## Cymraeg 2050

**'Cymraeg 2050: A million Welsh speakers'** sets out our ambition of creating a million Welsh speakers by 2050. It includes targets to increase the number of teachers competent to teach Welsh as a subject and other subjects through the medium of Welsh.

It also outlines the vision for developing the Welsh language skills of all learners aged 3 to 16 as part of Curriculum for Wales to enable them to use the language in everyday contexts.

# Languages, Literacy and Communication

Welsh is a **mandatory element** of Curriculum for Wales which spans the 3 – 16 learning continuum.

The Languages, Literacy and Communication (LLC) Area of Learning and Experience (Area) addresses fundamental aspects of human communication.

It aims to support learning across the whole curriculum and to enable learners to gain knowledge and skills in Welsh, English and *international languages* as well as in *literature*.

Settings and schools need to plan to ensure all learners make appropriate progress in Welsh, in English and in international languages. The concept of a language learning continuum underlies progression in LLC. Learners will progress from having little or no language skills and knowledge towards proficiency in the languages they learn at school.

## Resources to support LLC Welsh – Tric a Chlic

**Tric a Chlic** is a Welsh synthetic phonics programme for Welsh and English medium primary schools which aims to:

- Teach sounds and letter formation
- Teach constructive strategies to read words and to cut words up for spelling
- Encourage fluency and expression when reading from the beginning
- Offer interactive teaching methods
- Regularly reinforce actions
- Move quickly from one stage to another

**Register for the FREE Tric a Chlic professional learning sessions:**

A Welsh challenge is shared every Wednesday morning via the Welsh Twitter accounts [@CSC Cymraeg](#) and [@CSCSiarterIaith](#)

They are an opportunity for pupils to use Welsh in a variety of contexts.

The challenges are created bilingually and can be used in English medium schools and by Welsh medium schools as home link resources.

All the previous challenges are available on the the Knowledge Bank [here](#) and schools are welcome to adapt or edit them.

This year, Seren and Sbarc have taken over the challenges but they will still be shared every Wednesday and available on the Knowledge Bank [here](#).

# Welsh Language Professional Learning for Practitioners

Developing the Welsh language skills of our practitioners and their ability to teach Welsh and through the medium of Welsh is essential to meet the aims of Cymraeg 2050, Local Authority Welsh in Education Strategic Plans and to deliver Curriculum for Wales.

The **Professional Standards for Teaching and Leadership** and **Assisting Teaching** set out the expectation for practitioners to develop their knowledge and use of Welsh throughout their careers, as well as extending learners' skills and competence in Welsh.

To support the implementation of the professional standards, Welsh Government has developed a single **Welsh language competency framework for practitioners**.

The framework sits within the Professional Learning Passport and enables practitioners to note their progress in developing their Welsh language skills from ITE (Initial Teacher Education) throughout their careers.

The framework is also included in the **School Workforce Annual Census (SWAC)** and all Welsh language professional learning has been mapped to the framework to enable practitioners to easily identify opportunities suitable for them.

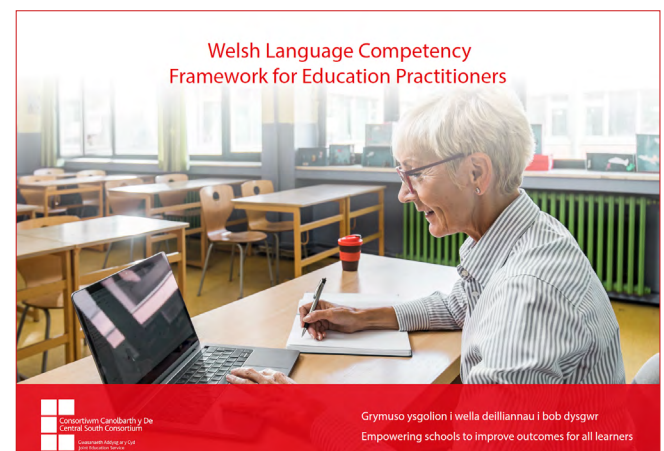

It is advised that all schools regularly ensure that all practitioners assess their Welsh language skills against the Welsh language competency framework. Schools can then analyse this data in order accurately report in the SWAC and to plan appropriate Welsh language professional learning for all practitioners.

## Planning Welsh Language Development for Practitioners & School Workforce Annual Census (SWAC)

This new **playlist** will support school leaders to accurately report practitioners' Welsh language skills against the Welsh Language Competency Framework whilst undertaking the School Workforce Annual Census (SWAC) and to strategically plan appropriate professional learning to develop language competence for all practitioners.
