduction

The Finance and ICT service form part of the Resources Directorate. The Finance Service performs a series of statutory duties and its primary roles are to ensure the financial probity of all Council activities and that all our assets are effectively managed and maintained. The ICT Service's primary role is to provide high quality ICT services to the Council, its users and Members and support the Corporate Plan priorities to deliver better public services to citizens of the Vale of Glamorgan.

1.1 About our Service – Financial Services and ICT

The Finance service is responsible for undertaking a number of key roles for the Council. The service supports all Council services by providing sound financial management and control, comprehensive property estate and facilities management and management of the Council's (ICT) technology needs, contributing to the delivery of quality and cost-effective services to residents and customers. Through a coordinated and integrated approach we are effectively supporting directorates to deliver transformational change in line with the Council's Reshaping Services Programme whilst making required efficiency savings.

Our broad functions are:

- Preparing and finalising annual revenue and capital budget estimates as well as the closure of accounts. Taking day to day decisions on cash flow, investments and borrowing. Providing financial and management information and advice to services to support them in monitoring their budgets and achieving their savings;
- Undertaking financial planning for the Council through the production of the Medium Term Financial Plan;
- Administering systems and processes such as Oracle HR, Payroll, Financial and CRM modules;
- Processing of BACs and CHAPs payments, banking services and income collection;
- Ensuring the recovery and collection of Business Rates and Council Tax to maximise the Council's income, as well as administering benefits through the Council Tax Reduction Scheme and Housing Benefit service;
- Implementing Welfare Reforms and providing support to residents through the transition;
- Collection of Income from all debtors for Directorates for the Council
- Delivering major capital building projects for the Council;
- Provision of a multi-disciplinary Property service that comprises of architectural, structural engineering, mechanical/electrical engineering, quantity surveying, project management and planning service, estates and valuation service, property survey service and facilities management;
- Delivery of energy reduction projects/initiatives and energy management advice;
- Provide assurance on the Council's control environment comprising the systems of governance, risk management and internal control;
- Providing specific procurement advice to service areas, undertaking and supporting procurement activity, maintaining the Council's Oracle i Procurement system and coordinating associated strategies, policies and guidance information;
- Providing a central Procurement Unit support service for all Directorates
- Management of Internal Audit shared service, provided jointly to the Vale of Glamorgan and Bridgend Councils;
- Providing a comprehensive insurance service for the whole council;
- Providing a comprehensive ICT service for all Directorates ; Providing ICT support to Council Members, Schools, Libraries and Town and Community Councils; and

- Supporting the Reshaping Services programme.

1.2 The Purpose of Our Service Plan

This plan identifies how we will contribute towards achieving the Council’s vision – ‘**Strong Communities with a bright future**’.

Our service plan outlines our key priorities for the next four years and how we will manage our resources to deliver these. The plan gives an overview of our service, what we aim to achieve, why this is important, how we will achieve it, how we will monitor progress and what success will look like.

It is important that as a Council we have shared values and our service is committed to delivering its priorities within the context of the Council’s core values:

- **Ambitious:** Forward thinking, embracing new styles of working and investing in our future.
- **Open:** Open to different ideas and being accountable for the decisions we take.
- **Together:** Working together as a team that engages with our customers and partners, respects diversity and is committed to quality services.
- **Proud:** Proud of the Vale of Glamorgan: proud to service our communities and to be part of the Vale of Glamorgan Council.

Our Council’s priorities are contained in the Corporate Plan 2016-20 and are expressed as well-being outcomes and objectives. These have been decided upon following consultation with key stakeholders including citizens of the Vale of Glamorgan. Our well-being outcomes and objectives are:

Well-Being Outcome	An Inclusive and Safe Vale	An Environmentally Responsible and Prosperous Vale	An Aspirational and Culturally Vibrant Vale	An Active and Healthy Vale
Well-Being Objective	Reducing poverty and social exclusion	Promoting regeneration, economic growth and employment.	Raising overall standards of achievement.	Encouraging and promoting active and healthy lifestyles.
Well-Being Objective	Providing decent homes and safe communities	Promoting sustainable development and protecting our environment.	Valuing culture and diversity	Safeguarding those who are vulnerable and promoting independent living.

