Hi [REDACTED]

I've looked at the proposed evidence .

I would like a note added if possible.

From the images provided by church terrace.

It's showing the lane entrance block by a car , this is owned by a residents son of church terrace.

This also points out the land is not wide enough to except vehicles .

Not sure how vehicle charging points would work out.

As a resident of cassy Hill no rubbish or bins have been put in the lane .

The entrance to the lane is a chosen refuge pick area by the council for the residents of all cassy Hill again because of accses restrictions .

Vermin do rip bags open and this get cleared by all the residents of cassy Hill.

[REDACTED]  
to improve the accses for everyone cassy Hill and church terrace .

Keeping to the heads of terms and planning guidelines. Massively improving the area for everyone.

Kind regards  
[REDACTED]