The well-being objectives illustrate the contribution Council services will make to achieving the Well-being Goals for Wales. The Well-being Goals have been established to ensure all relevant bodies in Wales are working towards the same vision as part of the Well-Being of Future Generations (Wales) Act 2015. The Act is about improving the social, economic, environmental and cultural well-being of Wales. The Act is intended to make public bodies think more about the long-term, work better with people and communities and each other, look to prevent problems and take a more joined-up approach. The contribution our service will make to the well-being goals is highlighted throughout our service plan.

1.3 Developing Our Plan

Our service plan is informed by and reflects the environment within which our service operates. As well as contributing to the well-being outcomes and objectives from our Corporate Plan, our service has taken the following into consideration when drafting our plan:

- The Financial Services and ICT Annual Self-Assessment which provides an overall position statement for the year based on specific issues relating to performance, customer experience and the use of resources (workforce, financial, ICT and assets);
- Our budget including planned service savings and efficiencies and the implementation of the Council's Reshaping Services Change Programme;
- Our Medium Term Financial Plan and budget planning that includes identifying planned service savings and efficiencies alongside the implementation of the Council's Reshaping Services Change Programme;
- Findings from the Wales Audit Office's Corporate Assessment 2016 and the WAO Financial Resilience Report 2016;
- Annual Governance Statement and Head of Audit Annual Report;
- Requirements of the Public Sector Audit Standards;
- Taking into account the priorities of the Corporate Asset Management Plan;
- Delivery requirements of a shared Audit service;
- Implications arising from the transfer of Community Assets;
- Priorities outlined in our ICT Strategy, the Digital Strategy, Information Management Strategy and Connecting with our Customers, the Council's customer relations strategy;
- Findings from Internal Audit Reports on our services;
- Requirements of the General Data Protection Regulation;
- Requirements of the Modern Slavery Act 2015 and Welsh Government's "Code of Practice for Ethical Employment" in conjunction with Human Resources and Organisational Development.

1.4 How We Work - Sustainable Development

The Well-being of Future Generations (Wales) Act puts in place a 'sustainable development principle' which tells organisations how to go about meeting their duty under the Act:

"You must act in a manner which seeks to ensure that the needs of the present are met without compromising the ability of future generations to meet their own needs, by taking account of the sustainable development principle".

The sustainable development principle means considering how actions are taken to support continuous improvement by:

- Looking to the **long term** – for us this means planning for the future and taking a strategic approach to ensure services are sustainable and that we understand the future need and demand for services.
- Taking an **integrated** approach – for us this means thinking about the needs of our customers and working with our partners.
- **Involving** the population in decisions – for us this means engaging with our residents and customers, including the business community and ensuring that we are listening to a wide range of views to inform our thinking.
- Working in a **collaborative** way – for us this means recognising we can achieve more and deliver better services by working as part of a team, for example by working with the Third Sector, Town and Community Councils and neighbouring authorities.
- Understanding the root causes of issues and **preventing** them – for us this means being proactive in our thinking and understanding the need to tackle problems at source for example by undertaking needs assessments to inform our priorities.

In response our Corporate Plan 2016-20 has reflected on the ways of working ensuring that it is consistent with our approach to planning for the future. These considerations are also reflected in the actions we will take as a service to deliver the Council's priorities.

2. Our Corporate Plan Priorities for 2016-20

2.1 Corporate Plan Priorities

Over the next few years the Finance and ICT Service will take the actions outlined below to contribute to the Corporate Well-being Outcomes and Objectives.

Well-being Outcome/ Scrutiny Committee	Well-being objective	Ref	Action
WO1: An Inclusive and Safe Vale (H&SC)	O1: Reducing Poverty and Social Exclusion	IS003	Provide information and support to residents affected by Welfare Reform and raise awareness amongst staff and partners about the impact of the changes (2017/18)

WO3: An Aspirational and Culturally Vibrant Vale. (L&C)	O6: Valuing culture and diversity	AC10	Improve our knowledge of the diverse needs of the community, so that groups of people protected under the Equality Act 2010 can better access Council services. (2019/20)
WO3: An aspirational and Culturally Vibrant Vale (L&C)	O6: Valuing culture and diversity	AC12	Implement the Welsh Language Standards to improve access to services and information. (2019/20)

2.2. Integrated Planning Priorities

Our service is committed to maximising the use of resources so that we can deliver sustainable and cost effective services that best meet people's needs. In order to achieve this, we have identified a series of priority 'enabling actions' that will support us in delivering the key outcomes identified in our Corporate Plan. The key areas of focus for our service over the next four years will be:

Ref	Action
CP1	Deliver the Council's transformational change programme, Reshaping Service, to enable it to meet the future needs of citizens of the Vale of Glamorgan within the context of unprecedented financial challenges. (2019/20)
CP2	Align the workforce plan to the Reshaping Services strategy ensuring staff have the necessary skills and training to adapt to the changes in how services are planned and delivered.
CP3	Review and challenge the Council's approach to financial planning including the capital programme to ensure a long term view is balanced with the need to address immediate priorities.
CP10	Review the procurement strategy and associated documentation to ensure they reflect the Wales Procurement Policy Statement and promote sustainable development.
CP11	Produce a Corporate Asset Management Plan every three years and report progress annually in respect of set targets in order to achieve the optimum use of our property assets, including community benefits. (2018/19)

3. The Year Ahead (2018/19)

3.1. Our Annual Service Priorities for 2018-19

During 2018-19 our service will undertake the actions outlined below to contribute to Year 3 of the Corporate Plan Well-being Outcomes and Objectives.

Appendix A contains the detailed plan which outlines the actions we will undertake in the coming year to deliver our Year 3 (2018/19) priorities for the Corporate Plan.

Appendix B outlines the 'enabling' actions we will undertake to maximise the use of our resources to enable us to deliver our priorities for the same year.

3.2. Managing Our Resources to Deliver Our Priorities

The following sets out how we will manage our resources to achieve the actions in our Service Plan and support our service.

Integrated Planning

We are committed to maximising the use of our resources so that we can deliver sustainable and cost effective services that best meet people's needs. For 2018-19, we have identified a series of 'enabling actions' that will support us to deliver our priorities for Year 3 of the Corporate Plan and contribute towards the Corporate Plan Well-being Outcomes.

This section provides a summary of these actions, outlining how we will use our resources (including our workforce, ICT, finance, assets and customer insight) and manage identified risks in order to deliver planned improvement

Workforce Development

Service	Key Service Statistics 2016/17						
	Average headcount 2016/17	FTE 2016/17	Average days sick		Average days sickness per FTE	Turnover (no of leavers)	#itsaboutme completion rate (%)
			Long term	Short term			
Finance (sickness and FTE figures are including Directors office)	142.5	132.15	3.12	2.41	5.53	16 (11.23%)	100
ICT	42	41.80	1	2.87	3.87	4 (9.52%)	100

During 2017/18, 100% of #itsaboutme appraisals were completed for both Financial Services and ICT Services mirroring our performance in the previous year.

Going forward the key workforce issues impacting on the service are:

- Managing sickness absence rates continues to be an area of development across the division. Based on current data at Q2 (3.60 days per FTE), the service is on track to achieve a performance of 7.2 days per FTE in 2017/18 which will fall short of the Directorate's annual target of 5.8 days per FTE and last year's reported performance of 5.53 days per FTE. Within the ICT service, based on a reported performance of 2.98 days per FTE at Q2, the service will also just miss the annual target. There have been more recorded incidents of stress and anxiety related absence following the restructure of services within Finance and ICT, which saw a reduction in staff numbers across all services. This absence is putting additional pressure on remaining staff who have to cover these absences as well as their own areas of work. The service continues to be proactive in implementing risk assessment approaches, providing stress awareness training for staff and signposting to the Employee Assistance programme, and automatic referral of stress cases to occupational health. However if this trend continues it is likely to have a significant impact on capacity within the service overall.
- As at September 2017, Finance has an establishment of 147.11 FTEs (109.11 FTEs in Finance and 38 FTEs in ICT) compared to 159.4 FTEs (114.8 in Finance and 44.6 in ICT) at the same time period in 2016. On balance, the workforce within Financial Services has remained relatively static, with fairly low levels of turnover. As at September 2017, the service reported a 5% turnover rate compared to just over 6% in the same period last year. In relation to ICT, turnover rates doubled from 2.25% to 5.13% during the same time period. This increase in turnover within ICT was anticipated as the service implemented a new structure following its review of how it delivers services in order to improve efficiency and effectiveness, in line with the Reshaping Services programme.
- Overall, the age profile of staff is not a cause of concern, as there is currently a good spread of age ranges across the Finance and ICT Service. As at September 2017 the age profile of the ICT Service is as follows: [3% (65+); 5% (55-64); 28% (45-54) 36% (35-44); 20% (25-34); 8% (16-24)]. Since last year, there has been a slight decrease in the following age categories: 55-64, 45-54 25-34 and 16-24. Within Finance, the age profile is as follows: [0% (65+); 18% (55-64); 25% (45-54) 23% (35-44); 26% (25-34); 8% (16-24)]. There has been a marginal reduction in the following age categories 65+ and 45-55. To ensure continued resilience within teams for the long term, there is a need increase the number of staff within the 16-24 and 25-34 categories.

- Through focusing our efforts on succession planning and encouraging the cross-skilling across teams we continue to build resilience within the workforce. However, career progression remains relatively flat and that could impact on retention levels in the future. To mitigate this, the service encourages staff to get involved in continuous self-development opportunities within the service and through a variety of corporate initiatives, such as the Leadership Café to further enhance their skill set.
- There continues to be a need to focus on developing skillsets within the division that enables us to effectively support the change management process of the Reshaping Services agenda.
- In the longer term, with the implementation of the Welfare reform changes, it is anticipated there will be the requirement for fewer benefits staff. There is an ongoing review of our workload and capacity of teams to assess staffing requirements.
- The optimisation of our procurement function/systems in light of the Reshaping Services agenda is anticipated to have an impact on our staffing requirements going forward. Procurement across all services is a major tranche 3 project under the programme.
- Sustaining a resilient workforce remains a challenge as the Accountancy, Property and Audit service divisions continue to experience issues with recruitment and retention. The division currently recruits a number of graduates/trainees, but services often struggle to have the capacity to support their development effectively which then impacts on our ability to put in place succession plans. Whilst progress has been made in developing a number of service initiatives, it will take time for these to bed in and have an impact.
- Within the Audit Service, the recent restructure of the service has aligned the workforce to service demands, identifying required skillsets and therefore development opportunities for staff. Again these will take time to bed in and have an impact.

It is important that we continue to maintain and develop the workforce to meet future service needs, both in terms of the numbers employed and the skills and competencies required of those employees. It remains a priority for the Finance and ICT Service to continue to support staff development and succession planning despite the pressures of budget and staffing reductions. Our key workforce development priorities for the coming year are:

- Further developing succession planning arrangements within the service in order to retain expertise and skills especially in business critical areas for the long term.
- Building resilience in the service by focussing on up-skilling and developing flexibility in skill sets across all teams within the service and encouraging self-development.
- Ensuring appropriate resourcing for Reshaping Services projects in order to achieve transformational change.
- Continuing to build on our existing collaborative working arrangements and explore new opportunities to improve resilience in the service especially in specialist work areas and in order to deliver fully integrated working practices.
- Further developing a culture that better supports the wider change programme (Reshaping Services agenda) and enables our staff to develop a renewed sense of corporate identity.
- Ensuring that employees understand how their work fits into the wider work of the Council and how they can effectively contribute to change.
- Continuing to effectively manage sickness absence in line with corporate policy.

ICT

In line with corporate direction we continue to use ICT to work smarter and more flexibly through exploring new ways of working digitally and investing in new technologies. Going forward, the key issues impacting on the service are:

- The increasing demand for ICT solutions by service departments in response to the Reshaping agenda and the Council's Digital Strategy will require significant resources from ICT and there is a need to ensure there is adequate capacity to support the delivery of the transformational change required across the Council.
- Emerging demand to support external initiatives such as the Cardiff City Region project, the Welsh Government's LiDW 2 project (schools' broadband upgrade) and ICT collaboration projects with other Welsh LA's.

Our ICT priorities for 2018/19 outlined below reflect our continuing commitment to working smarter and more flexibly in line with the Council's Digital Strategy.

- Supporting implementation of the Council's Digital Strategy.
- Maximising opportunities for agile working within the service and across the Council.
- Supporting reshaping projects across the Council as well as implementation of major ICT projects.
- Continue to maintain Public Services Network (PSN) compliance.
- Promoting sustainable IT usage by using technology that uses less space and power.
- Working towards Payment Card Industry (PCI) Compliance to ensure we have secure payment processing arrangements in place that meet the required standards.
- Fully implementing E-citizen (including Welsh language version) as part of the Digital strategy, enabling residents and businesses to receive and pay Council bills electronically.
- Supporting managers to use the CIPFA asset management system and IPF asset management system to record asset information.
- Conclude the review the ICT systems and software across the Council to ensure they are fit for purpose.
- Conclude the evaluation of cloud based computing and storage as a potential cost effective solution for the Council, to increase efficiency.
- Implementing a second internet connection to the Council to provide additional service resilience.
- Ensure adequate information security systems and controls remain in order to prevent data breaches and or cyber-attacks and reduce the likelihood of incurring significant fines.
- Continuing to roll out technology refresh programme for staff and elected members, which has enabled more agile working across the Council.

Finance

The estimated base budget for our service area for 2018/19 is £11,718,000 and the planned improvement activities for 2018/19 focus on delivering the in-year savings identified for the service. However, over the following two years, we are also required to deliver further savings which are outlined below:

Scheme	2018/19 (£000)	2019/20 (£000)	Total (£000)
<i>Review of services within Corporate Resources – Reshaping Tranche 2</i>	700	0	700
Restructure/ rationalisation of the Financial Services Division	0	207	207
Review of property costs (Space Project)	303	0	303
Total	1,003	207	1,210

Italicised figures indicate savings targets that have been set for the whole directorate in which this service area is based.

Financial Services will also be contributing to the delivery of general policy and council-wide savings. For 2018/19 these are:

- Review of the Procurement (Reshaping Tranche 3)- £1m
- Income and Commercial Opportunities (Reshaping Tranche 3)- £550k
- Digital Strategy (Reshaping Tranche 3) – £250k
- Establishment Review (Reshaping Tranche 3) – £250k
- Minimum Revenue Provision – £1.5m

Assets

In line with our Corporate Strategy, the service will focus on the suitability and sufficiency of assets to meet the service and corporate objectives by targeting any underperforming assets, reducing the amount of accommodation used to deliver our services as well as identifying opportunities for the provision of multiple service delivery from an asset (co-location).

Going forward, the key issues impacting on the service are:

- There is a need to ensure that our corporate buildings comply with legislation with up to date and accurate compliance data to evidence this. A project team has been established to progress this work as a matter of urgency resulting in the establishment of a Corporate Building Compliance team based within Housing and Building Services, which will be taking forward this work. Going forward the Property team will contribute to this work.

Our key areas of focus for 2018/19 are:

- Maximising opportunities for Community Asset Transfers where appropriate.
- Working with service departments to identify underperforming / inefficient assets which, following an options assessment, could be made surplus.
- Working with owning departments to identify and progress the disposal of the key disposal sites.
- Supporting the monitoring of corporate building compliance data.
- Working with service departments to continue to decrease our energy costs and carbon emissions in public buildings.
- Ongoing review of office and non-office accommodation as part of the Space project, to ensure efficient use.
- Delivering the final phases of the Space Project which will further contribute to a reduction in the amount of accommodation used to deliver services and improve efficiency in the way services operate through co-location and associated financial savings.
- Producing an updated and refreshed Corporate Asset Management Plan with new annual targets
- Continue progressing key priority actions identified in the Jones Lang LaSalle Asset Management Review.

Procurement

In line with corporate guidance we are committed to promoting effective procurement using innovative, sustainable and modern practices to deliver value for money and contribute to the achievement of corporate-wellbeing outcomes.

Key issues impacting on the service are:

- The optimisation of our procurement function/systems in light of the Reshaping Services agenda is anticipated to have an impact on the procurement service going forward. Procurement across all services is a major tranche 3 project under the programme. During 2018/19, we will be working with services across the Council to identify procurement (third party spend) savings in order to achieve the £1m savings target for the year, in line with the Reshaping Services programme.

Our significant projects for the coming year are:

- Develop and implement a central contracts register for the Council to enable effective procurement and contract management.
- Conclude the review of the Council's Print Strategy and procure a replacement contract tender for 2018/19.
- Continue the roll out of digital procurement and invoicing across the Council.
- Support the review of corporate procurement (third party spend) and contribute to identifying savings to achieve the £1m target for 2018/19, in line with the Reshaping Services programme.
- Review and publish a Procurement Policy & Strategy reflecting the requirements of the Modern Slavery Act 2015 and Welsh Government's "Code of Practice for Ethical Employment" in conjunction with Human Resources and Organisational Development.

Consultation and Engagement

We proactively engage with our key stakeholders with a particular focus on our residents and internal client departments. Highlighted below are our planned activities for the coming year.

Consultation activity planned for 2018/19	Brief description of the purpose of the consultation
Budget consultation 2018/19	To consult with the residents, our PSB partners, Business Sector, Glamorgan Voluntary Services, Town and Community Councils on the proposed budgets.
Revenues and Benefits annual customer satisfaction survey	To identify views of service users to inform service developments for improvement.
Completion of Service Asset Management Plan surveys (SAMPs) for 2018.	To identify asset priorities by reviewing condition of corporate assets and identifying underperforming and surplus assets. This information will be used to inform the corporate Asset Management Plan yearly update for 2018/19 and service planning for 2019/20.
ICT customer satisfaction survey	To determine customer satisfaction with ICT service desk.

Collaboration and Partnerships

We continue to explore and promote opportunities for working collaboratively, on a local and regional basis, in order to deliver improved services for customers and deliver savings. Highlighted below are our planned activities for the coming year.

Scoring risks	
Likelihood score	Refers to how likely it is that the risk will occur, that is, the probability of the risk happening. The scoring ranges between 1 and 4, with 1 being very unlikely, 2 - possible, 3 - probable and 4 being almost certain to happen or has already happened.
Impact score	Refers to what the impact would be if the risk occurred. Again the scoring ranges between 1 and 4, with 1 being low, 2 - medium, 3 - high and 4 being catastrophic. Impact would include things such as financial costs, public wellbeing, environmental/ social impact, damage to reputation, health and safety etc.
Inherent Risk	This is the risk score in a pre-control environment
Residual Risk	Remaining risk score after controls have been applied. Shows impact of controls.
Current controls	This is a control score that provides an indication of the effectiveness of the controls at managing the risk.
Forecast Direction of Travel	Anticipates the future direction of travel of the risk by taking into account factors that are likely to impact on it. Risk increasing  Risk is decreasing  Risk remaining static
